American Railroad Journal.

Saturday, November 18, 1876.

Financial and Commercial Affairs.

The doubt in which the result of the late election for President of the United States is involved, and the violent language used by the more pronounced partisans of either candidate, have caused a little uneasiness in financial and commercial circles, exciting some distrust in values, and imposing a decided check upon legitimate trade. The contest is likely to be prolonged and embittered, but as the best influences of both parties are exerted to promote a satisfactory solution of the difficulty, no serious disturbance of the ordinary course of affairs need be apprehended. The decline in railroad shares has been very general, and railroad bonds have shared in the weakness. The coal roads have suffered most, as the prevailing very mild weather has discouraged hopes of a revival in their trade. There was some recovery towards the close of Tuesday's business, owing to the fact that many stocks had been over sold, together with rumors of another conference to advance freights. There was also a subsidence of the feverishness of excitement regarding the result of the election, though the danger of a prolonged contest concerning the result seemed to be increased. On Wednesday, the opening was buoyant, but at the close the market had lost all heart, and the improvement was lost. It may be noted, however, that the Ohio and Mississippi shares and bonds, which have been the object of assault, closed more steady.

The speculation in gold has presented few features of moment, and the fluctuations in the premium have not been wide, closing on Wednesday at 109¾. Exchange has slightly hardened in

gold rates, and prime 60 day bills close at $4 82 @$4 83, but the close on Wednesday was dull. The exports of merchandise for the week are valued at $5,431,408, against $4,832,890 for the corresponding week last year; and $234,588,272 since January 1st, against $222,144,117 for the corresponding period last year.

Government bonds show a partial and some what irregular decline. Foreign markets have been weak, and the offerings from American holders have increased. On Wednesday the closing prices were:

United States currency sixes, 123⅜@124; do. 6s, 1881, registered, 116⅝@116⅞; do. coupon, 117¼@117½; do. 1865, registered, 109⅞@110⅛; do. coupon, 110@110¼; do. new, registered, 112⅝@112⅞; do. coupon, 112⅝@112⅞; do. 1867, registered, 115¾@116; do. coupon, 115¾@116; do. 1868, registered, 116½@117; do. coupon, 116½@117; do. ten-forties, registered, 113¾@114¼; do. coupon, 114½@115; do. fives, 1881, registered, 112¼@112½; do. coupon, 112¼@112½; do. four and one-halfs, 110½@111.

The money market has been quite feverish, closing on Wednesday at 3 per cent on call, with prime mercantile paper going at 4½@6½ per cent. The banks of New York continue to weaken their currency reserve, and it is now only slightly larger than last year at this date.

General trade is very dull. The doubt and uncertainty respecting the result of the Presidential canvass have a depressing influence. But there have been some speculative influences at work. The advance in cotton has been followed by a sharp decline, but the close on Wednesday was steadier. Breadstuffs and provisions have risen in value, stimulated by the war rumors from Europe. There has been more activity in shipments of produce, and ocean freights are higher.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Canada Southern 1st mort., coupon on, 57; Quincy and Toledo 1st mort., 60; Belleville and Southern Ills. 1st mort., 84⅞; Boston, Hartford and Erie 7s, guar., 17; Nashville and Decatur 1st mort., 89; Canton Co., 30; North Carolina 6s, Special Tax 3d class, 2⅜; Tennessee 6s, old, 45⅝; do. new, 45¼; do. new series, 45¼; Louisiana 7s, consol, 59¾; Missouri 6s, long bonds, 106¼; do. 6s, 1877, 102; do. 1878, 102⅜; New York State 7s, B. Illinois Central Railroad.

During the month of October, 1876, 920.28 acres of Land were sold for $5,860 09. The Cash collected on Land Contracts during the same time was $10,178 95. The Traffic on the Main Line in Illinois was $542,433 17, against $606,100 54 in October, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts) was $176,306 77, against $210,407 61 in October, 1875.

☞ We are officially informed that the usual dividend of 1½ per cent on the new or 4½ on the old stock of the Nashville, Chattanooga and St. Louis Railway Company was made and declared on the 1st October, 1876, and has been paid; and that the surplus over the two dividends of 1½ per cent each for the year ending July 1st, 1876, after charging up every thing to expense, was seventy-seven thousand dollars.

☞ At the annual meeting of the New England and Derby Railroad Company held in New Haven on the 15th inst., an amendment to the charter of the company, giving it power to consolidate with the New England and Erie Railroad, was accepted. This favors the establishment of a through line from New Haven to cross the Hudson by the new Poughkeepsie bridge. Mr. F. Tyler, a son of the late Morris Tyler, was elected Director in the place of his father.

Pacific Mail Steamship Co.

At the regular monthly meeting of this company held on the 15th inst., resolutions were adopted approving the proposed contract between the company and the Panama Railroad Company. By this contract, it was stated, the same privileges are granted to the steamship company and the Panama Transit Company, for a term of three years, the latter company having agreed to waive its exclusive right for that length of time to the privileges granted it in the contract made with the Panama Railroad Company last Winter, and to enter into a new contract with the railroad company similar in all respects to that proposed between the railroad and the steamship company. The new contracts, as proposed, it was also stated, do not differ materially from the old contract between the transit company and the railroad company, although it was regarded by some as more favorable to the Pacific Mail Steamship Company than the agreement under which it has been working for some time past. About $500,000 of the indebtedness of the Pacific Mail Company, it was stated, has been paid since the present administration went into power, in June last, without creating any corresponding amount of liabilities.

Central Railroad of Georgia.

The earnings of the Central Railroad and Banking Company of Georgia for the year ending August 31, 1876, were $2,657,026, the expenses $1,635,131, and the net earnings $1,021,895. For the year ending August 31, 1875, the earnings were $2,886,536, the expenses $1,686,705, and the net earnings $1,199,932—showing a decrease in earnings of $229,510, a decrease in expenses of $51,574, and a decrease in net earnings of $177,937. President Wadley attributes the decrease in business to short crops and sharp competition. The latter, says the Augusta Chronicle, is the evil complained of by most railroad corporations of the South. On the night of the 13th inst. a fire occurred in the depot cotton yard in Savannah, whereby a warehouse containing fertilizers, 2500 bales of cotton, 20 empty cars and 20 cars loaded with freight were destroyed.

☞ The Directors of the Central Railroad Company of New Jersey have appointed W. W. Stearns of Elizabeth, formerly Superintendent of the Long Branch Division, to be Assistant General Superintendent of the Central Railroad, its divisions, and branches in New Jersey, and W. S. Polhemus to be Assistant General Superintendent of the Lehigh and Susquehanna Division and branches.

☞ At a meeting of the stockholders of the Pittsfield and North Adams Railroad Company, held in Boston on the 15th inst., it was voted to authorize and instruct the directors to make application to the next Legislature for authority to sell and transfer the property and franchise of the corporation to the Boston and Albany Railroad Company, and that full power be given to the Directors to carry into effect the purpose of this vote.

☞ The canal tolls receipts for the month of October, 1876, were $227,236 74, against $267,641 87 for the month of October, 1875—a decrease of $40,305 13. The decrease for the season so far has amounted to $219,448 38.

New York Elevated Railroad.

The new section, or siding, or second track, of this road, extending from Bank street to Twenty-fourth street, was so far completed on Monday as to admit of the running of regular passenger trains over it. The formal opening of the road was however deferred until next week, when it is expected that the connections between the siding and the stations on the old line will be effected. The new time table of the company will then be issued, showing an interval of only 7½ minutes between trains, instead of 15 minutes as hitherto. And possibly this interval may in time be reduced to 6 minutes. It is also proposed to run the trains earlier in the morning and later in the evening than now—say from 5:30 am. to 11. p. m., instead of 5:56 am. to 7:07 p. m., as at present. Eight new cars have been added to the rolling stock, and others are in process of construction. Two improved dummies will be placed on the line by the 1st of December. Eighty-two trains are now running each way daily; and these in October carried 225,119 paying passengers, against 112,289 in October 1875—an increase of 112,830. During the month of September there were carried over the line 198,632 paying passengers, against 110,197 in September, 1875—an increase of 88,435. The road is about five miles long, from the Battery to Sixty-ninth street. It is doubled-tracked about half the distance. It is proposed to continue the second track the entire length as soon as possible. It is also proposed to extend the road up to the new Central Park building in Seventy-seventh street. The extension may possibly be accomplished this year. The business thus far in November has been equally as satisfactory as in October, while the increased facilities contemplated will add greatly to the number of passengers.

☞ Measures are being taken for the immediate construction of the Bangor and Calais Shore Railroad. Engineers are already surveying the proposed route. The gauge will be three feet six inches. Bangor has been designated by the directors as the western terminus of the road instead of Bucksport. The principal towns on the line of the proposed road after leaving Bangor are Ellsworth, Cherryfield, East Machias, Pembroke, Calais, and thence to Eastport. Over $600,000 have been subscribed by towns along the route in aid of the enterprise.

☞ The earnings of the Great Western Railway of Canada for the month of September, 1876, were $389,000, the expenses $270,000, and the net earnings $119,000; for the month of September, 1875, the earnings were $359,000, the expenses $277,000, and the net earnings $82,000—an increase in earnings of $30,000, a decrease in expenses of $7,000, and an increase in net earnings of $37,000.

☞ The Pennsylvania Iron Works at Danville, Penn., have been started with good prospects of running all Winter. They have lighted up sixteen puddling furnaces and started the rail mill.

☞ By an arrangement made through the British Minister, the new railway to Shanghae has been purchased by the Chinese authorities and placed under their control.

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

Chicago, Milwaukee and St. Paul Railway.

The following letter was received and read at the Stock Exchange on the 14th inst.:

CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY CO.

S. T. RUSSELL, Esq., President New York Stock Exchange.

DEAR SIR: By a resolution of the board of directors of this company, I am instructed to notify the New York Stock Exchange that after the 30th day of December next the report of the weekly earnings will be discontinued.

Yours, very respectfully,

JULIUS WADSWORTH, Vice President.

Texas and Pacific Railway.

We learn from Colonel Crawford that the engineer corps of the Texas Pacific, having completed their survey through Bear canyon, will be moved to the summit to commence the development of the descent of the eastern slope through the Carriso canyon. The results that have been obtained are of a remarkably favorable character. Colonel Crawford will remain in town a few days attending to necessary business here, when he will rejoin his corps at the Summit. The working force will soon be increased, and material will be sent forward to the construction party at Yuma.—*San Diego Union.*

☞ The Bingham Canon and Camp Floyd Railroad is 22 miles in length, extending from Sandy, a point on the Utah Southern Railroad, to Bingham City. The road was commenced in the Fall of 1873, and completed in the Spring of 1875. The amount of capital stock is $600,000 in shares of $100 each. The bonds, of which there are 300 of $1,000 each, amounting to $300,000, are dated July 1, 1873, and mature July 1, 1893. They bear eight per cent interest in gold, payable semi-annually in New York or London.

☞ The Dutchess and Columbia Railroad Company has been reorganized under the name of the Newburgh and Connecticut Railroad Company.

☞ The Pennsylvania Company are now operating the Northwestern Ohio Railway, hitherto known as the Toledo, Tiffin and Eastern Railroad, extending from Tiffin to Woodville, Ohio.

☞ The Richmond and Danville Railroad, between Danville, Va., and Greensboro', N. C., 48 miles, is to be relaid with new rails.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

Charlotte Harbor and Northern Central Railroad of Florida.

At a meeting of the stockholders of this company (formerly the Gainesville, Ocala and Charlotte Harbor Railroad Co.) held at Philadelphia on the 20th ult., B. F. Matthias, H. C. Howard, Geo. B. Phinney, Geo. H. Backwood, N. R. Gruelle, James Hunter, Thos. C. Lanier, S. P. Ivey and N. S. Blunt were elected directors for the ensuing year. At a meeting of the directors held subsequently, B. F. Matthias was elected President, Geo. H. Backwood Vice President, N. R. Gruelle Secretary and H. C. Howard Treasurer. The line of this road, as at present located, extends from Charlotte Harbor northward through Central Florida to the Northern boundary of the State, and will be continued into the State of Georgia to the most practicable point on the Atlantic and Gulf Railroad. The work of construction will, it is said, be commenced at an early day. The road will be narrow gauge.

California Railroads.

Although the Stockton and Ione Railroad is completed to within four miles of Ione, it is not expected, owing to the heavy rains, to be in running order much before Christmas. There are four bridges and some trestlework besides culverts to be built. The lower end of the road is now being ballasted

The Yuma Sentinel says that work on the Texas and Pacific Railway is going on, and the grading party is stretching out on both sides of the river, under charge of Mr. Reynolds, Chief of Construction, in the temporary absence of Colonel Crawford, Chief Engineer and Superintendent.

Some 250,000 railroad ties have been received by the Southern Pacific Railroad within the last two months. This is sufficient to lay 120 miles of road.

☞ Two narrow gauge street railroads are now in active operation in Columbus, Ohio, one of which has been running for more than a year.

American Railroad Journal.

New York, Saturday, November 25, 1876.

Earnings of Western Railroads.

The values of shares and bonds of some of the more important of the Western railroads have declined of late, owing to the fact that their earnings are smaller than last year; and apprehension exists, based on a variety of circumstances, that no improvement in this regard can be expected for many months to come—perhaps not in the current crop year. The deficiency seems to have occurred from a falling off in the quantity of flour and grain marketed. The quantity received at the eight principal markets of the West, for the week ending November 11th, aggregated 145,000 bbls. flour, and 3,142,000 bushels of grain, against 151,000 bbls. flour and 4,659 000 bushels of grain for the corresponding week last year—a deficiency of 6,000 bbls. flour and 1,517,000 bushels of grain. The falling off is in wheat and oats, of which it is said the Western crops were deficient the past season, the former in quantity and the latter in weight. The movement from the beginning of the crop year on the first of August, does not show, however, any deficiency. There is an increase in the quantity of flour marketed, the aggregate being 1,768,000 bbls. from August 1st to November 11th, 1876, against 1,624,000 bbls. for the corresponding period of last year; and the quantity of grain marketed this year, in the period above stated was sixty-eight million bushels, against sixty four millions for the corresponding period last year. But this increase was all made, and more, by the first of October, and the falling off since that date is really very serious. The old crop of Indian corn (the receipts of which during August and September, 1876, were more than twice as large as in August and September, 1875,) had begun to be exhausted, while the new crop is not even now in condition to move in any large quantities. There are explanations for the falling off in wheat and oats that are not dependent upon the assumption that the crops of these cereals were materially deficient. Prices, from various causes, but chiefly the poor quality of the crops of 1875, had been forced down very low—ruinously so—leaving the farmer without inducement to send his surplus to market. Any change, he justly argued, must be for the better. Again, over a limited area, the wheat crop was undoubtedly deficient, and this fact, on becoming known, together with the partial failure of the crop in England, and the lowering aspect of European politics, excited strong expectations in the minds of farmers that prices would advance. They consequently have sold their wheat as sparingly as possible, encouraged in this course by the fact that prices have considerably improved. There was also a belief that oats would be higher, which has proved to be well founded. The Presidential canvass had the effect no doubt of checking the deliveries of grain from the farmers' hands. One of the principal wheat growing States (Wisconsin) was very hotly contested, and in some others the canvass was sufficiently animated to absorb much attention. The increased receipts, for the current week, so far as reported at this writing, leave little doubt that the subsidence of political excitement, as well as the higher prices current, will at once be followed by an increased movement of grain. The new crop of corn just begins to move. The autumn has been favorable for getting it into condition for shipment. The prospect for a liberal freight movement toward tide water is therefore a good one. As for return freights, the clearing up of the political situation can scarcely fail to lead to a revival of trade. The marketing of the crops will supply the people with funds. Their wants must be large; and they will have the means of supplying them. There is therefore every reason to believe that the earnings of Western railroads will increase.

Chesapeake and Ohio Railroad.

The Committee of Reorganization, of which Mr. A. S. Hatch is Chairman and Mr. James J. Tracy Secretary, referring to their circular of September 15th (copies of which will be forwarded, upon application, to any address,) desire to call the attention of Bondholders, to the importance of promptly depositing their Bonds with the Central Trust Company, in accordance with the directions heretofore given, in the Circular above referred to.

It is proposed to apply for a decree of sale during the present terms of the Courts of Virginia and West Virginia, now in session, and it is important that the Bonds should be actually on deposit, subject to the Plan of Reorganization, at the time of making the application.

Bondholders who have not already deposited their Bonds will promote their interests and aid the Committee in their efforts to avoid unnecessary delay and secure an early reorganization under favorable conditions, by doing so within the next few days.

About $17,000 000 of the Bonds have been deposited up to this date, out of a total of $27,112,-000, being a majority of both classes, and representing between 800 and 900 separate Bondholders.

The office of the Committee is at No. 5 Nassau Street, New York.

☞ At last accounts there remained but 2½ miles of track to be laid to complete the Columbus and Toledo Railroad from Columbus to Walbridge, five miles south of Toledo. Permanent arrangements have been made with the Pennsylvania Company for the joint use of its line from Walbridge to Toledo, and depot in Toledo.

Louisville and Nashville Railroad.

The following is a condensed statement of the earnings of the Main Stem, Branches and Leased roads for the year ending June 30, 1876:

	Memphis Division.	Clarksville Division.	Main Stem.
Passenger.	$244,570 15	$162,318 16	$558,347 26
Freight ...	328,122 54	314,865 62	1,340,328 68

Nash. & Decatur R. R.	249,705 86	
Glasgow Railroad....	4,205 89	
South and North Alabama Railroad.....	256,230 14	
		$1,967,960 05

The total gross earnings of the Main Stem and Branches and Memphis Line were $3,637,929 75, the expenses $2,180,111 59, and the net earnings $1,457,818 16; interest on bonded debt of same $1,117,297 76—showing surplus earnings of $340,520 40, against $153,100 70 in the year 1874-'75, an increase of $187,419 70.

A statement is given showing the gross earnings, operating expenses and net earnings of all the roads for the fiscal years ending June 30, 1873, 1874, 1875 and 1876, from which it appears that for the year 1872-'73, out of $6,106,051 84 gross earnings the net earnings were $1,484,047 87; for the year 1873-'74, gross earnings $5,510,695 45, and net earnings $1,565,382 34; for 1874-'75, gross earnings $4,863,873 80, and net earnings $1,682,132 84; and for 1875-'76, gross earnings $4,961,490 29, and net earnings $1,967,960 05. The expenses for 1872-'73 were $4,622,004 47, and for the last year $2,993,530 24, a difference in favor of 1875-'76 over 1872-'73 of $1,628,474 23; over 1873-'74 of $951,782 87; and over 1874-'75 of $188,210 72. The net earnings of 1875-'76 exceed those of 1872-'73 $483,912 68; those of 1873-'74 $402,577 71; and those of 1874-'75 $285,827 21. The President in his report says:

From the foregoing statements it will be seen that notwithstanding the great financial depression of the country during the past three years, and which is yet upon us, nearly every road that we operate is receiving the benefit of increased traffic, which we are moving at a minimum cost.

Down to December last there was a falling off in our gross receipts, compared with the previous year, of $57,332 10; but since that time business has revived to such an extent as to make up this deficiency and give an increase in gross earnings for 1875-6 over 1874-5 of $97,616 49. This increase has steadily maintained itself since January, 1876, and we now have every reason to believe will continue through the present fiscal year.

The present management has adopted and applied a rigid system of economy in every department of the service. We have reduced salaries and consolidated departments wherever practicable. The force of employes of the road has been greatly reduced, and a reduction of wages has followed with those retained. The result has thus far been of great benefit to the company. Notwithstanding this economy, our track, road bed, rolling stock, and machinery were never in better order than at present.

During the past year we have labored under many disadvantages besides the potent one of the financial depression of the country. In July and August, 1875, occurred floods of a most destructive character. These floods interfered seriously with the movement of trains, and by keeping the rivers in a navigable condition reduced the volume of freight traffic, and upon us the additional disadvantage of carrying what remained at a low rate—a state of affairs that lasted throughout the entire year, and a fact unprecedented in the history of the road.

We take this opportunity to call your attention to our different roads, and to discuss their prospective needs in order to obtain from them in the future the greatest revenue for the outlay already made.

Our Main Stem, extending from Louisville to Nashville, is in excellent condition, and for superior equipment, road bed, machinery, etc., it has hardly its equal in the country, and this can be said generally of all the roads under our control.

As the country increases in population along its line a system of short feeders will be of great value to its local traffic, and this will protect us in a great measure, from the competition of parallel roads.

Our Bardstown Branch yields a good revenue in itself, besides throwing considerable business upon our Main Stem.

The Knoxville Branch brings us considerable revenue. The value of this road would be greatly enhanced by its extension to London, a distance of eighteen miles from Livingston, the present terminus, and which is already graded. London is the center of a large extent of country. From it good wagon roads radiate in all directions, except in that of Livingston. The road to this latter point is very difficult of passage for wagons, and is the serious drawback to our getting the traffic from London. The city of Louisville and the counties of Knox and Laurel would no doubt aid us liberally in this enterprise at the proper time.

Our Richmond Branch is of little value to us at present. The leading citizens of Richmond now propose to build a railroad from that place to the Three Forks of the Kentucky River, tapping a country peculiar for its richness in coal, iron, and timber.

That the people of that portion of Kentucky should allow a region equal in extent to the mining districts of Pennsylvania to go undeveloped is unaccountable. The Louisville and Nashville Railroad Company can well afford to extend to this enterprise liberal aid; inasmuch as it would necessarily open a new territory of ten or twelve counties, and largely increase the business of the Richmond Branch; and for a greater reason the city of Louisville can afford to extend liberal assistance to the enterprise.

The Glasgow Road, for its size, is one of our most valuable feeders.

The Memphis Line is doing well, better than since the panic. With an improved condition in our connections west of Memphis this part of our line will be of great value to us in the future.

The Nashville and Decatur Road, which we lease, is valuable to us as the connecting link between the South and North Alabama Road and the Main Stem. It also passes through rich agricultural country, and, although the terms of the lease are very onerous, still we trust that this road will, in the immediate future, yield us, in itself, considerable revenue. There has during the last year, been a handsome increase in the business of the road and a marked improvement in its condition.

The South and North Alabama Road, in which we own the controlling stock and which we operate, shows more marked improvement than any other of our roads. It will be seen that the gross earnings have increased $120,401 92 and the net earnings $90,495 42 over last year. This road traverses, as yet, a comparatively undeveloped country, but which is singularly rich in its mineral resources. It passes through the far famed Red Mountain, with its fabulous stores of iron ore.

* * * * * * * * *

Our connections south of Montgomery are not altogether satisfactory. When a former administration deemed it to our interest to aid in the construction of the South and North Alabama Road, to overcome certain difficulties in the way of securing business, it did not go far enough; some of the difficulties still remain.

It is of vital importance to our system that we reach the Gulf over roads under our control.

We now reach Montgomery, a thriving city in itself, but remote from the initial points of the traffic we seek. This places us at the mercy of the roads bringing this traffic, and although our relations are now of the most harmonious character, true policy would seem to indicate that we make ourselves independent.

With a line under one management to the Gulf a large and extensive trade could be developed. To this end three different routes to the coast present themselves for our consideration, and it remains for this company in the future to decide which is the most eligible, and which may be obtained upon the most favorable terms.

Most of the South and Central American and Indian imports come to us via the Atlantic coast, few of them via the Gulf, notwithstanding it is nearer; and the imports from these countries are wonderful now, and will be larger in the future. Large quantities of sugar, coffee, spices, fruit, hides, valuable woods, etc., come from those countries to us, for which we send in exchange immense quantities of flour, corn, coal, pork, beef, bacon, lard, tobacco, etc., and these exports and imports are constantly increasing.

Europe is now supplying the West Indies and South America with manufactured goods. American houses are as yet unrepresented in this line of business, but their attention has lately been turned to it, there being no reason why the United States, and particularly the Mississippi Valley should not be large exporters to those countries of such articles as cotton cloths, jeans, dry goods, hats, boots and shoes, machinery of all kinds, etc. The manufacture of most of these articles, for politico-economic reasons, is seeking a place more contiguous to the seat of the production of the

raw article, which is in the West and the South.

The passenger traffic that could be controlled would be very large. From Vera Cruz alone it is estimated that over 12,000 passengers go to Europe, and without sufficient information regarding our railways they take the long sea voyage, when by passing through the United States time and money would be saved and greater comfort secured.

Again, we have 500,000 acres of valuable lands in Alabama, a large proportion of which contains minerals, and whose value would be greatly enhanced were we to own an independent line to the coast. We could build up a great coal trade, both with these countries and the Gulf coast, thereby vastly increasing the business of our South and North Road.

Havana consumes great quantities of coal, as does Mexico and South America. At present Pensacola and Key West, both naval stations, draw their supply of coal from Baltimore, when we could furnish it from along our South and North Alabama Road upon better terms.

In short, trade with these countries and the Gulf coast would be one of vast possibilities, and as the Mississippi Valley will, from its geographical position, control the greater portion of this commerce, we find an additional and a great incentive to lead us not to be too tardy in reaching the Gulf with our system. True wisdom in dealing with what we have should impel us to make such additions to our lines as would place us on an independent footing with regard to the traffic we now handle and which we will handle in the future.

A great hardship to which all railroads have to submit at the present time is the excessively low rates for business. This difficulty is greatest when the business is the lightest, as it induces stronger competition. Many roads are in the hands of receivers, who pay no dividends or bonded interest, and can afford to work very cheaply, and this in its turn involves a peculiar hardship upon solvent roads.

This subject of low rates has lately received the attention of leading railway minds, and with the efforts now being made to consolidate the freight traffic of the different sections of the country and place it upon a basis that will yield a fair return to all the roads, we can soon expect a partial dissipation at least of this trouble.

* * * * * * * * *

Our relations with other roads continue, with perhaps one exception, of the most harmonious character. With a road situated as our own and dependent for a portion of its traffic upon its connections this is a matter of congratulation.

We regret to state, in this connection, that we have been unable to make satisfactory arrangements for our Texas traffic beyond Little Rock, thus compelling us to seek an outlet into Middle and Northern Texas by the circuitous route via New Orleans and Galveston.

The company controlling the road beyond Little Rock refuses to sell coupon tickets by way of our line at all (even to Louisville proper) and will not recognize tickets sold by us, or by companies south and south west of that point desiring to furnish their customers tickets by the shortest and quickest route. An arbitrary or local is exacted in both passenger and freight rates on all business going to or coming from their road and passing over our line.

We have submitted to this unjust discrimination on the part of that company for several years to the detriment of ourselves and our shippers, and we feel that it has caused us all the injury in its power to inflict. It is true, we can retaliate to the great damage of our rival; but our policy is a conservative one, and we have hoped that the usual good judgment of the managers of that company would soon lead them to abandon their course and allow us the privileges to which we are clearly entitled.

Our line, by the way of Memphis and Little Rock, is one hundred and fifty miles the shortest route from Cincinnati and Louisville to Middle and Upper Texas, and this is a natural advantage that cannot be safely ignored. The interests involved are large, as it not only concerns the whole line of our road but the shippers of every town and city contiguous to it, who are now losing their grasp upon a business that has been very profitable to them in the past, and which would, if allowed to flow in its natural channels, be of incalculable value to them in the future. If there be an ultimate failure to reach an equitable adjustment of these difficulties it will result in the speedy construction of a road from some point in Arkansas to Texarkana, which will place us in direct communication with the Texas system of railroads.

The construction of a road via Pine Bluff and South-western Arkansas is a project already under discussion by capitalists, who have the ardent co-operation of the Memphis and Charleston and Memphis and Little Rock Railroads, as well as that of our own, and also leading commercial men of Louisville and Memphis. It would open up along its line a very rich and productive country, which, in itself, would bring a large traffic to our roads and a profitable business to the people contiguous to them; and, as it could be so cheaply built, there is little doubt that it would be self-supporting from the first.

It is not necessary to mention the amount of business that a connection with Texarkana would eventually give to us. Texarkana is on the line of the Texas and Pacific Road, and few doubt the speedy completion of that road to California. As we would have the shortest route from Texas to Louisville, Cincinnati, and other eastern points, it is fair to presume that the bulk of the agricultural products of the Empire State of the South-west, the wealth of the mines of Arizona, New Mexico, and Northern Mexico, with the traffic of the Pacific coast, would all seek this road and our own in its passage to the Atlantic.

* * * * * * * * *

In conclusion, we have to say that the financial condition of our company within the past year has very much improved. We have come safely through one of the greatest financial depressions ever known in the country; and that in itself is a subject of felicitation for the stockholders. Our business is now constantly increasing, while our expenses are less per mile than ever before. Every part of the road is in excellent condition; we have fewer accidents than ever, and what we do have are of a trifling nature; our organization is pronounced by experts as good as any in the country; the officers of the road are men of great skill; and we feel warranted in saying that, with a continuance of the present volume of business, we shall be able during the next year to resume the payment of dividends.

Duxbury and Cohasset Railroad.

At a meeting in Boston on the 18th inst. of the committee appointed at a previous meeting in Middleborough, committees were appointed to confer with the Boston, Clinton, Fitchburg and New Bedford and the Old Colony Railroad Companies in reference to the proposed extension of railroad facilities in Plymouth and Bristol counties. The following vote was also passed:

Resolved, That the towns of Scituate, Marshfield, Duxbury and Plymouth, stockholders in the Duxbury and Cohasset Railroad Company, be requested in the name of this committee to co-operate with us in securing the additional communication desired, either by the extension of the Duxbury and Cohasset Railroad from Kingston on the south or from Cohasset on the north, or otherwise as the further consideration of this committee shall decide to be advisable.

S. F. Jenkins and H. B. Maglathlin were appointed the committee to confer with the Boston, Clinton, Fitchburg and New Bedford Railroad Company and Stephen M. Allen and George T. Stearns with the Old Colony Railroad Company.

Nashville, Chattanooga and St. Louis Railway.

RESIDENT ENGINEER'S REPORT.

RESIDENT ENGINEER'S OFFICE,
NASHVILLE, CHATTANOOGA & ST. L. RAILWAY,
NASHVILLE, TENNESSEE, July 1, 1876.

COL. E. W. COLE, President:

SIR—During the fiscal year just closed, 12½ miles of track, on the Raccoon Mountain, have been laid with steel rails, and 18 miles, at other points, with iron rails; and 68,086 cross ties have been put in the track.

The chief repairs made on bridges, trestles, buildings, etc., were three spans of beam trusses (50 feet each) over Wartrace Creek, one over Summer street, and one truss girder (36 feet span) over South Spruce street, in Nashville; and three turn-tables; all of which were constructed of long-leaf yellow pine; 924 feet of trestle-work rebuilt; 3,479 lineal feet of stringers, and 5,800 cross ties renewed on bridges and trestles. Depot and platform at steamboat landing; coal chute and watchman's house at Bridgeport; five cedar tanks and frames, and one engine house for water stations; three section and tool-houses on the line, and engine shed constructed at Nashville, 33 by 255 feet.

A large area of wood platform attached to the passenger shed at Chattanooga, has been abandoned, and cinders from coal burning engines substituted, which answers the purpose admirably. The passenger and other platforms along the road may be constructed of them, and this item of expense diminished in the future.

I have reduced the dimensions of timbers used for rebuilding trestle-work below the stringers, and am dispensing with every foot of lumber and timber possible, where it is exposed to the weather, and use coal tar on the unprotected timbers of bridges, turn-tables, and trestle-work, and am confident it will add several years to the life or durability of them.

Strict economy has been observed, and the smallest number of men employed requisite to perform the labor required, in every branch of the department, to maintain the roadway; and close scrutiny kept over the purchase of materials and supplies, and the use and application of them.

A steam excavator has been purchased, at a cost of $4,627 27, including repairs; and filling trestle-work commenced at Sullivan's branch, twenty-five miles from Nashville.

The past year has been one of much labor, though a pleasant one, and I feel thankful for the co operation of the officers of the road, and valuable assistance rendered me by Mr. E. Culverhouse, Supervisor, and those in charge of the subdepartments; and it is pleasant for me to be able to state that your property has not depreciated, but improved, and is to-day in a better condition than at any time previous.

EXHIBIT OF EXPENDITURES.

Superintendence	$4,808 35
Repairs of bridges and trestles	18,654 02
Repair of buildings	*5,738 32
Cross-ties	25,840 50
Labor on roadway	108,149 64
Iron rails	60,936 41
Steel rails	33,385 60
Chairs and spikes	8,494 88
Switches	2,975 03
Turn-tables	842 90
Repair of road cars	85 25
Watching bridges	3,599 14
Repair of division houses	537 94
Repair of water stations	2,334 19
Tools	1,794 48
Repair of tools	1,382 97
Conductors, engineers and firemen—gravel trains	4,199 70
Oil, tallow and waste	451 43
Repair of construction cars	292 77
Stock gaps and drains	605 06
Repair of masonry	425 04
Coal chutes	493 53
Broad street tunnel	115 68
Fencing	173 24
Damage by freshet	5,190 08
Cistern	627 82
Repair of steam excavator	627 27
Filling trestles	1,451 27
Total	$204,212 51

* The amount expended on repairs of buildings is $4,627 12—$1,111 20, included in this, was paid to the State of Georgia for platform constructed at the passenger shed at Chattanooga previous to my connection with the road.

On March 18th the depot at Wartrace was burned; and Bridge No. 12, on the St. Louis Division, (two spans "Howe" trusses, 100 feet each,) was burned on the 12th of May, and a contract closed with the Louisville Bridge and Iron Company, May 22nd, for two spans of Combination Bridge, on "Fink's triangular" plan, to supply its place, which will be completed by the 12th inst., at a cost of $4,763 70.

A depot of brick, with sheet iron roof, at Wartrace, has also been contracted for, the cost of which will not exceed $1,500.

During the present year, 21 spans of beam truss bridges (960 lineal feet) will be rebuilt, of long-leaf yellow pine, cost not exceeding $7,500. The other repairs required to maintain the way will be fully equal, if they do not exceed, those of the past year.

The location for the extension of the Jasper branch, 7¼ miles up the Sequatchie valley to the coal mines of the Southern States Coal, Iron and Land Company, has been completed, and the estimated cost, including side tracks, depot, and water station, to place the track above high water of 1867, is $90,701 60.

Facilities for transportation, furnished by the extension of this branch, will offer inducements for the development of new coal fields and iron ores, and the products of the upper valley, a large portion of which is hauled in wagons over the mountains to Chattanooga, will be diverted, and seek an outlet over this road.

Sequatchie Valley is sixty miles long and five miles wide, with an area of three hundred square miles. A large portion of this area is fertile and productive land. The Sequatchie River runs the entire length of the valley.

Cumberland table land, west of the valley, contains a coal field of vast extent (I have visited three mines, not exceeding twelve miles from the projected line for the extension of this branch, with outcrops of seven to ten feet thick, dormant,) easy of access by the gorges, which extend far into the mountains, along which roads may be constructed with comparatively light grades and at small cost—the whole field being easily reached by rail transportation.

On the east, a few hundred feet above the valley, there is a deposit of hemetite iron ore from four to eight feet thick, skirting the valley, and extending many miles, if not the whole length of it.

To the development of these heretofore unproductive resources we must, in a great measure depend, for an increase of a producing population, furnishing traffic and travel for our roads, and an increase of local business.

The coal and iron remaining dormant, up to this centennial year, in the mountains contiguous to this valley, when developed, will build up a South Pittsburg, and a traffic on this branch that will yield a revenue, and make it a fruitful feeder of your main line.

Respectfully submitted.

R. C. MORRIS,
Resident Engineer.

Baltimore and Ohio Railroad.

The annual meeting of the stockholders of the Baltimore and Ohio Railroad Company was held in Baltimore on the 20th inst. Archibald Stirling, Sr., was called to the chair, Wm. H. Ijams secretary. President John W. Garrett submitted the fiftieth annual report. The following were unanimously elected directors to serve for the ensuing year by a vote of 44,116 shares: Galloway Cheston, Samuel W. Smith, Francis Burns, John Spear Nicholas, John Gregg, Francis T. King, James Harvey, Wm. W. Taylor, Samuel Kirby, John King, Jr., G. A. Von Lingen, Decatur H. Miller.

FIFTIETH ANNUAL REPORT.

The annual report for the fiscal year ending September 30, 1876, shows the total gross earnings of the main stem and all branches operated by the company to be $15,031,235 73. The aggregate earnings, working expenses and net earnings of each line are given as follows:

	Earnings.	Expenses.
*Main Stem	$9,632,361 06	$5,411,635 53
Washington Branch	367,148 81	105,334 05
Parkersburg Branch	677,962 39	642,456 51
Chicago Division	1,231,785 88	1,065,082 86
Central Ohio Division	889,191 59	837,354 99
Lake Erie Division	806,923 51	577,552 74
Wheeling, Pittsburg & Baltimore R. R.	50,880 18	45,646 40
Newark, Somerset & Straitsville R. R.	163,574 78	146,934 78
Pittsburg Division for nine months from Jan. 1, 1876	1,211,407 53	777,858 33
	$15,031,235 73	$9,609,856 19

Total net earnings, $5,421,379 54.

This shows an increase with the Pittsburg division, (not heretofore included,) compared with 1875, of $586,997 17.

The expenses of working and keeping the above roads and machinery in repair amounted to $5,411,635 53, being 56.18 per cent upon the earnings, showing a decrease of 2.56 per cent., compared with the previous year, and of 0.90 per cent compared with 1874.

The earnings of the main stem and branches, in comparison with the fiscal year of 1875, have decreased $881,817 91, and the working expenses have decreased $765,165 59, making a comparative decrease in the net profits of $116,652 32.

The aggregate working expenses of the main stem, with all branches and divisions, are 63.93

*The Main Stem includes the Winchester and Potomac, Winchester and Strasburg, the Strasburg and Harrisonburg, the Washington County and the Metropolitan Branch roads, and the Washington City and Point Lookout Railroad.

per cent of the whole gross revenues, being 4.66 per cent less than those of the preceding year.

The sinking fund, for the payment of the loan of the city of Baltimore, which was originally $5,000,000, increased during the year $101,904 68, making the payment in advance on account and in reduction of that loan, which will mature in 1890, $1,848,878 10. The amounts are given also of the accretions of the other sinking funds of the different loans, in accordance with the policy by which the entire indebtedness will be paid at the period of maturity.

The profit and loss account shows an increase for the past year of $1,952,573 90. The surplus fund, which represents invested capital derived from net earnings, and which is not represented by either stock or bonds, now amounts to $36,022,365 88. The entire mortgage indebtedness is $28,168,929 90. The surplus fund representing capital invested in branch and connecting roads and in improvements on main stem, &c., exceeds the entire mortgage indebtedness by $7,853,435 98. There has been a further expansion of tonnage of through merchandise east and west. The total tonnage the past year was 1,093,393 tons against 872,101 tons in 1875. In 1871 it was 435,207 tons. During the past fiscal year 842,633 barrels of flour and 17,517,946 bushels of grain were brought to Baltimore. Of this aggregate of grain 15,948,107 bushels were corn. The receipts of corn for the preceding year were 5,591,633 bushels. The immense and satisfactory gain in the corn trade of Baltimore by the lines of the Baltimore and Ohio Company for the year, is thus shown to have been 10,356,474 bushels.

The traffic in live stock has been 98,652 tons, an increase of 4,943 tons over 1875, and 9,380 tons over 1874.

In 1876 the lumber brought to Baltimore was 65,238 tons, an increase of 10,549 tons over 1875.

The quantity of petroleum transported to Baltimore during the year was 46 per cent. greater than in 1875; 701 per cent. greater than in 1874; 986 per cent. greater than in 1873; and 1001 per cent. greater than in 1872. The advantages of the port of Baltimore for the shipment of petroleum have been so successfully demonstrated that capitalists from other cities have invested large sums to provide the necessary facilities for the economical transaction of a heavy business; and the Baltimore market may now be regarded as having been permanently established as one of the leading and best centres for this important trade.

The largely increased tonnage of through merchandise, East and West, shows an aggregate of 1 093,393 tons. Much of this traffic was transported at the needlessly low rates established by competing lines. A difference of ten cents per hundred pounds, which would have given reasonable and satisfactory rates to the public, would have made an increase of $2,186,786 in the net results of the year's work. The passenger earnings exhibit an increase from $1,518,522 68 in 1874 and $1,613,239 24 in the preceding year, to $1,674,475 66.

The coal trade of the main stem shows an aggregate of 1,596,894 tons, which includes 409,605 tons for the company's supply. Of this quantity that transported for the public, delivered in Baltimore, is 1,115,813 tons, and delivered at local points upon the line 71,476 tons.

Under the heading Washington Branch the report refers to the hope entertained that the Legislature at its last session would have adopted some equitable arrangement to relieve the company from the payment to the State of the one-fifth the passenger fares earned on the Washington branch as a practically parallel and competing line—the Baltimore and Potomac railroad—had been built under its authority with entire freedom from such imposition. While the legal question remains to be authoritatively settled in this matter the company hopes the Legislature may yet make a fair adjustment.

In regard to the company's claim against the State for $289,529 65 on account of moneys advanced to pay the interest in London on the State's sterling loan which has not yet been paid, the company also expects that at no distant day the State will authorize its adjustment.

On the main stem 597 miles of track are now laid with steel rails; an extensive hotel has been built at Oakland, with improvements and additional buildings at Riverside, Locust Point, Mount Clare, Mount Airy, Keyser, Grafton, Littleton, and other points on the main stem. The extensive additions and improvements in the docks and piers at Locust Point were undertaken to meet the urgent demands of the rapidly increasing commerce of Baltimore, and especially to furnish the most effective accommodations for the fleets of steamships of immense capacity which are being attracted to Baltimore by the economies, facilities and advantages offered at this port.

During the year two first class consolidated freight engines and four twelve-wheeled passenger cars, six combination, one mail and baggage and fourteen drovers' cars have been built, costing $91,180 76.

The population and number of towns on the Chicago division are increasing in a most remarkable manner, and the business of the road is rapidly expanding. With the restoration of remunerative rates of transportation this road will not only prove to be one of the most valuable feeders of the Baltimore and Ohio Company and of the trade of Baltimore, but will prove also to be a very satisfactory and remunerative investment. Extensive improvements and desirable additions have been made at many points upon the line. The report in conclusion, says:

The opening of this extension to Chicago excited much jealousy and antagonism on the part of a number of the competing lines. It was alleged that the traffic relations of the previously existing railroad system in the Northwest were very seriously disturbed by this new competing element. It is certainly true that the construction of this line gave a direct route between Baltimore and Chicago, under one proprietorship and one management, and that it broadly opened to consumers and producers a more economical and advantageous channel for trade, and a more economical and advantageous port on the seaboard than had before existed for the vast regions which it reached. These hostilities by competing companies assumed various forms; first, by illegal attempts to interfere with the construction of the road; subsequently by interference with agreements for its terminal station arrangements in Chicago, and since generally by such action in regard to rates for transportation as would if in their power, make the property unremunerative. But in these processes of antagonism to this short and cheap line, the longer lines to other seaboard cities have suffered fearful losses. Untenable, unreasonable, and unjust demands have been made upon the Baltimore and Ohio Company to charge rates of transportation to the City of Baltimore which would ignore its immense geographical advantages as an *entrepot* for foreign commerce. These attacks have been based upon erroneous principles, are in violation of the laws of trade and can never prevail. The interests of the producer and consumer, the interests of the whole country, demand that the great commercial cities on the seaboard shall maintain their proper advantages of geographical relations, so that the transportation of the country shall be done at rates governed by their respective advantages. The great City of New York will always command from those immense regions which have natural relations to that port their exclusive business. But those western centres of commerce which are nearest to Baltimore, and the regions connected with those centres, are entitled to the economy and advantages of their nearness to Baltimore, and those centres of commerce and those regions will expect to use, and will use, the channel of commerce which is nearest and most advantageous. Artificial means by which efforts are made to ignore distances will always be resisted upon broad and strong grounds, which will be sustained by the common sense and plain advantages of the great populations whose interests are involved in this important question. The Chicago division of the Baltimore and Ohio Road has already demonstrated its power and usefulness, and while this company will continue to desire no unfair advantages, it will doubtless maintain equitable and just principles.

A much larger business has been offered upon this line than could be transported. It will be necessary, in order to meet the great trade of the Northwest, which naturally seeks Baltimore as an outlet, to supply a plant commensurate with the trade that can be readily commanded. Arrangements are now being made looking to a large increase of equipment for that line.

Washington County (Md.) Railroad.

The annual meeting of the stockholders of this company was held at Hagerstown on the 18th inst. Wm. Keyser, of Baltimore, presided. There were 38,190 shares of stock represented. The old board of directors was re-elected as follows: Wm. Keyser, P. B. Small, W. S. Kennedy, David Fowler, E. W. Mealey, Galloway Cheston and Jacob A. Miller. Mr. Keyser was re-elected president, P. B. Small secretary and treasurer. The Baltimore and Ohio Railroad Company gave notice of the expiration of their lease of the road on the first of January, 1878, but no action was taken in the matter.

☞ At the annual meeting of the Catonsville Horse Railway Co., held in Baltimore on the 18th inst., the annual report was presented, showing that the number of passengers carried during the year was 232,841, being 8,428 less than the year previous. The decrease is ascribed to the centennial, which reduced the number of picnic and pleasure parties in the suburbs. Two new, well furnished cars were built, and a considerable portion of track relaid with new rails, and the entire track put in good order. A new bridge was built over Gwynn's Falls by the company. The usual annual dividend of 8 per cent was declared out of the earnings of the year. John C. Holland is President of the Company.

☞ The Alabama State Journal says that the South and North Alabama Railroad Company have purchased the Mobile and Alabama Railroad, and will, after the first of January next, run a through line from Louisville to Mobile as one road.

American Railroad Journal.

Saturday, November 25, 1876.

Financial and Commercial Affairs.

There is some modification of the political excitement which was referred to last week; yet little or no progress towards the settlement of the vexed question has been made. The country is still exposed to the violence of partisan expedients, and there is danger that the result of the canvass for the Presidency will be the subject of controversy for many weeks, perhaps months, to come, causing more or less doubt and apprehension in the public mind. Other influences which have been felt on our Stock Exchange are, the appointment of Receivers of the Ohio and Mississippi Railroad, the renewal of war rumors from Europe, the unfavorable result of the coal sale on Tuesday, and the rumor that some progress had been made toward the adjustment of the dispute about through freights between the Baltimore and Ohio and the New York Central Railroads. The result of the coal sales was fully anticipated by Bear sales, and it may be noted that the shares of the Delaware and Hudson Canal Company now rate nearly up to those of the Delaware, Lackawanna and Western Railroad Company. The greatest decline was in Illinois Central, from which a semi-annual dividend of only three per cent is foreshadowed. What are known as the Vanderbilt roads were least depressed. On Wednesday, the market opened weak, but gathered strength as the day advanced. There was a pretty general improvement in railway bonds. The second coal sale went off at better prices.

Gold was without important change, when it declined and closed at 109⅛. Sterling exchange continued to improve in tone, but without materi-

al advance in rates. On Wednesday, there was a weeker feeling, and currency rates declined. The close on a gold basis was at $4 82@$4 83 for prime sixty day bills. Exports keep up to a fair average, and for the week are valued at $5,872,740, against $5,519,647 for the corresponding week last year; and $240,461,012 since January 1st, against $227,663,764 for the corresponding period last year.

The bank statement cortinues to exhibit a weakening of the currency reserve. There is an increase of a million and a half in the gold on hand, and a loss of a million in legal tenders, and the excess over the legal reserve now falls considerably below that of last year, instead of being more than double as it was a few weeks ago. A dullness in trade, however, causes the demand for money to be quite limited, and no scarcity is felt. The closing rates are 2½@3 per cent on call, and 5@6 for prime mercantile paper.

Government bonds have ruled more steady. Our political troubles seem to have affected them but slightly and momentarily. On Wednesday the closing prices were:

United States currency sixes, 123⅝@124; do. 6s, 1881, registered, 117@117¼; do. coupon, 117⅜@117⅞; do. 1865, registered, 110@110⅛; do. coupon, 110@110⅛; do. new, registered, 112⅞@113; do. conpon, 112⅞@113; do. 1867, registered, 115⅞@116⅛; do. coupon, 115⅞@116; do. 1868, registered, 117⅛@117¼; do. coupon, 117⅛@117½; do. ten-forties, registered, 113¾@113⅞; do. coupon, 114⅜@114⅝; do. fives, 1881, registered, 112¼@112½; do. coupon, 112¼@112½; do. four and one-halfs, 110¼@110½.

There is no relief to the stagnation in trade, and the speculation in leading staples of domestic produce, which grew out of the belligerent aspect of European politics, has measurably subsided. Prices, however, have not materially receded.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Galena and Chicago 1st mort., 106½; Canada Southern 1st mort., coupon on, 55; Cleveland and Toledo 7s, S. F., 110½; Toledo, Peoria and Warsaw 2d mort., 69½; South Pacific of Missouri 6s, 70; Chicago and Northwestern Extension bonds, 100; do. Interest bonds, 103; Chesapeake and Ohio 1st mort., coupon on, 81; Boston, Hartford and Erie 7s, guar., 16¼; Delaware and Hudson Canal 7s, 1877, 101⅛; Long Island R. L. 1st mort, 100; Louisville and Nashville R. R., 81½; New Jersey Southern R. R., 1; N. Y. Gas, 135; Maraposa L. and M., 5; Missouri 6s, long bonds, 105; Georgia 7s, new, 107; Tennessee 6s, old, 45¾; do. new, 44⅞; do. new series, 44¾; Illinois 6s, 1879, 103¾; Arkansas 6s, Fund Act, 33. The latest quotations are: Pacific Mail, 25¼@25⅜; Western Union Telegraph, 72⅛@72¼; Atlantic and Pacific Tel., 14¾@15¾; Quicksilver Mining, 11@13; do. pref., 17@17½; Mariposa Land and Mining, 4½@5; do. pref., 5@6; Adams Exp., 106@106¾; American Exp., 61¼@61½; U. S. Express, 56½@57½; Wells-Fargo Express, 86@86¾; Chicago and Alton, 99@100; Cleveland and Pittsburg, 88¼@88¾; Chicago and Northwestern, 35⅛@35½; do. pref., 58⅛@58⅜; Chicago, Rock Island and Pacific, 98⅞@99¼; Chicago, Milwaukee and St. Paul, 20⅛@20⅜; do. pref., 53@53⅛; Cleveland, Columbus, Cincinnati and Indianapolis, 36@38½; Columbus, Chicago and Indiana Central, 3@4; Delaware, Lackawanna and Western, 68¼@68⅜; Erie, 9⅝@9¾; Hannibal and St. Joseph, 12¼@13½; do. pref., 25@26; Lake Shore and Michigan Southern, 57⅜@57½; Michigan Central, 43⅛@43¼; New York and Harlem, 136@137; N. Y. Central and Hudson River, 102¼@102½; Central of New Jersey, 32⅜@32⅞; Ohio and Miss., 6⅛@6¼; Panama, —@122½; Toledo Wabash and Western, 6⅜@6⅝; Union Pacific, 59¼@59½; do. 1st mort., 105¾@106; do. 7s, land grant, 100⅛@101; do. sinking fund 8s, 90¾@91; Central Pacific 6s, gold, 109½@109⅝.

Philadelphia.—Union and Titusville 1st mort. 7s, 50; East Pennsylvania R. R. 7s, 103½; Philadelphia and Reading R. R. 6s, 1880, 103⅛; Belvidere Delaware 2d mort., 101½; Connecting R. R. 8s, in Nebraska, new, 92; Boston Land, 5; New Hampshire 6s, 110; Cincinnati 7s, 1904@1906, 108⅛; do. 6s, 1906, gold, 100; Cleveland 6s, 1881, 102½; Chicago 7s, 1880, 104¼; Boston 5s, 1883, gold, 107⅞; do. 1878, 108⅛; do. 6s, 1893, currency, 112⅜; Charlestown 5s, 1882, 101¼; Portland 6s, 1887, 100½; Detroit 7s, 1878, 102¼; Toledo 7s, 1879, 101⅜; do. 8s, 1881, 106¼; Duncan Silver Mining Co., 8⅝; International, 87½c.; Pewabic, 8; Ridge, 5½.

Winchester and Potomac Railroad.

The President of the Winchester and Potomac Railroad Company announces that the payment of dividends on the stock has been resumed, and the company expects to continue the payment of six per cent per year regularly hereafter. The rental has been for some time absorbed by the repayment of the amount advanced by the Baltimore and Ohio to provide for the final settlement with the Manassas Gap Company, and by the payment of the heavy expenses which attended the litigation with that company. These payments have now been completed, and the company has no other floating debt which cannot be promptly met without interfering with the payment of dividends.

☞ Proposals are invited for the construction of the deep water terminus of the Intercolonial Railway at St. John. The plan can be seen at the engineer's office St. John on and after 11th of December.

Atchison, Topeka and Santa Fe R. R.

The earnings of the Atchison, Topeka and Santa Fe Railroad for the month of September, 1876, were $265,593 13, the expenses $104,699 48, and the net earnings $160,893 65; for the month of September, 1875, the earnings were $147,551 93, the expenses $58,696 39, and the net earnings $88,855 54—showing an increase in earnings of $118,041 20, in expenses of $46,003 09, and in net earnings of $72,038 11. Percentage of expenses in September, 1876, 39.42; in September, 1875, 39.78. Miles operated in September, 1876, 711; in September, 1875, 568.

For the nine months ending September 30, 1876, the earnings were $1,758,385 04, the expenses $862,786 89, and the net earnings $895,648 15; for the corresponding period of previous year the earnings were $988,894 82, the expenses $443,593 78, and the net earnings $545,301 04—showing an increase in earnings of $769,490 22, in expenses of $419,143 11, and in net earnings of $350,347 11. Percentage of expenses in 1876, 49.64; in 1875, 44.86. Average miles operated in 1876, 692; in 1875, 514.

Hudson River Tunnel.

The crowning victory of the Hudson River Tunnel Company, achieved in the United States Circuit Court at Trenton, in the refusal of Judge Nixon to grant an injunction, is the last of a continuous succession of victories won by the Hudson River Tunnel Company in the courts, and work will be now resumed without further delay on the New Jersey Shore. Judge Nixon remarked that the action of the State courts in denying all applications for injunctions to prevent the construction of the tunnel rendered interference on the part of the United States courts, at this stage of the proceedings, improper. Col. Haskins, President of the Hudson River Tunnel Company, will place a large force of men on the work as soon as the legal forms of condemning the land have been complied with. Mr. Henry S. White, counsel for the company, says that no further opposition to the construction of the tunnel is likely to be offered.—*N. Y. Herald.*

☞ The New Haven Palladium says that the managers of the Connecticut Central and Connecticut Valley Railroads met in Springfield, on the 15th inst., and considered plans for a new bridge over the Connecticut River at Hartford, for which a charter was obtained from the last Connecticut Legislature. The plan proposes a single track bridge at a cost of $125,000, while the necessary two miles of connecting road through the East Hartford meadows to the present terminus of the Connecticut Central would cost perhaps $25,000 more. This would give an unbroken line from Springfield to Saybrook.

☞ The earnings of the Chicago, Burlington and Quincy Railroad for the month of September, 1876, were $675,692 27, against $680,334 96 for the month of September, 1875—a decrease of $4,642 69. From January 1, to September 30, 1876, the earnings were $4,152 618 76, against $4,234,763 79 for the corresponding period of the previous year—a decrease of $82,145 03.

☞ The earnings of the Louisville and Nashville Railroad and Branches and Leased Lines and the South and North Alabama Railroad for the month of October, 1876, were $513,480 75, against $465,265 83 for the month of October, 1875, an increase of $48,164 92.

☞ It has been determined to close the canals of New York on the 1st of December.

Louisville and Nashville Railroad.

We give elsewhere a full abstract of the report of the Louisville and Nashville Railroad Company for the fiscal year ending June 30, 1876, showing that the total gross earnings of all the roads operated by the company during the year were $4,961,490 29, against $4,863,887 80 for the fiscal year ending June 30, 1875—an increase of $97,652 49; the expenses were $2,993,530 24, against $3,181,740 96—a decrease of $188,210 72; and the net earnings $1,967,960 05, against $1,682,182 84—an increase of $285,827 21. The length of the roads operated has been the same in both years, viz: Main Stem, 185 miles; Bardstown Branch, 17.30; Knoxville Branch, 110.32; Richmond Branch, 33.46; Clarksville Division, 128.20; Memphis Division, 130.60; Nashville and Decatur Railroad, 122.30; South and North Alabama Railroad, 188; Glasgow Railroad, 10.50—a total of 920.68 miles. The net earnings of the whole line in 1876 were 39.6 per cent of the gross earnings; in 1875 they were 34.6 per cent. The net earnings of the main stem and branches were 44.5 per cent in 1876, against 38.9 per cent in 1875. The net earnings of the Memphis line, composed of the Clarkesville and Memphis divisions, were in 1876 30.4; in 1875 they were 26.8. The net earnings of the Glasgow Railroad were 25.6, against 41.5 in 1875. The net earnings of the Nashville and Decatur Railroad were 39.5, against 34.7. And the net earnings of the South and North Alabama Railroad 37.9 against 29.8.

The funded debt, as per last report, was $17,206,810; in the present report it is stated at $16,555,710. During the year $113,000 of Consolidated Mortgage bonds were issued; and $80,000 on mortgage on main office lot and buildings; and there were redeemed: of Main Stem bonds, $113,000; Memphis Branch bonds, $1,000; Memphis and Ohio Income bonds, $158,000; Second Mortgage Gold bonds (canceled), $500,000; paid to sinking fund in Memphis, Clarksville and Louisville Mortgage bonds, $29,100; and in Consolidated Mortgage bonds, $43,000—making a total of $844,100. In the above is included City of Louisville bonds without mortgage, $849,000; deducting this amount will leave a total mortgage on all the roads of $15,706,710—a reduction during the year of $151,100.

☞ The surveys for the proposed South Shore Narrow Gauge Railroad to South Duxbury, Mass., have been completed. After leaving Cohasset the road becomes a shore line and passes through Scituate Harbor, so called, across the marshes to the second cliff, and so on to the third and fourth cliffs, skirting the long and sandy beach in that section, and continuing thence toward the terminus of the route in view of the ocean. The enterprise, it is said, is in the hands of Jordan, Marsh & Co., Hon. Leverett Saltonstall and other wealthy gentlemen.

☞ The Delaware, Lackawanna and Western Railroad Company has concluded to enlarge the new tunnel under Bergen Hill to the extent of 250 feet. The tunnel would have been opened for traffic on the 1st inst. but for the action of the Hoboken and Jersey City authorities, who objected to the bridge and caused a change of grade. The tunnel will not be ready for trains before the 1st of December.

FISK & HATCH,

Bankers,

No. 5 NASSAU ST., NEW YORK.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Govment Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

TEXAS & PACIFIC RAILWAY COMPANY.

THE COUPONS OF THE CONSOLIDATED Bonds of the Texas and Pacific Railway Company maturing December 1, will be paid in gold on and after that date, on presentation at the office of the Company, No. 50 Exchange Place, New York, or No 275 South 4th st., Philadelphia.

GEO. D. KRUMBHAAR,
Treasurer.

Harrisburg and Potomac Railroad.

Work upon the Harrisburg and Potomac Railroad, a proposed connection of the Western Maryland Railroad at Waynesboro', Pa., east of Hagerstown, it is stated, has been commenced north of Waynesboro'. About $4,000 remain to be subscribed by the citizens of Waynesboro' and neighborhood to complete the amount necessary for letting the contract between that town and the Maryland line. Indications are said to be favorable to a certain prosecution and completion of the work. The road, when built, will be an important one to Baltimore and to Western Maryland. Mr. Daniel U. Abl, of Newville, Pa., has been largely instrumental in placing the enterprise upon a successful footing.

Inverness Coal, Iron and Railway Company.

Col. Moore, of New York, Alexander Wright, Esq., of Moncton, and Messrs. Buck, Earle, Thorne, Bennett and Wilson, Civil Engineers, came to Hawkesbury by the steamer St. Lawrence, on Monday, to locate a railway from Broad Cove to Whycocomagh for the above company. That the company mean business is evident from the fact that Mr. A. E. Killam, of Moncton, a gentlemen already well known in this country, has been awarded the contract for the construction of the road, which will be proceeded with immediately after the survey has been completed.—*Cape Breton Advocate.*

☞ Daniel Torrance and John King, Jr., have been appointed Receivers of the Ohio and Mississippi Railway by Judge Gresham of Indianapolis on a petition filed in the Circuit Court for the Southern District of Indiana. The Court ordered the payment of the employes out of the first earnings, and gave the Receivers the usual authority to operate and maintain the road.

☞ The North Pacific Coast Narrow Gauge Railroad northward from San Francisco is now finished 75 miles to Russian river.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by said five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

The Coal Trade.

The total tonnage for the week ending on the 11th instant, as reported by all the companies, amounted to 449,738 tons, against 583,703 tons in corresponding week last year, a decrease of 133,965 tons. The total amount of anthracite mined for the year is 16,222,599 tons, against 18,018,198 for same period last year, a decrease of 1,795,599 tons. The quantity of bituminous coal sent to market for the week was 87,546 tons, against 76,792 tons for corresponding week last year, an increase of 10,754 tons. The whole bituminous tonnage from the beginning of the coal year is 3,159,202 tons, against 3,443,187 tons in corresponding time last year, a decrease of 283,985 tons. The total tonnage of all kinds of coal for the week is 537,284 tons, against 660,495 to corresponding date last year, a decrease of 123,211 tons, and the total tonnage for the coal year is 19,381,801 tons, against 21,461,385 tons to same date last year, a decrease of 2,079 584 tons. The receipts at Perth Amboy for the week ending the 11th inst. were 23,613 tons, and shipped 23,508 tons, leaving a stock on hand of 34,381 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last eight days of October was 159,328 tons, of which 181,275 tons were coal and 28 033 tons coke. The total carried this year is 3,873,503 tons, of which 3,127,058 were coal and 636,894 coke. This total embraces all the coal carried over the road, east and west. —*Phila. Ledger, Nov.* 20.

☞ The capital stock of the Blackwoodtown (New Jersey) Railroad Company is nearly all subscribed, and the corporation will at once commence the construction of the line. It will be finished by next January, and connect with the Camden, Gloucester and Mt. Ephraim Narrow-gauge road.

☞ The contract for completing the Montreal, Portland and Boston Railway from Chambly to Farnham has been let and work commenced on the 16th inst. The iron for the road is at St. John, waiting to pass the customs authorities.

☞ The Parker and Karns and Butler Railway was fully opened for business on the 15th inst.

Northern Pacific Railroad.

Mr. George Stark, Vice President of the Northern Pacific Railroad Company, who has lately returned from an extended visit to the region traversed by that road, in a recent conversation with a *Tribune* reporter, stated that heretofore the Minnesota Division, 250 miles, from Duluth to Fargo, has been operated both Winter and Summer, but the Dakota Division, 200 miles, from Fargo, on the Red River, to Bismarck, on the Missouri, has never been operated in the Winter. The traffic did not justify it, and the snow was a serious obstacle to overcome. During the Summer the revenue from the Dakota Division of the road has been an average of about $12,000 per month. The increased business and the desire of the War Department that the road be kept open have led the company to build between 40 and 50 miles of snow-fence in Dakota and to arrange a Winter time-table between Fargo and Bismarck which will give tri-weekly trips, a train going one way each week day. There will be a daily train each way between Duluth and Fargo.

The country between Fargo and Bismarck is rolling prairie and almost destitute of trees. Much of it is good farming land, but beyond, in the country of the hostile Indians, there is a scarcity of water, and irrigation is necessary but comparatively easy. It is claimed that it will prove good grazing ground. The snowfall in Winter is comparatively light, but the temperature is so low that the flakes are of the feathery kind, and go with the wind till they find some lodgment. The railway cuttings and exposed parts of the track are snow-catchers. The snow-fence causes the snow-bank to form some distance from the track, and the flakes that do not lodge there are given an upward tendency and fly across the track. The principal points west of Fargo are Mapleton and Casselton, the center of extensive Dakota farming operations, and Jamestown, a Government post, half way to Bismarck. There are four other points which have been named and ten siddings which are not at present the sites of human habitations.

The railway company, through contractors, is about to establish a stage line and teams to run between Bismarck and Deadwood City in the Black Hills. The distance is about 200 miles, and the country is so favorable for travel that the trip can be made with relays of horses in 48 hours. It is not yet known with certainty whether or not the stage line will be put in operation this Winter, but it may be. Mr. Stark says he credits nearly all that has been said about the mineral wealth of the Black Hills. He saw many specimens. Directly north, on the Yellowstone, one gold-hunter was panning $30 a day easily, when he was driven off by the Indians. It is reported that there are 5,000 inhabitants in Deadwood City, which is a short distance north-west of Bear Butte.

Mr. Stark visited the Pacific section, already built from Jacoma, on Puget's Sound, to Portland, Oregon. The road is being extended 30 miles to the Puyallup coal fields. He regards the Cascade range of mountains as grander and more picturesque than the Alps. Mount Ramer, or, as it is frequently called, Jackomah, is between 14,000 and 15,000 feet high, and a valcano not wholly extinct; 8,000 feet of it are covered with perpetual snow. Mr. Stark was more impressed by it than by Mont Blanc.

The Northern Pacific has now built 555 of the proposed 2,000 miles. Under the Government grant the time for completing the road expires in about two years. An effort will be made to have the time extended eight years.

Commerce of New York.

The foreign imports at New York for the month of October, 1876, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$10,472,066	$10,904,454
Do. for warehousing	4,203 764	4,213,063

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

American Railroad Journal.

New York, Saturday, December 2, 1876.

Rates of Freight on the Great Trunk Railroads.

The *Chicago Railway Review*, of November 18th, misstates the position of the JOURNAL upon the question of rates of freight over the great trunk railroads, and treats the whole subject with unbecoming flippancy, not to speak of its discourtesy towards the JOURNAL. The questions involved are of the first importance, involving principles of the deepest concern, not only to railroad corporations but to vast populations and varied forms of industry, and should be fully and freely discussed in an appreciative spirit of inquiry. Any other manner of treating any views that may be advanced is most unworthy.

The position which was taken in the JOURNAL of November 11th was briefly this: Rates for eastward-bound freight over the great trunk railroads were too low, unjust to stockholders, not productive of any real good to anybody, (which is indeed true of any abnormal condition of affairs) and the result, too plainly, of an unseemly rivalry, mingled perhaps with not a little personal feeling, as well as pride of opinion or position. Such a state of feeling, and any action based upon or growing out of it, ought not to be continued one hour after it became manifest.

But the JOURNAL at the same time insisted that in revising and advancing these rates of freight extreme views should not prevail. All propositions looking to the making good of losses resulting from excessively low rates of freight by the imposition of those that would be regarded as extravagantly high should not be entertained Violent extremes should be avoided. The country is not in a position to support them. Prices of western agricultural products are not sufficiently high to warrant them. They would cripple the winter's business of the railroads. Should any great advance in prices take place as the result of a general European war, the railroads might justly claim a share in the advance, as they have suffered from the decline. But as matters now stand, only a moderate advance in the rates of freight under consideration can be made. Any action that could be considered at all burdensome would be such an addition to the business drawbacks which now prevail as to be grievous to be borne.

We are happy to see these views supported by so eminent an authority as Mr. Garrett, the President of the Baltimore and Ohio Railroad Company. In his last annual report to the stockholders of that corporation (published in the JOURNAL of the 25th ult.,) he distinctly avows the moral obligation to the city of Baltimore which is felt by his management. Commodore Vanderbilt, in his management of the New York Central and Hudson River Railroad, practically acknowledges a sense of the same obligation to the city of New York. Mr. Garrett also admits that but a small advance on the current rates of freight is needed to make business profitable. He says:

"A difference of ten cents per hundred pounds on the largely increased tonnage of through merchandise, which would have given reasonable and satisfactory rates to the public, would have made an increase of $2,186,786 in the net results of the year's work."

An increase of ten cents per hundred pounds on through freight (to repeat the idea of Mr. Garrett,) would have added *forty per cent* to the net earnings of the road! Nothing may be added, we feel sure, to support the positions which have been taken by the JOURNAL on this question.

Atlanta and Richmond Air-Line Railroad.

The sale of the Atlanta and Richmond Air-Line Railroad, which is advertised to take place at Charlotte, N. C., on the 5th of December is, according to the *Observer* of that city, causing considerable surmise as to the probable purchasers of the road. It says the general impression is that Mr. John M. Robinson, the president of the Seaboard and Roanoke, Raleigh and Gaston, and Raleigh and Augusta Air-Line Railroads, will become the purchaser, in which event the Air-Line will be run in connection with these three roads instead of with the Richmond and Danville, as at present. Only a few miles of railroad are to be built before there will be a route to Raleigh via the Carolina Central and Raleigh and Augusta Air-Line, which will be a mile shorter than the present. When this is finished, which it is expected will be done by the first of January, the line will be complete to Norfolk and thence to Baltimore by the Bay Line of steamers, which is under the control of this corporation. If this arrangement is perfected a line will be formed which will offer a strong competition with the Richmond and Danville Railroad.

Northern Central Railway.

An agreement was filed for record in the clerk's office of the Superior Court at Baltimore on the 21st ult. between B. F. Newcomer, Wm. T. Walters, and Samuel M. Shoemaker, trustees on the one part, and the Northern Central Railway Company by its president, Thomas A. Scott, on the other part. The object of the agreement was to declare of record the amount of bonds now due and outstanding, issued by virtue of a mortgage of the company for $2,500,000, of December 20, 1855. This total amount has been reduced to $1,490,000. The bonds so reduced were as follows: $763,500 held by the trustees of the sinking fund under said mortgage, and $166,500 by the commissioners of the general sinking fund up to June 19, 1874. Since then additional bonds for $80,000 have been purchased and cancelled by said

trustees. The bonds now outstanding are 1,288 bonds of $1,000 each, and 404 of $500 each, amounting to $1,490,000, as stated, and the mortgage now stands as security for that amount.

U. S. Supreme Court Decisions.

The following decisions, among others, were rendered by the United States Supreme Court on the 27th ult.:

Nos. 76 and 77—Bank of Kentucky agt. Adams Express Company, and the Planter's National Bank of Louisville agt. same; error to the Circuit Court for Kentucky.—In these cases the court hold that the restriction in the bill of lading of the express company, providing that the company should not be liable for any loss, damage or detention of a money package occasioned by fire, does not protect the company against liability where the loss is the consequence of the negligence of carriers or their servants or agents, and, therefore, that the company is responsible for losses in such cases by fire caused by the negligence of the railroad companies employed by it in the transportation of the package. The railroad company, it is said, in transporting the messenger of the express company and the express matter in his charge, is the agent of the express company, employed and paid by it; the service performed is the service of the express company—a duty incumbent upon the express company and upon no one else. If any one is to be effected by the acts or omissions of persons employed to do a particular service, it must be the one who gave the employment. Reversed; Justice Strong delivered the opinion.

Nos. 58 and 59—Town of South Ottawa agt. Perkins, and Board of Supervisors of Kendall County agt. Post; error to the Circuit Court for Illinois.—In these cases the court affirm the validity of certain municipal bonds issued in aid of certain railroad companies, and also affirm the ruling below, by which the corporations which had issued their bonds under a certain act were denied the right to offer evidence to show that the law had never in fact been passed. The Chief Justice delivered the opinion, holding that such a corporation having issued its bonds and put them on the market as commercial paper upon the faith of a certain law, cannot be permitted to show as against a bona fide holder of the bonds, that the law was never enacted; and adds, that as the courts of Illinois have never decided the question directly, this court is left free to answer it. Dissenting, Justices Bradley, Miller, Davis and Field.

No. 68.—Grant agt. The Hartford and New Haven Railroad Company; error to the Circuit Court for the District of Connecticut.—In this case the court holds that the expression "profits used in construction" within the meaning of the 122d section of the Internal Revenue act does not embrace earnings expended in repairs for keeping the property up to its normal condition, but has reference to new constructions adding to the permanent value of the capital, and when these are made to take the place of prior structures it includes only the increased value of the new over the old when in good repair. Affirmed. Justice Bradley delivered the opinion.

United States Supreme Court Decision in Regard to Patents.

The U. S. Supreme Court has rendered its decision in the case of Beidsall et al. vs. Coolidge (error to Circuit Court for the District of Nevada). In this action which is for an infringement of a patent for an improvement in machines for the amalgamation of gold and silver, it is decided that juries in action at law for infringement of patent are required to find actual damage sustained by plaintiff in consequence of the unlawful acts of the defendant. Power is given to the Court in such case to enter judgment for any sum above the amount of the verdict, not exceeding three times the amount of the same, together with costs; but the jury are strictly limited in their finding to the actual damages which the plaintiff has sustained by the infringement. Reversed. Justice Clifford delivered the opinion.

Boston and Providence Railroad.

The earnings of this road for the years ending September 30, 1875 and 1876, were as follows:

	1875.	1876.
From passengers	$897,404 03	$830,468 40
" freight	619,180 69	568,648 87
" rents	17,642 55	19,003 07
" express	31,731 54	33,448 68
" mails	6,711 79	7,298 31
" interest	8,587 71	8,892 23
	$1,581,258 31	$1,467,759 56
Expenses, viz:		
Repairs of railroad	$111,964 91	$117,557 24
Sleeper account	28,240 34	21,863 50
New steel rails	82,067 05	64,529 40
Repairs of locomotives	50 833 66	38.383 12
Repairs of cars	64,682 81	57,870 71
Repairs of stations and fixtures	49,430 68	64,904 92
New bridges & repairs	53,391 62	32,714 73
Fence account	6,390 57	5,904 96

Telegraph expenses	1,405 20	1,314 06
Interest paid	82,454 22	100,023 86
	$1,216,476 11	$1,149,473 99
Balance carried to income account	$364,782 20	$318,285 57
Add balance from previous year		459,178 02
Total		$777,463 59
Dividend paid May 15, 1876, $4 per share		$160,000 00
Dividend payable November 15, 1876, $4 per share		160,000 00
Balance to new account		457,463 59
Total, as above		$777,463 59

Compared with the previous year, the gross earnings show a decrease of $113,498 75, with a decrease in expenses of $67,002 12. The report says:

The falling off in receipts which has been going on for the last four years, still continues, and has been met in part by a further reduction in expenses, warranting the declaration of two four per cent. dividends, amounting to $320,000, which sum represents the net earnings of the year within $1,714 43.

The general result of the year's business, is given in the following tables, furnished by the Treasurer.

The gross receipts for the fiscal year 1874-'5 amounted to	$1,581,258 31
While those for the current year 1875-'6 were	1,467,759 56
Showing a falling off in our receipts of	$113,498 75
In the corresponding period 1874-'5 the expenses were	$1,216,476 11
And for the current year 1875-'6, they were	1,149,473 99
Showing a reduction in our expenses of	$67,002 12

The receipts of the year 1873-'4, were $134,828 99 less than those of 1872-'3, and the reduction in expenses for the corresponding period, was $140,-899 31.

The receipts of the year 1874-'5, were $106,020 88 less than those of 1873-'4, and the reduction in expenses for the corresponding period, was $67,627 66.

It appears as above, that our receipts for this year have been less than the last by $113,498 75, and the expenses less by $67,002 12, while to earn the smaller sum, forty-six hundred more miles have been run.

This steady decrease is doubtless to be accounted for in part, by the depressed condition of business and the consequent falling off of local travel, but it is in part due to the demand for lower rates of freight, and especially, to the growing competition which meets us on every side.

It may be doubted that a narrow gauge road will be built between Boston and Providence during the next few years, as being too costly an experiment; but your directors would refer to the fact, that ground has already been broken for a regular gauge between Franklin and Valley Falls, known as the Rhode Island and Massachusetts Railroad, making a direct competing line to Providence four miles longer than your route.

According to agreement, the Fall River, Warren and Providence Road, has been transferred to the Old Colony Corporation, they paying cost and interest for the same. Of the $317,645 09 representing the original cost, $215,000 have been applied to the extinguishment of your debt, all that could be controlled, and $77,767 29 of this repayment, is represented by Union Freight Railroad Stock, the holding of which was authorized by the Stockholders at the last annual meeting, and has subsequently been confirmed by the Legislature.

The report of the directors to the Railroad Commissioners shows the number of miles run by our trains during the year to have been 804,871, against 800,269 the previous year. The whole number of passengers carried this year 3,475,378, against 3,524,377 for the former period. The whole number carried one mile 37,948,007 against 38,743,664, and the number of tons of freight carried this year 589,643, against 691,318.

In the reduction of our receipts, $50,531 82 is due to the diminution of our freight business, and $66,985 63 to the falling off of receipts from passengers.

SUMMARY.

More miles run the present year as compared with the last	4,602
Less number of passengers carried the present year as compared with the last	48,999
Less number of passengers carried one mile the present year as compared with the last	765,657
Less tons of freight carried the present year as compared with the last	101,675

There have been but three passengers injured. Two fatally, by leaving the cars while in motion; the other seriously, by jumping from an inward Dedham train, directly in front of an outgoing train, at the dangerous Boston and Albany Crossing. There were seven accidents caused by persons carelessly walking upon or crossing the tracks. Of these five proved fatal.

One employe of the road has been injured, while in the discharge of duty.

Warned by the freshets of last spring, whereby the giving way of a dam near Worcester brought great disaster to the neighborhood, and seriously damaged the track of the Boston and Albany Road, a careful inspection was made by engineers, experts and by your directors in person, of the abutments and piers which support the wooden bridge over the River Blackstone, at Valley Falls. The engineers reported that the masonry was not fully equal to the strain caused by the quick and heavy traffic of to-day, and might not stand the rush of any collection of debris brought against it by the breaking of some of the numerous dams on the river above. There could be no hesitation in at once undertaking an unexpected and expensive work. One abutment, and the two most impor-

ant piers in the bed of the river, have been renewed in a thorough and substantial manner, and next spring, the other abutment and piers will be rebuilt. This is the longest bridge on the line of the road, having a span of 375 feet. It should be renewed with iron, and it may be well to avail ourselves of the present low prices, to complete the important work.

An iron bridge has been substituted for one of wood, at the Bussey Crossing. The new brick station at Roslindale is about completed. The changing of the bed of Stony Brook near the Forest Hills station by the City of Boston, has led to greater facility in operating the branch line which enters the main track at this point, besides doing away with the dangerous openings which have heretofore existed. Improvements have been made at Forest Hills and Jamaica Plain, by the erection of protecting sheds for passengers opposite the station houses, and the approaches to the Jamaica Plain station have been graded and paved, since the close of the financial year. The passenger station at Providence, has been repainted and cleansed.

The open winter was favorable to the road bed, and but four and half miles of new track have been relaid with steel. There now remain thirteen and a half miles of the eighty-eight miles of double main track, to be so renewed.

As is generally known, the Stonington Steamboat Company propose hereafter, to run their commodious and powerful boats, the Massachusetts (now in course of construction) and the Rhode Island, between Providence and New York direct, during the spring and summer months. For this business, a new locomotive has been provided, named after a former and highly esteemed director of this road, the late George R. Russell.

TRIAL BALANCE, SEPTEMBER 30, 1876.

Construction and equipment	$4,000,000 00
Stoughton Branch	85,400 00
Providence, Warren and Bristol Railroad stock	293,679 27

President.—HENRY A. WHITNEY.

Directors.—Henry A. Whitney, George W. Hallet, Thomas P. I. Goddard, J. Huntington Walcott, Wm. R. Robeson, Francis M. Weld, Joseph W. Balch.

Treasurer.—B. B. TORREY.

Superintendent.—A. A. FOLSOM.

Domestic Telegraph Co.

A certificate of incorporation of the Domestic Telegraph Company has been filed in the clerk's office of the Superior Court at Baltimore, which declares that the "corporation is formed for constructing, owning, leasing and operating lines of telegraph in the State of Maryland, establishing signal boxes and general messenger services connected with the telegraph business." The company is managed by a board of five directors, who are Wm. A. Duon, Walter H. Stewart, Charles W. Crumbacker, Joseph B. Bruner and Garrett S. Mott, of Baltimore city. The capital is $50,000, in 2,000 shares of the par value of $25 each. The charter authorizes the company to do business in Baltimore and any other towns and roads in Maryland.

Central Railroad of New Jersey.

The *Herald* says that since Col. Moore, the new superintendent of this road assumed charge on the 1st ult., "the prospects of the corporation have become brighter. Sinecures of long standing have been cut away, deserving officers who were discharged for reporting irregularities have been reinstated and bogus payrolls are things of the past. Five conductors have been discharged on the Philadelphia and Bound Brook line. The number of sinecures was amazing, there being in some cases nearly as many bosses as workmen. In the Communipaw workshop one boss was engaged to watch two blacksmiths. In other instances a boss was appointed for every three men. Colonel Moore has already effected a saving in this particular at the rate of $16,000 a year, and a still greater economy is looked for. The workshops at Hampton Junction are to be abolished, and the work will then be performed at Jersey City and Easton. At the same time the business of the road is steadily increasing and fewer complaints are heard on the part of the passengers. The investigation into the frauds on the part of officials is slowly progressing."

New Railroad Project.

The Straight Shoot Railroad Company of Virginia have made a contract for the completion of its entire line from Richmond to Lynchburg and its connection with the Chesapeake and Ohio Railroad at Clifton Forge within the next three years. The road is about 200 miles long, and will for its entire length occupy the valley of the James River. The contractors agree to receive about four-fifths of the price in the stock and bonds of the company. It is claimed that this will make a new outlet for the West Virginia coal fields, and it is also claimed that the iron belt traversed by it is the richest and most extensive east of Missouri.

A New Line to Chicago.

The *Tribune* says that "steps have been taken to open a new trunk line between this city and Chicago and the Southwest at an early day, by the way of the Canada Southern Railroad. About 70 miles of the eastern part of the Chicago and Canada Southern Railroad—by which it is proposed to connect Chicago with the Canada Southern at the crossing of the Detroit River—were completed some time ago, but the illness of Commodore Vanderbilt, it is stated, stopped work. The road bed from Fayette—the western terminus of that portion of the road now in operation—to Eden, a distance of 25 miles, had been made ready for the ties and rails. From Eden to Butler, the eastern terminus of the Eel River Railroad, the distance is only nine miles, and the Eel River Company has proposed to build a track to Eden if the Chicago and Canada Southern will complete its line to that place. By this means a continuous line will be established to Logansport, Ind., and thence to Lafayette, St. Louis, Omaha, &c. This arrangement will also give the Eel River Railroad a direct connection with Detroit and the North and East. The Chicago division of the Baltimore and Ohio Railroad crosses the proposed new route seven miles west of Eden, thus furnishing a direct line to the Chicago and Canada Southern to Chicago by passing over seven miles of the Eel River track. The Eel River Company has agreed to pro-rate with the Chicago and Canada Southern, and the Baltimore and Ohio has offered very favorable terms for the use of its track to Chicago. The distance from Eden to Chicago is about 150 miles by the proposed route. It is claimed that there is no intention of abandoning the original purpose of building an independent line from the Detroit River to Chicago, but the new line will be used until the main line is finished."

Chicago and Lake Huron Railroad.

It is expected that the gap of 49 miles between Flint and Lansing will be closed by the 15th of December. For some years the divisions from Port Huron to Flint, Michigan, 66 miles, and from Lansing to Valparaiso, Ind., 166 miles, have been in operation, connecting at the last named place with the Pittsburg, Fort Wayne and Chicago Railway, for Chicago. When completed the line from Port Huron to Chicago will be 322 miles, giving the Grand Trunk Railway of Canada in whose interest it will be operated, a shorter line to Port Huron than via the Michigan Central Railroad by 21 miles.

☞ In the U. S. Circuit Court at Alexandria, Va., on the 25th ult., a decree was passed ordering the Receiver of the Washington City, Virginia Midland and Great Southern Railroad to pay the past due interest of the Orange and Alexandria first and second mortgage bonds. The decree also grants permission to those who have exchanged Orange and Alexandria bonds for bonds of the Virginia Midland to re-exchange, receiving back their Orange and Alexandria upon surrender of the Virginia Midlands.

☞ The Receivers of the Ohio and Mississippi Railroad Company, Daniel Torrence and John King, Jr., have issued a circular to the employes of the road, stating that arrangements have been made to promptly meet accruing wages; that absolute discipline will be expected and required throughout the service; and that a system of rigid economy will at once be inaugurated in all the departments of the road.

☞ The Ohio State Journal says that the Scioto Valley are delivering fifteen hundred tons of iron to the Springfield, Jackson and Pomeroy Narrow Gauge Railroad at Jackson, Ohio. They are also hauling twenty cars of timber for the Scioto river bridge for the same road, to be delivered at Waverly, Ohio. The iron on this road from Jackson to Waverly is to be laid as rapidly as possible.

☞ The St. Louis Republican's Kansas City special of November 21 says, "Carlos S. Greeley and Henry Villard, recently appointed Receivers of the Kansas Pacific Railroad, took possession of all the property of that road to-day, under an order of the District Court, Kansas City. Robert E. Carr was appointed General Manager, and T. F. Oakes, General Superintendent."

☞ At Memphis, Tenn., on the 27th ult., Judge Trigg, of the United States District Court, issued an order for the sale of the Memphis and Paducah Railroad, on petition of the first mortgage bondholders.

Commercial Relations of the United States with Foreign Countries.

The following is an extract from the Report of the Secretary of State upon the Commercial Relations of the United States with Foreign Countries for the year ending September 30, 1875 :

AUSTRIA-HUNGARY.

The returns of the commerce of Austria-Hungary, exclusive of Delmatia, show that the value of the imports for the year 1874 amounted to 565,015,888 florins, and that of exports for the same period to 452,257,803 florins. Upon comparison of these figures with the returns of the present year, the year 1874 shows a decrease of 5,008,015 florins in the imports, but an increase of 28,134,068 florins in the exports.

BELGIUM.

The special commerce of Belgium is reported as having amounted in the year 1874 to 2,407,102,729f., of which 1,292,462,993f. was the value of the imports, and 1,114,639,736f. that of the exports—a decrease in the aggregate of 174,198,000f. from the commerce of 1873. In the trade of Belgium with the United States for the year 1874 a decrease of 12,600,000f., or nine per cent, is noticed in the imports, and an increase of 2,300,000f., or fourteen per cent, in the exports, as compared with the previous year.

FRANCE.

Although the aggregate commerce of France suffered considerable diminution during the year 1874, the trade with the United States seems to have materially increased. The imports into France from this country during the year named amounted to 241,500,000f., exceeding those for 1873 by 42,000,000f., and the exports by 296,400,000f., or 5,100 000f. in excess of the exports of the previous year. Although the balance of trade between the two countries is still in favor of France by nearly 56,000,000f., yet this is a gain in favor of the United States of nearly 36,000,000f. over the year 1873, and of 71,800,000f. over the year 1872. The total value of the declared exports to the United States from the several Consular districts of the United States in France for the year ending September 30, 1875, is reported as amounting to $61,700,000 over the corresponding period of 1873-74.

GERMANY.

A general stagnation in the trade of the German Empire is reported the past year. The total declared exports from the Consular districts for the year ending September 30, 1875, amounted to $30,174,868, being a reduction of $2,151,512 from the corresponding period of 1873-74.

GREAT BRITAIN.

During the year 1874 the imports from the United States considerably more than doubled the exports to this country, the former having amounted to £73,897,400 and the latter to £32 238,321. The total value of declared exports amounted during the year ending September 30, 1875, to $125,477,808, being $18,341 276 less than the corresponding period of 1873-74. The total number of vessels which entered the ports of the British isles during the year 1874 is officially reported as 63,851, measuring 22 868,510 tons. These figures compared with the returns of 1873, show a loss of 643 vessels, but a gain of 503,553 tons, the gain in the tonnage appearing chiefly in steam navigation. The total number of vessels that entered from the United States during the year 1874 amounted to 4,068, measuring 3,509,249 tons, and of those that cleared for this country to 2,773, measuring 2,806,251 tons, being a gain of 656 vessels and 489,091 tons in the entries, and a loss of 441 vessels and 228,542 tons as compared with the shipping returns of the preceding year.

CANADA.

The general commerce of Canada has suffered a large decrease during the fiscal year ending June 30, 1875. The total value of exports from the dominion, exclusive of coin and bullion, have amounted to $74,628,212, being a reduction of nearly $10,000,000 from the previous year. The goods entered for consumption are reported as having amounted during the last fiscal year to $119,618,657, showing a decrease from the year 1873-74 of $7,785,512. The commerce of Canada with the United States exhibits a diminution during the year above mentioned of $4,847,663 in the imports from the Dominion and of $3,477,752 in imports from this country. The balance of trade appears to be in favor of the United States by nearly $22,000,000. In the year 1872 it was in favor of Canada.

SWEDEN AND NORWAY.

The value of the imports into Sweden and Norway from the United States, is reported as having amounted during the year 1874 to $6,533,375, and the exports to this country to $1,510,761. These figures indicate a large decrease from the commerce of 1873, when the imports from the United States amounted to more than $9,800,000, and the exports to this country to over $8,000,000.

TURKISH EMPIRE.

No regular reports on commerce are issued by the Ottoman government ; but some tabular statements submitted by the Consul General at Constantinople shows the imports of that port for the year 1874 to have amounted to $108,602,660, and the exports to $6,965,640. The imports of Constantinople from the United States for the year ending June 30, 1875, are valued at $1,714,789, and the exports therefrom to this country at $148,013.

BRAZIL.

The value of the imports of the Empire from the United States during the year ending June 30, 1875, is reported as $7,491,492, and the exports to the United States as $42,586,665, showing a large balance of trade in favor of Brazil, which is attributed to the high cost of transportation.

UNITED STATES OF COLOMBIA.

It appears that Great Britain and her West India colonies provide nearly one-half of the imports of Colombia, amounting to about $5,000,000 ; France ranks next, then Venezuela, the United States being fourth in order. The importation of Colombia from this country amounted, during the period already named, to $806,644, showing a balance of trade in favor of Colombia of $250,000. The causes assigned for the inferior part taken by the United States in Colombian commerce are the expense of transportation and the high tariff in this country.

MEXICO.

The are no returns from Mexico in possession of the Department of State later than June 30, 1873.

CHINA.

The imports into China from the United States amounted in 1874 to 294,612 taels, indicating a considerable decrease from the trade of the previous year in respect to exports, the imports remaining nearly the same. Of the total tonnage entered and cleared at the treaty ports of China more than thirty-three per cent was American. The Consul General at Shanghai attributes this circumstance to the superiority of the model of our ships for certain branches of trade, and partly to the enterprise and good fortune of some of our citizens. He suggests, however, that this superiority, not resting upon a solid foundation, may already be decreasing.

CENTRAL AMERICA.

Our Minister Resident has been unable to obtain any special returns of Central American commerce of recent date, but observes that the few data in his possession indicate an increase in the volume of trade. This, however, does not appear to be true respecting the commerce with the United States.

RUSSIA.

The value of the total export from Russia to America has decreased during the last year to the amount of $225,874, owing to a decline in the export of two principal articles, namely, sheet iron and Russia leather. The price of labor having increased throughout the Empire, the expense of production of the Russian sheet iron, combined with that of its transportation from those far away factories in the Ural Mountains, on the border of Asia, have raised the total cost of the article to such an amount as to make it unprofitable to export the same and to compete with the home produce of the United States, now being substituted therefor. As to the Russia leather, the fact may be stated that, owing to previous agreement, the principal factory engaged in manufacturing leather is exporting the article in large quantities to Germany and England, whence it may be re-exported to the United States.

JAPAN.

The table of exports and imports to and from China, Great Britain, France and the United States shows the balance in favor of China is about $5,000,000 ; in favor of England, $10,000,000 ; in favor of France, $2,000,000 ; and against the United States, $5,000,000.

A German Military Railroad.

The *Nord-deutsche Allgemeine Zeitung* prints an account of a military railway which has been laid down by the men of the "railway regiment" of the Prussian army. The whole length of the line is 45.6 kilometres (28½ miles). It is connected at Berlin and at Zossen with the line from Berlin to Dresden, and runs on the same level as that railway. At Zossen the line branches off to the artillery shooting ground. This military railway is, of course, chiefly used for military purposes, but it also conveys goods and passengers for the general public. The administration of the railway is under the direction of the commandant of the "railway regiment," a staff officer, and two lieutenants, who report to the chief of the general staff of the army and the railway inspectors. The personnel of the administration is composed almost entirely of members of the regiment ; a captain acts as manager, two lieutenants as chief clerk and head engineer respectively, another officer looks after the railway depot, and a fifth acts as paymaster. The eight companies of the "railway regiment," with their officers, each serve in turn for about six months on the railway. There is a line of telegraph, which is worked by the officer acting as chief clerk and a non commissioned officer as "telegraph superintendent." During the past year six non-commissioned officers have served on this railway as engine-drivers, nine pioneers as stokers, eight non-commissioned officers as guards, and sixteen pioneers as porters and workmen in various capacities, and the passenger traffic consisted of 4,074 soldiers and 2,362 civilians.

Flexible Shafting.

All branches of manufacture now employ machine tools in a greater or less degree ; but all these imply that the tool shall be fixed in one spot, and that the work be brought to the tool. The hand tool may be taken to the work, and this is so great an advantage that efforts have been made to produce some kind of flexible shafting, or elastic method of transmitting power that would enable the operator to move the tool about within certain limits. To transmit direct rotary motion without loss, a new form of shafting has been recently introduced that is at once rigid against strains of torsion, and yet perfectly flexible. This shafting is of various sizes, from ¼ to 1⅜ in. in diameter and from five to ten feet in

length. It is made by twisting two iron wires together in a spiral, and then brazing the ends so they cannot unwind. Over this, two more wires are wound in the opposite direction and securely fastened to them at both ends. In this way, layers of wire of constantly increasing diameter twisted in spirals in alternate directions, are placed one over the other till the required thickness is reached. The result is a solid wire cable that will not twist, and is perfectly pliable in every direction. Over this cable is drawn a sleeve to protect the hands, and to keep the shafting from friction when at work. Such a piece of wire shafting may be attached to other shafting in any convenient manner, and then may be used to convey rotary motion to any form of machine tool. For drilling, boring, polishing stone, cleaning castings, clipping horses, etc., this shafting gives the utmost freedom in moving the tools, and in employing them in any position, and at any angle that may be reached by a perfectly flexible wire rope. The shafting has already been employed with success in moving dental power instruments and is now being introduced into more common branches of work.

Massachusetts Railroad Returns.

(To be continued.)

☞ The sale of the Port Royal Railroad is advertised to take place at Port Royal, S. C., on the 7th inst. in accordance with a decree of the Circuit Court, District of South Carolina, in the suit of the Union Trust Company of New York et al. vs. the Port Royal Railroad Company. The Georgia Railroad is an indorser on $600,000 of the bonds.

☞ The directors of the Erie Railway Company, elected on the 28th ult., are: H. R. Balizer, John B. Brown, Thomas Rickson, R. S. Grant, S. S. Guthrie, G. W. Hotchkiss, H. J. Jewett, John T. Johnston, E. D. Morgan, Asa Packer, Cortlandt Parker, Homer Ramsdell, M. O. Roberts, Samuel Sloan, H. G. Stebbins, G. F. Talman, and J. Lomber Welsh.

☞ In the lower house of the Vermont Legislature on the 25th ult. the bill to incorporate the second mortgage bondholders of the Vermont Central Railroad, was reported adversely and refused a third reading. The bill to allow the Vermont and Canada Railroad Company to purchase the Vermont Central Railroad was refused a third reading.

☞ The bonds and notes of the Connecticut and Passumpsic Rivers Railroad Company, due December 1, 1876, will be paid on that day at the Treasurer's office in Boston, when interest will cease; or they may be exchanged for First Mortgage bonds of the company, bearing seven per cent interest, at the option of the holders.

☞ The quarterly dividend of 1¼ per cent on the capital stock of the Lehigh Coal and Navigation Co. (leased at a certain fixed rental to the Central Railroad Company of New Jersey,) will not be paid.

☞ The Atlantic, Mississippi and Ohio Railroad is now receiving five hundred tons of steel rails, to be laid on the Virginia and Tennessee division.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

[Asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."]

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterisk* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (....) signify "not ascertained."
Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, December 2, 1876.

Financial and Commercial Affairs.

Casting aside an uncertain amount of indefinite apprehension and distrust growing out of the unsettled state of domestic politics and the heated struggle which is going on over the result of the recent election for President and Vice President of the United States, the leading influences which have been felt upon our Stock Exchange were favorable to an improvement in prices. It is true the business of the country is more than dull—it is paralyzed—but when matters are at the worst they begin to mend. Every assurance seems to be given that no serious disorder will grow out of our political troubles; and, they finally ended, the natural needs and resources of our people will be felt and brought out. A partial advance in the rates of freight by the Michigan Central Railroad exerted a favorable influence upon Western shares. The statement put forth that the Delaware, Lackawanna and Western Railroad was earning something to its stockholders, notwithstanding the depressed state of affairs, and the evidence of economy in the management of the Central of New Jersey, caused some improvement in the coal stocks; but it was short-lived; the clouds in the political horizon became the dominant influence, and caused weakness. A strong effort has been made to break down the shares of the Western Union Telegraph Company, by showing that the value of its property is not more than fifteen million dollars, and that at this valuation the Federal Government may at any time take possession of the property. A morning contemporary describes this publication as a "transparent trick." On Tuesday there were no important fluctuations in the stock market.

There has been a good business in railway bonds at firmer prices, but the close on Tuesday was rather weak.

The bank statement was but a repetition of the statements of the preceding two weeks—showing, as it did, an increase of over a million in gold, and the loss of nearly an equal amount in legal tenders; but, through diminished loans, there was a slight increase in the legal reserve. Money has continued easy, and the closing rates on Tuesday were 3@5 per cent on call, and 4½@6 per cent for prime mercantile paper.

The exports of produce from the port of New York for the week ending November 28th were $6,133,047, against $5,549,352 for the corresponding week in 1875, and $5,068,901 in 1874. The total exports of produce since Jan. 1, this year, were $240,721,319, against $238,213,116 for the corresponding period in 1875, and $265,178,046 in 1874.

The premium on gold quite broke down under the continued shipments this way from Europe; the rate at the close on Tuesday was 108⅝. Exchange has been depressed, notwithstanding the importation of gold, increased imports of merchandise, and a check upon exports by the scarcity and high rates of freight, and the closing rates on Tuesday for prime 60-day bills was $4 81@$4 82. This, with the decline in gold, has brought down the currency rates for bills nearly one per cent.

Government bonds have been somewhat depressed, though not without some irregularity. On Tuesday the closing prices were:

United States currency sixes, 124@124½; do. 6s, 1881, registered, 116⅝@116⅞; do. coupon, 117⅜@117½; do. 1865, registered, 109½@109¾; do. coupon, 109½@109¾; do. new, registered, 112⅝@112¾; do. coupon, 112⅝@112¾; do. 1867, registered, 115⅝@115¾; do. coupon, 115⅝@115¾; do. 1868, registered, 116¾@117; do. coupon, 116¾@117; do. ten-forties, registered, 113¼@113½; do. coupon, 113¾@114; do. fives, 1881, registered, 111⅞@112⅛; do. coupon, 111⅞@112⅛; do. four and one-halfs, 109⅝@110.

General trade continues dull. The speculation in cotton continues, however, stimulated in some degree by the political situation. The export demand for breadstuffs and provisions somewhat improves, but so far as the interior trade is concerned, trade is very dull.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Old Colony Railroad.

At the annual meeting of the Old Colony Railroad Company, held in Boston on the 28th ult., the following gentlemen were elected directors for the ensuing year: Onslow Stearns, Uriel Crocker, Benjamin Finch, Oliver Ames, Charles F. Choate, Samuel L. Crocker, Jacob H. Loud, Thomas J. Borden, Royal W. Turner, Francis B. Hayes, Ephraim N. Winslow, John S. Brayton, Prince S. Crowell.

A resolution was adopted authorizing the Directors to purchase the Fall River, Warren and Providence Railroad. It was also voted to issue new bonds to the amount of $2,000,000, at interest not to exceed seven per cent., to take up bonds maturing in 1877.

One Continuous Passage.

A decision of much importance to travelers by railroads was rendered at Carson City, Nevada, on the 10th of November in the United States Circuit Court, by Judges Sawyer and Hillyer. The case under consideration was entitled Cody vs. The Central Pacific Railroad Co. The facts may be briefly stated as follows: The Baltimore and Ohio Railroad Company sold to one Mier, at New York, a through emigrant passage ticket to San Francisco. It contained conditions signed by Mier, to the effect among other things that the ticket should not be transferrable, the words "not transferrable" being printed upon its face. When Mier reached Omaha according to established custom, his ticket was surrendered and a check gives him in exchange which simply read, "Good for one continuous passage from Omaha to San Francisco." When Mier arrived at Palisade Station on the Central Pacific Railroad, he sold this latter check or ticket to the plaintiff, Cody, who attempted to ride thereon over defendant's road to San Francisco, and was ejected from the cars at Battle Mountain Station by defendant's conductor. He brought his suit thereupon for damages.

The defendant claimed on the trial that the contract was made only with Mier, and was for a continuous passage for him only; that it was not a contract to carry him part way and then take up a local passenger and carry him the remainder of miles of the trip. That such a construction would seriously interfere with the local business which defendant was entitled to have come to it in the usual method, if at all, and on the usual local rates.

The plaintiff claimed that whoever held the ticket or check was entitled to ride on the trip. That it was for one passage, however divided. That the ticket or check was in the nature of a promissory note drawn to bearer, entitling any one holding it to its privileges. The Court held that Mier alone had a right to the passage. That Cody had no right to ride upon the credit of the ticket or check. That it was based upon the original contract, and that the purchaser of such a ticket or check is put upon inquiry concerning that contract, and is bound to know what the ticket or check means; also, that "one continuous passage" means a passage for the same person to whom the ticket or check is originally sold.

This decision should be carefully studied by parties purchasing tickets or checks of other than the railroad carrier, to the end that they may know whether the original contract prevents transfer of the ticket or its representative check, as it very frequently is worded in that manner.

☞ The directors of the Union Ferry Company, recently elected, are: Henry E. Pierrepont, Joseph A. Perry, Abiel A. Low, Henry R. Worthington, Charles E. Bill, James S. T. Stranahan, Nathan B. Morse, Cyrus P. Smith, Walter M. Degrauw, Horace B. Claflin, James How, Abraham B. Baylis, S. B. Chittenden, James A. Degrauw, Edward Dodge. The assets of the company are $1,672,900, and the liabilities, $1,150,867. There are 522 stockholders.

☞ The directors of the Duxbury and Cohasset (Mass.) Railroad, elected on the 21st ult., are: Onslow Stearns of Concord, N. H., S. N. Gifford of Duxbury, Uriel Crocker of Boston, Joseph O. Cole of Scituate, Royal A. Turner of Randolph, N. H. Whiting of Marshfield, George O. Brastow of Somerville, William T. Davis of Plymouth, Oliver Ames of Easton. S. N. Gifford of Duxbury was chosen Clerk.

The San Fernando Oil Field.

The oil production of the San Fernando district promises to be immense. It has already been considerable, and the quality of the oil is even superior to the Pennsylvania staple. An oil well in Southern California and one in Pennsylvania, however, are very different things. In the latter State the price of oil frequently goes down so low that there is little profit in anything short of a 500-barrel well. Here we have the premium involved in escaping the onerous transportation charges for thousands of miles. We have Asia, Mexico, Central and South America, as well as the American Pacific coast, for a market. It consequently follows that a 20 barrel well in the San Fernando region will yield a greater profit than a 500 barrel well in Venango or Butler county, Pennsylvania.—*Los Angeles Express.*

Meeting of Inventors.

A meeting of inventors was held in Philadelphia on the 24th ult. for the purpose of forming an association, the object of which will be to aid and protect inventors in their rights. The idea is to effect an organization that will spread throughout the country, and by which inventors may be made to learn everything of interest and advantage to them in advertising or otherwise giving publicity to their inventions. Mr. J. W. R. Hill presided, and Mr. Chubb acted as Secretary. A constitution and by-laws for the government of the association was read and adopted, and the constitution states that the association shall be known as "The Inventors' National Union." The constitution was signed by a number present, when the meeting adjourned.

☞ Proposals are invited by the Finance Commissioners of Baltimore for the new five per cent. loan of the city, to be opened on the 22d January next. The bonds will be issued in sums of $100 or the multiples thereof, interest payable 1st of May and November, and are redeemable on or after 1st of July, 1916. The bonds are free of all taxes. No proposals will be received at a less rate than the par value of the stock. The stock of the city of Baltimore known as the Water loan of 1875 will be taken at its par value, with an adjustment of interest, in payment of the new loan.

☞ Work has been resumed on the Harrisburg and Potomac Railroad, at Waynesboro, Franklin county. This road is intended to connect the Cumberland Valley with the Western Maryland Railroad, east of Hagerstown.

☞ A loan of $1,500,000 six per cent gold bonds, redeemable in 1906, on behalf of the city of Cincinnati and for the purpose of completing the Cincinnati Southern Railway, has been introduced in London. They are offered at 96½.

☞ The Milwaukee Wisconsin says that work is to be commenced on the North Wisconsin Railroad, and this winter twenty miles are to be completed. An extension is to be made from Hudson to Rice Lake, Minn.

☞ The railroad between Petaluma and San Rafael (Cal.) will be completed by the 1st of April, 1877.

☞ The first locomotive intended for the Sonoma Valley (Cal.) Prismoidal Railway has been completed, and forwarded to its destination.

☞ The work on the Rhode Island and Massachusetts Railroad is progressing rapidly.

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

TEXAS & PACIFIC RAILWAY COMPANY.

THE COUPONS OF THE CONSOLIDATED Bonds of the Texas and Pacific Railway Company maturing December 1, will be paid in gold on and after that date, on presentation at the office of the Company, No. 50 Exchange Place, New York, or No. 275 South 4th st., Philadelphia.

GEO. D. KRUMBHAAR,
Treasurer.

Railroad Companies Responsible for the Debts of Contractors to Employes.

In the Court of Common Pleas, at Chillicothe, Ohio, on the 18th ult., before Judge Marshall, in the case of the Scioto Valley Railroad Company v. Dennis Cronin, to set aside a verdict against the Railroad Company, requiring them to pay the employes of Dennis Cronin, the sub-contractor for the constructing said railroad, on account of the financial failure of Cronin, a verdict was rendered reaffirming the former decision, the Judge deciding that railroads were responsible for debts of contractors to employes.

☞ The Staten Island Railroad Company still continues, under direction of the new superintendent, to make improvements in the road and its rolling stock. A new engine has been placed upon the road, and two of the old ones have been reconstructed, making four good working engines. The passenger cars are now being newly painted.

☞ In consequence of the resignation of Mr J. Wyman Jones, President of the Montclair and Greenwood Lake Railway Co., that office will be assumed by Hon. Smith Ely, Jr., Vice President of the company. A new President cannot be elected before the meeting of stockholders next January.

☞ A certificate was filed with the Secretary of State of Ohio on the 22d ult. of the Cleveland and Newton Falls Railway Company, from Newton Falls to Chagrin Falls, in the counties of Trumbull, Portage, Geauga and Cuyahoga, capital stock $50,000, by Lyman T. Saule and others.

☞ The aggregate length of railroads in operation in Turkey in Europe is 968⅓ miles. In this total the Constantinople and Adrianople line figures for 356¼ miles, and the Salonica and Mitrovitza line for 223¾ miles.

MARSHAL'S SALES.

Marshal's Sale.

George L. Douglass, trustee, &c., pl'ffs, against Louisville, Cincinnati and Lexington Railroad Company, def'ts, and cases heard therewith—Louisville Chancery Court, No. 27,787.

BY virtue of a judgment rendered in the above-named case and the cases heard therewith, the undersigned will,

ON MONDAY, DECEMBER 4, 1876,

sell at public outcry at the door of the court-house, in the city of Louisville, Ky., about the hour of 11 o'clock, A. M., to the highest bidder, the following described property, viz:

All the rights, properties and franchises of the Louisville, Cincinnati and Lexington Railroad Company, including all the right, title and interest of said company free from the liens, mortgages or claims of any kind of the parties herein except as hereinafter stated in and to its line of railroad from its depot on Brook st., in the city of Louisville, through the counties of Jefferson, Oldham, Henry, Franklin, Woodford, Scott and Fayette to its depot on Water st., in the city of Lexington, and from Lagrange Junction, in Oldham county, through the counties of Oldham, Henry, Carroll, Gallatin, Grant, Boone, Kenton and Campbell, to its junction in the city of Newport with the Newport and Cincinnati Bridge, with all its improvements and appurtenances, right of way, lands adjacent thereto, depots, and the land upon which they are situate, and adjacent thereto, machine shops, round houses, cattle-pens, and the lands on which they are situate and adjacent thereto, turn-outs, side-tracks, switches, engines, passenger cars, baggage cars, freight cars, dirt cars, hand cars and all other rolling stock of every description, machinery, tools, implements, fixtures, furniture, whether in buildings owned by it or leased by it or the receiver, materials and supplies of every description, so as to vest in the purchaser all of the right, title and interest of said Louisville, Cincinnati and Lexington Railroad Company, and to all property owned by it or in which it has any interest on said day of sale except choses in action, and all its rights and franchises free from any lien or claim of any of the parties to this suit except as hereinafter stated.

The purchaser or in the event of his transferring his bid before confirmation of the sale and the transferee thereof being accepted by the court, such transferee shall in any event in addition to the amount bid by him be required to assume the following outstanding debts, and all the engagements and obligations of the mortgage and deed of trust given to secure them, viz: One hundred bonds of one thousand dollars each, executed by the city of Louisville, the payment whereof was assumed by the Louisville and Frankfort Railroad Company, and secured by deed of mortgage dated 20th November, 1854, and recorded in the Jefferson County Court clerk's office, in deed book —, page —. Said bonds mature July 1, 1881, and bear interest at 6 per cent. per annum from July 1, 1876, payable semi-annually on the 1st day of each July and January from January 1, 1877, to July 1, 1881, inclusive.

Twelve bonds of one thousand dollars each, executed by Louisville and Frankfort Railroad Company, and secured by deed of trust from said corporation to James Guthrie, Virgil McKnight and Joshua B. Bowles, dated March 12, 1857, five of which bonds mature July 1, 1877, and seven of which mature July 1, 1878, and all of which bear interest at 6 per cent. per annum, payable semi-annually from July 1, 1876, the first five bearing coupons payable January 1, 1877, and July 1, 1877, and the other seven bearing coupons payable January 1, 1877, July 1, 1877, January 1, 1878, and July 1, 1878.

In addition to the assumption of the above amounts, and the engagements and obligations of the above mortgage and deed of trust, the undersigned will first offer said property, subject to the assumption by the purchaser of the following amounts and of the engagements, obligations, rights, duties and powers of the deeds of trust given to secure them respectively, to-wit: three thousand bonds of one thousand dollars each, dated January 1, 1867, and due January 1, 1897, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each January and July from January 1, 1877, to January 1, 1897, both inclusive, and same secured by deed of trust from the Louisville and Frankfort and Lexington and Frankfort Railroad Companies to Norvin Green, trustee, dated January 1, 1867, and hereinafter called the Norvin Green trust deed.

Nine hundred and eighty-nine bonds of one thousand dollars, each dated April 1, 1870, and due April 1, 1900, bearing interest from October 1, 1876, at the rate of 8 per cent. per annum, payable semi-annually on the first day of each April and October from April 1, 1877, to April 1, 1900, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to George L. Douglass, trustee, dated April 1, 1870, and hereinafter called the Douglass trust deed.

Three hundred and seventy-four bonds of one thousand dollars, each dated October 1, 1872, and due October 1, 1902, bearing interest from October 1, 1876, at the rate of eight per cent. per annum, payable semi-annually, on the first day of each April and October from April 1, 1877, to October 1, 1902, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to A. D. Hunt, trustee, dated October 7, 1872, hereinafter called the Hunt trust deed.

One million five hundred and eighty-two thousand five hundred dollars in bonds, some of one thousand dollars and some of five hundred dollars, each dated April 1, 1873, and due 1st January, 1903, bearing interest from July 1, 1876, at the rate of seven per cent. per annum, payable semi-annually on the first day of each July and January from January 1, 1877, to January 1, 1903, both inclusive, and same secured by deed of trust from the Louisville, Cincinnati and Lexington Railroad Company to James Lees, trustee, dated April 1, 1873, and hereafter called the Lees trust deed.

When said property is so offered, subject to the assumption by the purchaser of the amounts secured as above by said six mortgages, and his assumption of the engagements, obligations, rights, powers and duties of said six mortgages, if an amount is bid equal to the amount of interest due and unpaid thereon regarding the bonds as not matured, together with unpaid costs of said mortgages, and costs of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first five mortgages (excluding the Lees trust deed), and his assumption of the engagements, obligations, rights, powers and duties of said five mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said five mortgages regarding the bonds as not matured, and unpaid costs of the said five mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first four mortgages (excluding the Lees and Hunt trust deeds), and his assumption of the engagements, obligations, rights, powers and duties of said four mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said four mortgages regarding the bonds as not matured, and unpaid costs of said four mortgages and costs of sale, the undersigned will proceed to sell the property so subject, and accept the highest bidder therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first three mortgages (excluding the Lees, Hunt and Douglass trust deeds), and his assumption of and subjection to the engagements, obligations, rights, powers and duties of said three mortgages. When said property is so offered, if an amount is bid equal to the amount of interest due and unpaid under said three mortgages regarding the bonds as not matured, and unpaid costs of said three mortgages and of sale and James Taylor's claim, the undersigned will proceed to sell the property so subject, and accept the highest bid therefor. If no bid of such an amount is made, the undersigned will then offer said property subject to the assumption by the purchaser of the amounts secured as above by the first two mortgages (excluding the Lees, Hunt, Douglass and Green trust deeds), and his assumption of and subjection to the engagements, obligations, rights, power and duties of said two mortgages, and will accept the highest bidder therefor.

The purchaser, or in the event of his transferring his bid before the sale is confirmed, and his transferee being accepted by the court, such transferee will be required to execute a separate obligation to the mortgagee or trustee of each mortgage or deed of trust to which he buys subject, and shall, by such obligation, bind himself to the payment of the debts secured by such mortgage or deed of trust, principal and interest as and when they become due, and to the performance of all the engagements and obligations contained in said mortgage or deed of trust, and shall subject himself and the property purchased by him or future to be acquired by him, as the owner of said railroad, to all the duties, conditions, engagements and obligations of said mortgage or deed of trust, and confer upon said mortgagee or trustee and his *cestui que* trusts all the powers, rights and duties conferred by the original mortgage or deed of trust, and in every way to bind himself and the property then owned and future to be acquired by him as owner of said railroad, and to confer upon said mortgagee or trustee and his *cestui que* trust all the rights and powers as if he, the said purchaser, had been the grantor in said original mortgage or deed of trust, and the maker of said bonds and coupons.

If said property is sold subject to any other mortgages than the ones of the city of Louisville and Guthrie, McKnight and Bowles, it will be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57 and 60 months, for equal parts of the purchase money. If sold subject to these mortgages, it shall be sold on a credit of 3, 6, 9, 12, 15, 18, 21, 24, 27, 30, 33, 36, 39, 42, 45, 48, 51, 54, 57, 60, 63, 66, 69, 72, 75, 78, 81, 84, 87, 90, 93 and 96 months, for equal parts of the purchase money.

The purchaser will be required to execute bonds, with good security, bearing interest from date until paid at 6 per cent. per annum, and said bonds will be drawn payable on or before the day of their respective maturities. The bidder accepted by the marshal will be required to at once deposit with said marshal the sum of $20,000 as security for his compliance with the terms of sale, which sum the marshal shall at once pay into court, which may be withdrawn by the said bidder on confirmation of the report of sale. A lien will be retained on the property sold to secure the bonds of the purchaser, and any obligation executed by him for mortgages or deeds of trust assumed by him.

C. C. W. ALFRIEND,
Marshal Louisville Chancery Court.

Finances of Wisconsin.

From the report of the State Treasurer, recently published, we learn that the amount paid into the Treasury for the year ending September 30, 1876, was $1,698,392 65, making with the balance in the Treasury at the commencement of the year ($277,681 44) a total of $1,976,074 09. The disbursemnts during the year amounted to $1,660,207 48, leaving in the treasury September 30, 1876, $315,866 61. There yet remains due the several charitable and penal institutions of the State on account of the appropriations made them in 1876, a total of $189,397 28.

The Treasurer states that the taxes levied for the year 1875 have been paid with great promptness, only $590 89 remaining due at the end of the fiscal year, and this was to be settled during October. He further notes with pleasure the promptness with which the several railroad companies have paid their license taxes for the year 1876, which amount to an aggregate of $391,210 08. Not a dollar of this tax remains unpaid. The Milwaukee, Lake Shore and Western Railroad Company has also paid in full the balance of its tax for 1875, amounting to $3,042 56. The Sheboygan and Fond du Lac Company has paid $2,450 of its delinquency, leaving only $2,164 16 due. The Green Bay and Minnesota Company is still in arrears for the second instalment of the tax of 1875, amounting to $6,705 24.

☞ The United States Engineers who have been making a re-survey of the Union Pacific Railroad have completed their work, and it is said that they find no material inaccuracy in the surveys already reported to the government authorities.

☞ The Nevada County Narrow gauge Railroad Company offer a standing reward of $300 for the arrest and conviction of any parties who may place obstructions on the track of said railroad.

The Coal Trade.

The total tonnage for the week ending on the 18th instant, as reported by all the companies, amounted to 608,090 tons, against 562,783 tons in corresponding week last year, an increase of 45,307 tons. The total amount of anthracite mined for the year is 16,830,680 tons, against 18,580,774 for same period last year, a decrease of 1,750,094 tons. The quantity of bituminous coal sent to market for the week was 89,916 tons, against 87,751 tons for corresponding week last year, an increase of 2165 tons. The whole bituminous tonnage from the beginning of the coal year is 3,254,307 tons, against 4,030,686 tons in corresponding time last year, a decrease of 776,379 tons. The total tonnage of all kinds of coal for the week is 698,006 tons, against 650,534 to corresponding date last year, an increase of 47,472 tons, and the total tonnage for the coal year is 20 084,987 tons, against 22,611,460 tons to same date last year, a decrease of 2,256,473 tons. The receipts at Perth Amboy for the week ending the 18th inst. were 28 169 tons, and shipped 20,554 tons, leaving a stock on hand of 42,520 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 101,899 tons, of which 87,555 tons were coal and 148 344 tons coke. The total carried this year is 8,978,402 tons, of which 3,214,613 were coal and 654,238 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Nov.* 27.

Boston and Providence Railroad.

The annual meeting of the stockholders of this corporation was held in Boston on the 15th ult., the President, Henry A. Whitney, Esq., in the chair.

Mr. Winslow Warren, clerk of the corporation, read the call for the meeting and the records of the last annual meeting.

The President called attention to the new law in relation to the issue of notes of corporations, and said that, as the notice given this year of the intention of the corporation to issue such notes had been published too late, the proposition was laid over until the next annual meeting.

The accounts of the treasurer were approved by the auditing committee and by the stockholders.

The annual report of the directors was presented in print, and the reading of the same was waived. A full abstract of the report is given on another page of the JOURNAL.

President Whitney called the attention of the stockholders to the death of the Hon. John H. Clifford, and read several tributes of respect to his memory, including the resolution passed by the Board of Directors at the time of his death. On motion of Mr. Peter T. Homer, it was—

Voted that the stockholders of the Boston and Providence Railroad Corporation hereby accept and adopt as their own, the preamble and resolves passed by their directors on the 12th of January last, as a testimonial of their appreciation of the services of the deceased President of the corporation, the late Hon. John H. Clifford.

The President called the attention of the stockholders to the debt of the corporation, amounting to the sum of $1,294,000, which becomes due as follows:

Notes due in	1877	$227,000
" "	1878	47,000
" "	1879	100,000
" "	1880	200,000
" "	1881	120,000
" "	1882	100,000
Bonds due in	1893	500,000
		$1,294,000

The President expressed his intention to urge upon the directors the necessity of constructing an iron bridge over the Blackstone River at Valley Falls.

On motion of Gen. William Raymond Lee, it was voted that the thanks of the stockholders be tendered to the Board of Directors for their faithful and successful efforts to reduce the expenses of operating the road the past year, and also for their judicious action in limiting the dividends of the past year to the net earnings of the corporation.

The stockholders proceeded to the election of seven directors, and the following gentlemen were unanimously chosen, the whole number of votes being 6,273: Henry A. Whitney, George W. Hallet, T. P. I. Goddard, J. Huntington Wolcott, William R. Robeson, Francis M. Weld, Joseph W. Balch.

The meeting then adjourned.

India Rubber Tree Culture.

The adaptability of California to the culture of the caoutchouc, or rubber tree, is coming to be seriously agitated as one of the future possible resources and avenues of wealth of that State. The few trees already growing have made such successful progress that their general culture would seem to be not only possible but comparatively easy. Apropos of this subject the *Rural Press* has the following:

"There are, as is generally known, several trees and plants from which the caoutchouc of commerce is obtained. The Mexican tree is quite different from the East Indian, and others are different from these. Although the India rubber is produced by sub-tropical countries, there seems, so far as we know, no good reason why some of the plants would not thrive in semi-tropical climes, because the tree, even under the tropics, proves itself adapted to cooler air by flourishing far up the mountain sides. For instance, the *ficus elastica* of Assam grows on the slopes from the valley upward to an elevation of 22,000 feet, according to Appleton's New Encyclopedia. This is doubtless very incorrect, as the highest point of the Himalayas is only 29,000 feet above the sea level. We do not believe that the tree is as hardy as Appleton's makes it, for if it were we might almost lay out Mount Shasta for India Rubber plantations, for he is 17,000 feet up in the air. According to Appleton's the tree flourishes from 5,000 to 6,000 feet above the line of perpetual snow, which is absurd. The truth doubtless is that the tree grows to a considerable elevation in the tropics, and in this fact is found the adaptation which enables it to flourish in Sacramento. Our attention is called to this matter especially at this time because of news which comes of an enterprise which the English Government is conducting, looking to a large growth of the tree in India."

☞ Mr. J. S. Leib, Treasurer of the Northern Central Railway Company gives notice that the bonds of the York and Cumberland Railroad Company for $500,000, due 1st January, 1877, will be paid at the First National Bank of Baltimore on that day. The company proposes to exchange its consolidated general mortgage 6 per cent gold bonds for the York and Cumberland bonds on a basis of par for each, on or before 10th December.

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

Interest on Railroad Bonds.

The JOURNAL of last week noticed, among the items of railroad intelligence which are collated for its readers, that the Old Colony Railroad had voted to issue new bonds to the amount of two million dollars at interest not to exceed seven per cent, to take up bonds maturing in 1877. The Old Colony Railroad is a corporation of the State of Massachusetts, with stock to the amount of $6,738,800 and a bonded debt of $4,939 500—gross earnings last year $2,206,880, and net earnings $730,353—paying dividends at the rate of six per cent, and the stock last quoted at 107½. Surely here is a basis of credit that is seldom equaled and probably nowhere surpassed among the railroads of the United States; and it ought to enable the railroad in question to market its bonds on as favorable terms as are obtained anywhere. The legal rate of interest in Massachusetts is only six per cent. The bonds of that State, bearing only five per cent, gold, are quoted considerably above par. The New York Central and Hudson River Railroad, operated in a State where seven per cent is the legal interest, finds its six per cent bonds quoted at par and upward. The Old Colony directors cannot, therefore, be under any necessity of putting out a seven per cent bond. Six per cent interest is all it should undertake to pay. To do more would not only be unjust to its stockholders, but to railroads located in less favored sections of the country, and thus exert an influence, injurious to railroad property, far beyond the limits of those more directly affected. If a railroad like the Old Colony, paying a handsome dividend, and owing but a small debt, pays seven per cent on its bonds, when it ought to be able easily to borrow money at six per cent, when money is almost a drug in the market, Western and Southern roads must sell seven or eight per cent bonds at a large discount, and to this extent are they crippled by the action of the Old Colony and other roads in first rate credit. Besides six per cent is relatively a better price for money now than seven per cent was five years ago, and this fact should not be forgotten, in issuing new bonds to take up those which are maturing.

In pleasant contrast, to such action as we have thus objected to, is that of the Northern Central Railway of Pennsylvania and Maryland. This is a corporation whose gross earnings in 1875 were $4,926,248, and its net earnings $1,564,124. It has a bonded debt of $14,384,000, more than three times that of the Old Colony Road, while the net earnings are only about twice as much. Yet we have the announcement that the Northern Central, in taking up the bonds of the York and Cumberland Railroad Company, proposes to exchange its six per cent gold bonds on the basis of par. And we have no doubt they will be readily accepted, as indeed they should be. The railway system of the United States will enter upon a new era of prosperity when first-class corporations can borrow money at five or six per cent per annum.

☞ The Panama Star and Herald says that the government of Guatemala has decided to begin the building of a railroad. The first portion of the enterprise will be a line of railway from the port of San Jose to Esquintla, the most difficult part of the road in the rainy season.

Sonoma Valley Prismoidal Railroad.

Yesterday the steamer Sonoma conveyed to Norfolk, on Sonoma Creek, a number of our prominent citizens, who assembled to witness the opening of the Prismoidal Railroad. The road commences at Norfolk, on Sonoma Creek, and extends three and a half miles toward Sonoma. The steamer arrived in good season at Norfolk, on Sonoma Creek, the terminus of the Sonoma Valley Prismoidal Railroad, where the party landed, and at once proceeded to inspect the line and the works generally. The Prismoidal Railroad is laid upon a prism of wood built of beveled boards, forming a continuous prism 27 inches wide at the base and 15 inches high, with the single rail laid on the top. The car which travels on the line is supported by two wheels, one at the front and one at the rear, with independent revolving flanges. On arrival, the first thing to be done was to test the road, and in a few minutes two platform cars, with a Prismoidal railway locomotive between them, were at the stations. The locomotive is the first of its kind constructed in this State, and was built under the superintendence of George W. Fogg, of the Pacific Iron Works. The party took their places on seats which were ranged on each side of the cars, the passengers being face to face. The first impression suggested was that which ordinarily fills the bosom of the novice who makes his maiden effort to ride the uncertain bicycle. A certain assurance that the whole thing would topple over at the first movement was the general belief of the uninitiated. But the engineer sounded his whistle, the passengers gave their tremulous cheers, and the train moved off smoothly, and soon the pace was considerably augumented. Wonderful to relate, the oscillation was scarcely perceptible, and the locomotive and cars rode the single rail as firmly as the trains on the broadest of English solidly constructed broad gauges. The faster the train proceeded, the smaller in number and extent became the lateral oscillations, beautifully and practically exemplifying the great principles of the whole prismoidal system, that the greater the speed, the less the liability to oscillate, a principle clearly demonstrated by the gyroscope and velocipede. To those making their first trip on the new railroad the ease and comfort of this mode of traveling suggested itself most strikingly. The train was run out to the end of the completed line, where forty five men were found continuing the building of the prism onward. The construction of the road has cost, for the present three miles and a half, including the cost of the road-bed over the marsh, about $4,-

500 a mile, one-half of the cost of the narrow gauge railroad, the most economical of the two rail system. The road was commenced on the 16th of August last by the building of the road-bed.—*San Francisco Examiner, Nov. 25.*

Old Colony Railroad.

The earnings of this road for the years ending September 30, 1875 and 1876, were as follows:

	1875.	1876.
From passengers	$1,372,607 10	$1,310,284 23
" freight	741,479 69	712,929 09
" expresses	64,455 76	58,525 13
" rents	24,818 86	24,663 15
" mails	41,602 19	37,700 92
" miscellaneous	37,733 35	59,699 35
" extra baggage	3,746 95	3,128 50
	$2,286,473 90	$2,206,880 37
Expenses, viz:		
Passenger departm't	$266,578 26	$232 735 39
Merchandise "	181,797 32	170,099 11
Locomotive "	370,491 49	378,581 56
Maintenance of way.	386,838 06	336,431 19
General expenses	150,232 35	156,015 14
Miscellaneous	87,197 91	96 631 35
	$1,443,135 39	$1,370,493 74
Earnings less exp.	$843,338 51	$836,386 63
City and town taxes.	$28,085 46	$26,146 87
State tax	82,523 55	79,887 24
Interest on bonds, debt, etc	259,063 84	323,518 33
	$369 672 85	$429,551 94
Net income	$473,665 66	$406,834 69
Add balance of income per last report		677,947 48
Add for premiums received on bonds sold		23,700 00
		$1,108,482 17
Deduct for loss on notes taken for gravel and charged to profit and loss	$23,790 94	
Deduct dividend Jan. 1, 1876, $3 per share	200,793 00	
Deduct dividend July 1, 1876, $3 per share	202,014 00	
		426,597 94
Balance of income account September 30, 1876		$681,884 23

The dividend of January 1, 1877, is to be taken in part from this balance.

The gross receipts of the road were, for the year ending Sept. 30, 1876	$2,206,880 37
For the year ending Sept. 30, 1875	2,286,473 90
Decrease in receipts	$79,593 53
The working expenses for the year ending Sept. 30, 1876	$1,370,493 74
For the year ending Sept. 30, 1875	1,443,135 39
Decrease in working expenses	$72,641 65
The amount paid for interest was, for the year ending Sept. 30, 1876	$323,518 33
For the year ending Sept. 30, 1875	259,063 84
Increase	$64,454 49
Amount paid for taxes was, for the year ending Sept. 30, 1876	$106,033 61
For the year ending Sept. 30, 1875	110,609 01
Decrease	$4,575 40
The net earnings, after paying interest and taxes, were, for the year ending Sept. 30, 1876	$406.834 69
For the year ending Sept. 30, 1875	473,665 66
Decrease	$66,830 97

The above amount of interest paid is the balance of our interest account, and its increase is partly accounted for by the difficulty of loaning, at remunerative rates, the cash on hand during portions of the year. The interest account has been charged with the payment of the coupons on the bonds issued for the purchase of stock in the Old Colony Steamboat Company, and has been credited with the dividends received on this stock.

There has been a decrease in the freight tonnage of 6105 tons, and in receipts from freight of $28,550 60.

Coal tonnage for 1876	131,502
Coal tonnage for 1875	139,904
Decrease	8,402

The decrease in the number of passengers carried was 136,263, and in receipts from the passenger business was $62,372 87.

Four locomotives, two passenger cars, fourteen freight cars and twenty gravel and coal cars have been added to the rolling-stock.

Two locomotives, one passenger car, twenty one freight cars and twenty eight gravel and coal cars have been rebuilt.

842 tons of steel, 659 tons of new iron rails, and 100,540 new sleepers have been used in repairing the track; 1704 tons of rail have been taken up, repaired and relaid.

A new brick depot has been built at Taunton, a large brick addition has been made to the Boiler Shop at South Boston, a reservoir has been constructed and water rights purchased at Wood's Holl, and a freight house has been completed on the Derrick wharf at Fall River, to facilitate our business in connection with the Clyde Steamship Line.

New side tracks have been constructed to the extent of 11,530 feet.

Our passenger equipment is now completely furnished with the Miller platform and coupling and the Westinghouse brake.

The cost of these improvements has been charged to expense, and may be estimated as follows:

Cost of new equipment	$52,142 02
" Miller platforms	18,510 60
" Reservoir, water rights, land, &c, at Wood's Holl	2,916 30
" 11,530 feet of side track	11,720 00
" 842 tons of steel rails in excess of iron at $20 per ton	16,840 00
Cost of new buildings, including Taunton station and Fall River wharf	24,586 00

Two locomotives and four passenger cars are included in the purchase of the Fall River, Warren and Providence Railroad property.

Over 50 miles of track are now laid with steel rails, some of which have been in use eight or nine years, and show at this time no perceptible signs of wear. It is evident that there is great economy in the use of steel rails, and that a considerable saving in expense can be made by substituting steel for iron on 50 or 60 miles more of the road, where there is considerable traffic. The directors believing that steel rails have reached the lowest point in price, and that the present is a good time to purchase, have contracted for the purchase of about 4000 tons of steel rails, to be delivered during the winter.

The track, equipment and other property of the corporation is in excellent condition.

It will be seen that there has been a considerable decrease in the gross receipts of the road during the past year. We have, however, been able to reduce the expenses nearly as much, and at the same time to make some improvements in the property of the company, which perhaps might properly have been charged to construction account; but thinking that the true interests of the corporation would be best served by pursuing a conservative policy, we have included them in the expenses of operating the road. There are indications that we have reached the lowest point, and may fairly hope for a return of business prosperity. Several of the large iron manufacturers upon our line, whose operations have been entirely suspended, have resumed work, but too late to effect our earnings for the past year.

During the year one million dollars of the bonds of the company have matured, and have been renewed by the issue of the same amount of bonds bearing six per cent interest, and running twenty years, which were sold at a premium. This issue was made under authority of a vote of the stockholders passed at the annual meeting in November 1873.

In the next year the bonds of the corporation due in 1877 will mature to the amount of $1,450,000. These bonds bear interest at the rate of 7 per cent. The directors are of opinion that this loan can be funded at a rate of interest not exceeding 6 per cent. and that it will be for the interest of the company to make a new loan for this amount; and as it may be doubted, under the law passed by the Legislature of Massachusetts, approved April 26, 1876, whether the entire amount would be covered by the vote of the stockholders of November 25, 1873, they request the passage of a special vote to authorize the loan.

The Granite Branch has been extended to a connection with the main line in Braintree; and some of the trains are now run through by this route to and from Boston.

During the past year the directors have deemed it for the interest of the corporation to acquire, in connection with the Boston and Providence R. R. Co., the control of the Union Freight Railway, and have therefore purchased, under authority of an act of the Legislature approved April 28, 1876, 1897 shares of the stock of that company at a cost of $73,740 37. The Boston and Providence R. R. Co., own an equal number of shares, and are equally interested with us in the management. The road has been operated by this company under a contract since January 1, 1874, and has shown a constant increase in earnings; and it is fair to expect that after all outstanding claims have been settled, a dividend may be earned on the stock.

Our business with New York over the boats of the Old Colony Steamboat Co. has been largely increased by the Exposition at Philadelphia. The boat company has been able to pay dividends on its stock, in which we own a controlling interest, of 8 per cent, and carry to its reserve account a considerable sum to provide for future contingencies. The results thus far have satisfied the directors of the wisdom of the stockholders in authorizing the purchase of this property.

The bridge at Fall River has been completed, and an all rail connection made with Providence via the Fall River, Warren and Providence Railroad, the control of which was passed into the hands of this corporation on December 1, 1875, and has since been operated by us.

The continued depression of business in Fall River and Providence has effected its earnings, but we believe that, with the return of business prosperity in the community, its direct earnings will pay a fair interest on its cost, apart from the incidental advantage we derive from its control. Authority has been granted by the Legislature of Massachusetts and Rhode Island to purchase this railroad, and the directors recommend the acceptance of the acts by the stockholders.

We repeat what was said in our report of 1875, that apart from the payment of some outstanding claims for land damage, our construction account may be regarded as closed. It is proposed to take steps for the consolidation into our corporation of the South Shore Railroad, the Fall River, Warren and Providence Railroad and Dorchester and Milton Railroad, which we now substantially own.

A serious collision occurred between the steamboat train and a freight train on the 18th of October last. This was caused by a disobedience of rules on the part of the men employed on the freight train. Four employes of the company were injured, and the damage to the property did not exceed $15,000.

The equipment of the road is as follows: 47 passenger, 15 freight, and 7 switching locomotives; 147 passenger, 25 baggage, 821 long box, 10 short box, 339 long platform, 24 cattle, 72 stone, 18 short platform and 498 coal and gravel cars. Number of miles run by passenger trains, 929,579; by freight trains, 391,210; by gravel

trains, etc., 55,267—total miles run one year to September 30, 1876, 1,376,056, a decrease, compared with the year ending Sept. 30, 1875, of 11,425. Number of passengers carried the past year, 4,150,457; do. carried one mile, 59,025,834. Tons of merchandise carried the past year, 619,663; do. carried one mile, 17,896,799.

TRIAL BALANCE, September 30, 1876.

Construction	$10,984,549 90

President.—ONSLOW STEARNS.

Directors.—Onslow Stearns, Uriel Crocker, Benjamin Finch, Oliver Ames, Charles F. Choate, Samuel L. Crocker, Jacob H. Loud, Thomas J. Borden, Royal W. Turner, Francis B. Hayes, Ephriam N. Winslow, John S. Brayton, Prince S. Crowell.

Treasurer.—JOHN M. WASHBURN.

Superintendent.—J. R. KENDRICK.

Richmond, Fredericksburg and Potomac Railroad.

The report of the operations of the Richmond, Fredericksburg and Potomac Railroad Company for the year ending September 30, 1876, shows the gross revenue to have been $367,969 64, and expenses $177,795 65, leaving a net revenue of $190,175 99, thus exhibiting a falling off in net revenue of $12,072 77, as compared with the previous year. The bonded and floating debt of the company has been reduced by the sum of $20,641

In his report Mr. John M. Robinson, president of the road, says:

While the board is still fully sensible of the importance of keeping up a connection with Washington by the Potomac river, it has, nevertheless, come to the conclusion that the guarantee feature of the agreement between this company and the Potomac Steamboat Company should, in the future, be discontinued, and on the 21st of April last gave notice to the Potomac Steamboat Company that the existing agreement between the two companies should terminate on the 31st day of March, 1877. Question having arisen as to the responsibility of this company to the Potomac Steamboat Company for the depreciation of their property in the service of this company, under the advice of eminent counsel consulted by the board it was determined to offer to the Potomac Steamboat Company this company's stock and dividend obligations in that company in full settlement and relinquishment of all claims of that company. This has been accepted by the Potomac Steamboat Company, and all differences have been satisfactorily adjusted. No doubt is entertained but that prior to March 31 next, arrangements can be effected for steamboat service on the Potomac between Quantico and Washington more satisfactory and advantageous to this company.

Philadelphia Passenger Railway System.

Although the horse railway system did not originate in Philadelphia, it has assumed a development in this city exceeding that of any other city in the world, both in the length of track and in the completeness of the arrangement and working details. It has occupied every one of the old omnibus routes, doubled their extent, and developed a paying business on routes that no omnibus line ever could make a living on. At the height of the omnibus system it had but four hundred coaches, and the passenger railways have now over one thousand cars. The omnibus routes did not measure more than fifty miles, whereas the horse railways are two hundred and fifty miles long. The main north and south streets now traversed are Second, Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth, Eleventh, Twelfth, Thirteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth, Nineteenth, Twentieth, Twenty-first, Twenty-second, Frankford, Germantown and Ridge avenues, and portions of other highways. The main streets running east and west now traversed are South, Lombard, Pine, Spruce, Walnut, Chestnut, Sansom, Market, Filbert, Arch, Race, Vine, Callowhill, Green, Spring Garden, Coates, Mount Vernon, Poplar, Girard avenue, Master, Jefferson, Oxford, Columbus avenue, and portions of others. The Union Company has about forty miles of roadway and runs several distinct lines of cars, giving exchange tickets on the connecting points of these lines for a single fare. Other independent lines that intersect sell exchange tickets for nine cents. All the companies sell packages of four tickets for twenty-five cents, and tickets thus sold are good on all lines.

The terminal points of most interest are Fairmount, Lemon Hill, New East Park, the Zoological Garden, Centennial Grounds, Frankford, Richmond, Germantown, Laurel Hill, Falls Village, Manayunk, Hestonville, Haddington, Darby, the steam railway depots, the Delaware ferries, and the Merchants' Exchange. In the year 1875 the companies paid the city $22,140 43 taxes and $27,914 47 license fees. All the companies are in a prosperous condition and make handsome profits for their stockholders, besides making constant expenditures for repairs of street paving, renewal of track, repairs and rebuilding of cars, extension of the lines, erection of new depots, etc. The increase of the population in the suburbs necessitates the removal of the terminal points further off from the business centre, and the erection of car houses and stables at more remote situations.

Open cars, in which smoking is permitted, are used on the principal lines in summer, and are pleasant and convenient, and afford a fine view of the city streets. Five lines reach the Centennial Grounds on Elm avenue. Every part of the city and environs is reached by some part of this horse railway system. All classes of business are thus laid open freely to all. Places of amusement are rendered easily accessible from all points. All the industrial works scattered over the whole city and suburbs are put in direct and constant communication with the commercial and financial centre. Every built-up district is traversed by several distinct lines of cars, and all the retail marts are within constant reach from all quarters. As the gauge of the passenger railway is adjusted to the usual width between the wheels of ordinary vehicles, the tracks make excellent tramways for all classes of carriages, and are so used to avoid the rough jolting over the stone pavement. In case of snow storms the companies clear their tracks by using snow ploughs and sweeping machines. Noiseless steam cars have been successfully tried on the Market street line, and are to be gradually introduced by that company. The system of horse car lines was introduced into the city in the face of a most extraordinary opposition, both by property holders and newspapers, but achieved an immediate success, and the lines have steadily increased, though opposed in the same vehement manner in every instance. There can be no doubt that they have all been of immense service to the city, and that as an investment of capital they have paid handsomely from the start.—*North American.*

Railroads in Texas.

Messrs. Forster, Ludlow & Co., in their circular for December, say that the International Railroad is pushed rapidly towards the Capital of Texas; but two miles remain to be built before this great trunk line will reach Austin. The Texas and Pacific Corps are now surveying from Fort Worth, the present terminus, to Weatherford, Parker County; this line has now 443 miles operated.

The Texas and New Orleans Railroad is completed to Sabine and will be pushed forward rapidly.

The Tyler Tap Road is progressing satisfactorily; 50 miles of the road are graded and 20 ready for the iron. The President of the road is now at the North, and has purchased the iron and rolling stock for the first 20 miles.

The Henderson and Overton Railroad is progressing; 40 hands are employed in tracklaying. Texas is all astir as to railroads. The immigration into the State is immense and we cannot describe it better than calling it the Texas fever. More than 300,000 people have made Texas their permanent home during the year ending September 1st, 1876, and the railroads running into the State are now taxed to their full capacity in carrying passengers.

Richmond and Petersburg Railroad.

At the annual meeting of the stockholders of this company held in Richmond on the 28th ult., Major Fred. R. Scott was unanimously re-elected president of the company, and Messrs. B. W. Haxall, Dr. D. W. Lassiter, H. K. Ellyson, W. T. Walters and R. R. Bridgers were re-elected directors. The total transportation expenses during the fiscal year ending September 30, 1876, were $77,312 22; for the year ending September 30, 1875, $86,684 31; total receipts from all sources during the year ending September 30, 1876, $137,407 03; for the year ending September 30, 1875, $164,936 34; total percentage of expenses to gross receipts, $56 26.

Transit of Goods from Canada.

The British Minister has again called the attention of our Government to the existing Treasury regulations adopted in April, 1875, in relation to the transit of goods from Canada over [illegible] territory as not being in harmony with the [illegible] our of Washington. The particular ground [illegible] treaty tion is that, goods from Canada des[illegible] of objecsit through this country and ex[illegible]ned for transboard ports, are not allowed [illegible]portation at sea to the seaboard in cars sea[illegible] make the journey Consul in Canada, so e[illegible]ed by the United States inspection at front[illegible] to avoid unloading and though goods fr[illegible]er ports of first arrival, altion are allo[illegible]ved such privilege. om Canada intended for consump-

After [illegible] careful consideration of this subject the Secre[illegible]ary of the Treasury has decided that, under the treaty, transit goods are entitled to the same

privileges of transportation, under the consular seal act of 1864, as other goods coming from Canada; they can proceed to the designated ports on the seaboard by continuous route, and that the discrimination heretofore practiced against transit goods will be discontinued. The Secretary has accordingly rescinded the regulations of recent date and restored those in force from the year 1864.

Finances of the United States.

EXTRACT FROM THE REPORT OF THE SECRETARY OF THE TREASURY.

The moneys received and covered into the Treasury by warrants during the fiscal year ending June 30, 1876, were as follows:

From Customs	$148,071,984 61
From internal revenue	116,700,782 03
From sales of public lands	1,129,466 95
From tax on circulation and deposits of national banks	7,328,573 29
From repayment of interest by Pacific Railway Companies	718,179 96
From Customs' fines, penalties, &c	183,797 86
From labor, drayage, storage, &c	1,026,346 08
From sales of Indian trust lands	190,160 29
From fees—consular, letters patent, and land	2,009,280 92
From proceeds of sales of Government property	1,852,714 94
From marine hospital tax	345,679 92
From steam-boat fees	265,583 65
From profits on coinage, &c	1,741,117 81
From tax on seal-skins	317,584 00
From miscellaneous sources	1,877,291 05
Total ordinary receipts	$283,758,493 36
Premium on sales of coin	3,723,545 80
Total net receipts, exclusive of loans	$287,482,039 16
Proceeds of bonds of 1881, Geneva award	6,613,826 12
Total net receipts	$294,095,865 28
Balance in Treasury June 30, 1875, including deposits of coin and United States notes represented by certificates outstanding	144,702,416 41
Total available cash	$438,798,281 69

The net expenditures by warrants during the same period were:

For civil expenses		$17,232,248 83
For foreign intercourse		1,410,252 50
For Indians		5,966,558 17
For pensions		28,257,395 69
For military establishment, including fortifications, river and harbor improvements, and arsenals		38,070,888 74
For naval establishment, including vessels and machinery and improvements at navy-yards		18,963,809 82
For miscellaneous civil, including public buildings, light-houses, and collecting the revenues		48,315,872 45
For interest on the public debt, including interest on bonds issued to Pacific Railway Companies		100,243,271 23
Total net expenditures		$258,459,797 83
Redemption of the public debt	$51,889,464 80	
Judgments of Court of Alabama Claims	6,641,287 26	
		58,530,752 06
Total net disbursements		$316,990,549 89
Balance in Treasury June 30, 1876		121,807,732 30
Total		$438,798,281 69

This statement shows that the net revenues for the fiscal year were $287,482,039 16

And that the net expenditures were 258,459,797 83

Leaving a surplus revenue, exclusive of provision for the sinking fund, of $29,022 241 83

In the last annual report, page 6, the Secretary stated that in the judgment of the department the revenues for this fiscal year would reach the sum of $297,455 145 14, and the expenditures the sum of $268,447,543 76, showing that there would be a surplus revenue of $29,008,601 38. By the statement of actual receipts and expenditures for this fiscal year it will be seen that the revenues yielded $287,482,039 16, or $9,974,105 98 less than the estimate, and that the net expenses amounted to $258,459,797 83, or $9,987,746 43 less than was anticipated, exhibiting a surplus revenue of $29,022 241 83, or $13,640 45 in excess of the amount contemplated. It will thus be perceived that the estimates, when taken as a whole, were remarkably reliable, varying from the actual results realized by the Treasury only to the extent of $13,640 45.

RECEIPTS AND EXPENDITURES FOR THE FISCAL YEAR ENDING JUNE 30, 1877.

The receipts during the first quarter were:

From Customs	$37,554,728 53
From internal revenue	28,818,336 87
From sales of public lands	252,005 63
From tax on circulation, etc., of national banks	3,534,707 87
From repayment of interest by Pacific Railways	97,902 59
From Customs' fines, etc	17,695 27
From consular, patent, and other fees	425,634 75
From proceeds of sales of Government property	171,875 36
From miscellaneous sources	2,123,069 16
Net ordinary receipts	$72,991,005 53
Premium on sales of coin	119,518 96
Total	$73,110,524 49
Proceeds of bonds of 1881, Geneva award	2,403,445 58
Total net ordinary receipts	$75,513,970 02
Balance in Treasury June 30, 1876	121,807,732 30
Total available	$197,321,702 32

The expenditures during the same period were:

For civil and miscellaneous expenses, including public buildings, light-houses, and collecting the revenues		$15,987,203 41
For Indians		1,484,765 93
For pensions		8,382,357 98
For military establishment, including fortifications, river and harbor improvements, and arsenals		9,715,661 35
For naval establishment, including vessels and machinery and improvements at navy yards		6,174,353 96
For interest on the public debt, including Pacific Railway bonds		37,107,550 63
Total ordinary expenditures		$78,751,893 26
Redemption of the public debt	$3,618,648 77	
Judgments of Court of Alabama Claims	2,353,634 21	
		5,972 282 98
Total expenditures		$84,724,176 24
Balance in Treasury September 30, 1876		112,597,526 08
Total		$197,321,702 32

For the remaining three-quarters it is estimated that the receipts will be:

From Customs	$89,445,271 47
From internal revenue	91,511,653 63
From sale of public lands	800,000 00
From tax on national banks	3,600,000 00
From reimbursement by Pacific Railways	300,000 00
From Customs' fines, penalties, and forfeitures	75,000 00
From consular, patent, and other fees	1,200,000 00
From proceeds of sales of public property	250,000 00
From miscellaneous sources, including premium on coin	4,000,000 00
Total net receipts	$191,181,925 10

For the same period it is estimated that the expenditure will be—

For civil and miscellaneous, including public buildings	$39,000,000 00
For Indians	4,000,000 00
For pensions	20,000,000 00
For military establishment	26,500 000 00
For naval establishment	7,500,000 00
For interest on the public debt	61,876 860 09
Total ordinary expenditures	$158,876,860 00

It will be observed from the statement of actual receipts and expenditures for the first quarter, that ending Sept. 30, and of the estimates of the same for the remaining three quarters, based upon existing laws, that it is expected that the revenues for the current fiscal year will yield the sum of $264,292,449 59, and that the expenditures will amount to $237,628,753 35, which will leave a surplus revenue of $26,663,696 24.

The amount which should be applied to the sinking fund is estimated at $33,705,806 67. The surplus revenues will fall below that amount, in the opinion of the department, by not less than $7,042,110 43.

ESTIMATES FOR THE FISCAL YEAR ENDING JUNE 30, 1878.

It is estimated that the receipts for the fiscal year ending June 30, 1878, will be:

From Customs	$130,000,000
From internal revenue	123,000,000
From sales of public lands	1,200,000
From tax on circulation of national banks	7,350,000
From reimbursement of interest by Pacific railway companies	350,000
From Customs fines, penalties, and forfeitures	150,000
From consular, letters patent, and other fees	2,250,000
From proceeds of sales of Government property	250,000
From miscellaneous sources	5,500,000
Total ordinary receipts	$270,050,000

It is estimated that the ordinary expenditures for the same period will be:

For civil expenses	$15,500,000 00
For foreign intercourse	1,245,000 00
For Indians	5,342,000 00
For pensions	28,500,000 00
For military establishment, including fortifications, river and harbor improvements, and arsenals	36,500,000 00
For naval establishment, including vessels and machinery and improvements at navy yards	16,000,000 00
For civil and miscellaneous, including public buildings, light-houses, collecting revenues, mail steamship service, deficiency in postal revenues, public printing, &c	42,000,000 00
For interest on the public debt	94,386,294 00
For interest on Pacific Railway bonds	3,877,410 00
Total estimated expenditures, exclusive of the sinking fund account and principal of the public debt	$248,350,704 00

Upon the basis of these estimates, there will be a surplus revenue for the fiscal year 1878, applicable to the sinking fund, of $26,699,296. The estimated amount required by law to be set apart for that fund is $35,391,096 60. If therefore, these estimates shall prove to be approximately correct, there will be a deficiency in this account of $8,691,800 60.

The estimates received from the several Executive Department are as follows:

Legislative establishment		$2,943,722 80
Executive establishment		15,999,199 38
Judicial establishment		3,911,400 00
Foreign intercourse		1,245,997 50
Military establishment		32,215,595 90
Naval establishment		19,430,012 69
Indian affairs		5,342,899 12
Pensions		28,538,000 00
Public works:		
Treasury Depart.	$4 264,196 65	
War Department.	18,793,227 70	
Navy Department	2,900,096 00	
Interior Depart.	837,982 62	
Department of Agriculture	13,450 00	
Department of Justice	42,500 00	
		26,851,452 97
Postal service		6,078 267 43
Miscellaneous		10,553,546 85
Permanent appropriations, (including $35,391,096 60 for sinking fund)		146,506,576 86
Total		$299,611,671 00

REDUCTION OF THE NATIONAL DEBT.

Principal of the debt July 1, 1875	$2,232,284,531 95
Interest due and unpaid, and accrued interest to date	38,647,556 19
Total debt	$2,270,932,088 14
Cash in the Treasury	142,243,361 82
Debt, less cash in the Treasury	$2,128,688,726 32
Principal of the debt July 1, 1876	$2,180,395,067 15
Interest due and unpaid, and accrued interest to date	38,514,004 54
Total debt	$2,218,969,071 69
Cash in the Treasury	119,469,726 70
Debt, less cash in the Treasury	$2,099,499,344 99
Showing a reduction, as above stated, of	$29,249,381 33

It will be observed that the surplus revenues, exclusive of provision for the sinking fund, as shown in the statement of receipts and expenditures for the fiscal year, were $29,022,241 83, or $227,139 50 less than the amount of the reduction of the debt, as shown by the monthly statement of the same.

The difference between these two statements arises from the difference of dates at which they are made up, as will be seen by a comparison of them as regards the cash in the Treasury at the commencement and close of the fiscal year, and of the item of "interest due and unpaid, and accrued interest to date," which in the monthly debt statement is treated as a liability of the Government, precisely as is the principal of the debt, but which is not so considered in the statement of receipts and expenditures.

The cash in the Treasury July 1, 1875, as shown by the monthly debt statement of that date, and which embraced only the moneys officially reported to the department at the time of its issue, was	$142,243,361 82
The cash in the Treasury July 1, 1875, as shown by the account of receipts and expenditures, (the books from which it is prepared usually being kept open for a period of forty-five days, so as to include at the date of closing the account all the revenues deposited at the different places of deposit throughout the country within the period covered by the same, and which are unascertained at the time of the issue of the monthly statement,) was	144,702,416 41
Showing a difference of	$2,459,054 59
The cash in the Treasury July 1, 1876, as shown by the monthly debt statement of that date, was	$119,469,726 70
And as shown by the statement of the receipts and expenditures of same date	121,807,732 30
Showing a difference of	$2,338,005 60
The difference in these two statements of cash reported to the Treasury, as appears by the monthly statement, and as ascertained by the statement of receipts and expenditures at the commencement and close of the fiscal year, it will be seen, is $121,048 99, less the sum of $27,461 14 paid on account of judgments of the Court of Alabama Claims in excess of the amount received during that quarter from the proceeds of the sale of the bonds held in trust for that purpose, and which was returned to the Treasury in the succeeding quarter out of the proceeds of sale of bonds in excess of payments in that quarter. The transactions in relation to these bonds were in no sense an ordinary receipt for expenditure of the Government, and were not so treated	$93,587 85
To which add the reduction in the item of "interest due and unpaid, and accrued interest to date."	133,551 65
Making the sum of	$227,139 50

It will, therefore, be perceived that no difference exists in these two accounts, other than that which grows out of the manner of their preparation.

Proposed New Railroad.

The Boston Journal says that a preliminary meeting was held in North Attleboro', Mass., on the 27th ult., which was largely attended by the prominent business men of that place, to consider the possibilities of securing further railroad facilities, and then adds:

The plan proposed is the construction of a road commencing at Providence, running thence from Harris avenue through Wanskuck to Pawtucket and Valley Falls, then crossing the State line on through Attleboro' city, North Attleboro', Plainville, Wrentham Centre to Walpole, making connection at the latter place with the New York and New England road, then to Boston—forming at Providence end of the line a junction with the Hartford, Providence and Fishkill Railroad, making another through route from Boston to Providence, also a through line from Boston to Hartford and other points of importance. The meeting was addressed by Mr. Prentice of Providence, who explained the project in its various bearings, and at the conclusion of his remarks $23,500 were immediately subscribed toward the required $75,000 necessary for North Attleboro' to raise. A committee was chosen to solicit stock subscriptions, also to prepare articles of association.

Great interest is being manifested all along the proposed line of road, individuals in the town of Wrentham having already pledged themselves to the amount of $75,000 toward the project, and prominent parties, it is understood, are ready to see to the Rhode Island end of the route in case the Massachusetts portion can be safely assured.

Ohio and Mississippi Railroad.

Messrs. Daniel Torrance of this city, and John King, Jr., of Baltimore, Receivers of the Ohio and Mississippi Railroad, in a circular which they addressed to the officers, agents and employes of the company on the 22d of November, state that all its earnings are now within the control and protection of the federal courts, and then add:

Under the order of the court, and in accordance with the wishes of the receivers, all wages earned for four months previous to the said order are to be paid. The receivers learn with regret that the discipline upon the line has been bad, and that demoralization exists in some portions of the service. Without considering at this time the causes which may have led to this highly unsatisfactory conditions of things, it is sufficient to state that it exists, and must be immediately corrected. The strictest accountability will be required, the greatest economy enforced, and the most rigid discipline maintained. The receivers, in their efforts to produce improved results, rely with confidence upon a thorough and harmonious co-operation hereafter upon the part of every man in the service.

The September wages, amounting to $95,000, were paid on the 25th ult. The October wages will be paid at an early day, and assurances are given that the employees of the company will be promptly and regularly paid hereafter. It is understood that the change in the management of the road has given great satisfaction to its employees and to its customers, and good results are confidently looked for.

The Coal Trade.

The total tonnage for the week ending on the 25th ult. as reported by all the companies, amounted to 529 821 tons, against 591,228 tons in corresponding week last year, a decrease of 61,407 tons. The total amount of anthracite mined for the year is 17,360,501 tons, against 19,172,002 for same period last year, a decrease of 1,811,501 tons. The quantity of bituminous coal sent to market for the week was 94,216 tons, against 90,083 tons for corresponding week last year, an increase of 4133 tons. The whole bituminous tonnage from the beginning of the coal year is 3,348,523 tons, against 3,621 030 tons in corresponding time last year, a decrease of 272,497 tons. The total tonnage of all kinds of coal for the week is 624,037 tons, against 681,311 to corresponding date last year, a decrease of 57,274 tons, and the total tonnage for the coal year is 20,709,024 tons, against 22,793,022 tons to same date last year, a decrease of 2,086,998 tons. The present stock at Port Richmond is estimated at some 78,000 tons. The receipts at Perth Amboy for the week ending the 25th ultimo were 27 164 tons, and shipped 13,994 tons, leaving a stock on hand of 55,994 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 108,283 tons, of which 90,542 tons were coal and 17,741 tons coke. The total carried this year is 4,086,685 tons, of which 3,805,155 were coal and 671,979 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Dec. 4.*

☞ Cincinnati is anxious to push forward the Southern Railroad to Chattanooga, in order to secure a direct route to the Gulf States. It is already finished with steel rails from the Ohio to the Kentucky river, and, in the course of two or three months, will touch the Cumberland. Four millions more are needed, in addition to the sixteen million dollars expended thus far, to put the road in good running order.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, December 9, 1876.

Financial and Commercial Affairs.

The situation rather improves and values appreciate; and these take place in the face of declining gold and a hardening money market. No approach has been made to the adjustment of domestic politics, so far as regards the contest for the Presidency of the United States, but indications still point to a peaceful adjustment of affairs. The cold weather has caused an improvement in the "coal shares," and the feeling regarding the shares of Western railroads is one of an increasing confidence. The improvement, however, has not been large in any case. The guarantees of the Pennsylvania Railroad have been barely maintained, and New York Central slightly declined. On Wednesday, the general market was weaker. Railroad bonds have been in good demand at full prices.

The bank statement for last week, was but an exaggeration of the statements for the three weeks; namely, an increase in gold, a loss of legal tenders, and a weakening of the legal reserve. The effect has been to cause some advance in rates for money, closing at 4@6 per cent on call and 5@7 per cent on time bills.

Gold continues to come from Europe in large amounts, and the cost of carrying has advanced to 4@5 per cent. Under these influences, the premium has latterly declined, and from a rally to 109 the close on Wednesday was at 108. Exchange on a gold basis has ruled more steady, and prime sixty-day bills close at $4 81@4 82.

Exports of merchandise are somewhat restricted by the scarcity and high rates of ocean freights, as well as the speculative values at which many

of the leading articles of domestic products are held. The aggregate remains large, however; and from the port of New York for the week ending December 6th was $6,934,616, against $5,160,801 for the corresponding week in 1875. The total exports of produce since Jan. 1, this year, were $254,591,124, against $238,940,282 for the corresponding period in 1875.

Government bonds show a considerable decline for the week, under free sales for German account. The quotations at the close on Wednesday were:

United States currency sixes, 120⅞@121⅛; do. 6s, 1881, registered, 112¾@113; do. coupon, 116⅜@116⅝; do. 1865, registered, 109@109¼; do. coupon, 109@109¼; do. new, registered, 109⅛@109¼; do. coupon, 112⅜@112½; do. 1867, registered, 112¼@112⅜; do. coupon, 115¼@115⅜; do. 1868, registered, 112¾@113¼; do. coupon, 116⅛@116⅜; do. ten-forties, registered, 112⅜@113; do. coupon, 112⅞@113⅛; do. fives, 1881, registered, 111@111¼; do. coupon, 111@111¼; do. four and one-halfs, 109⅛@109⅜.

General trade improves, and prices of leading staples have ruled firm. Cotton, however, is less buoyant. The export demand for breadstuffs has been active, but a scarcity of freight room checks business. Provisions show a rather firmer market. But the unsettled state of domestic politics is still the subject of much complaint in mercantile circles.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—U. S. called bonds, reg., 108⅝; Dubuque and Sioux City R. R., 62; do. 7s, 2d div., 107; Cleveland and Toledo 7s, S. F., 110½; Toledo and Wabash Equipment bonds, 22½; Boston, Hartford and Erie 7s, guar., 15; Galena and Chicago 1st mort., 107; Quincy and Toledo 1st mort., 70; Cedar Falls and Minnesota 1st mort., 90; Rensselaer and Saratoga R. ☞ The Baltimore Steam Packet Company has given the contract to the Harlan & Hollingsworth Company of Wilmington, Del., to build a large and very fast first class sidewheel steamboat to run between Baltimore and Norfolk, as consort to the Florida. Work has already been commenced, and the new steamer will be pushed forward to completion. The contract for furnishing the iron plates has been awarded to Seidel & Hastings, of Wilmington.

☞ Ground was broken last week in Botetourt Co., Va., on the Clifton Forge railroad, which is to extend from Clifton Forge, on the Chesapeake and Ohio railroad, to the James River and Kanawha canal, at Buchanan, in Botetourt county. A small force of hands will be kept on the works until spring, when, it is expected, about five hundred penitentiary convicts will be put upon the line.

☞ At a recent meeting of the Board of Directors of the Long Island Railroad Company, Mr. Conrad Poppenhusen resigned the Presidency, and Mr. David N. Ropes of Orange, N. J., was elected in his stead.

☞ President Davis, of the Dumbarton Railroad, calculates that it will cost $1,000,000 to construct the road from Santa Clara to Santa Cruz, but that the road can be built in one year.

☞ A new route to Florida, via Brunswick and Fernandina, was opened on the 1st of December, and through cars from Richmond to Brunswick passed through Macon on the 3d inst.

☞ The New York and New England Railroad company now has 14 miles of double track out of Boston, the last mile of which will be in use in a few days.

☞ The cars of the Santa Cruz Railroad Company crossed over the new bridge at Watsonville for the first time on the 21st of November.

Old Colony Railroad.

The annual meeting of the Old Colony Railroad Company was held in Boston on the 28th ult.

The annual report of the Board of Directors to the stockholders was presented, accepted and ordered to be placed on file. A full abstract of the report is given on another page of the JOURNAL.

On motion of Dr. Wm. B. Duggan of Quincy, the meeting proceeded to the choice of thirteen Directors for the ensuing year, and Dr. Duggan of Quincy, Frank W. Andrews of Boston, Wm. S. Danforth of Plymouth, Holder B. Durfee of Fall River, and Dr. Peter Pineo of Hyannis were appointed a committee to collect, assort and count votes.

Hon. Seth Turner, in behalf of the Auditing Committee, reported that they had examined the accounts of the Treasurer and found them to be correct.

An auditing Committee was chosen for the ensuing year, consisting of Seth Turner of Randolph, W. R. Pierce of Middleboro' and Fred. L. Ames of North Easton.

Mr. Charles F. Choate called the attention of the stockholders to the debt of the corporation, and offered the following vote:

Voted, That for the purpose of providing means for the payment of the bonds of this corporation maturing August 1, 1877, and notes payable of the corporation, the Directors are hereby authorized to issue bonds or obligations of the corporation to an amount not exceeding $2,000,000, bearing interest at a rate not exceeding 7 per cent per annum, payable semi-annually, and payable not more than twenty years from their date, the same to be either registered or coupon or both, in such proportion as the Directors may determine.

And in lieu of any part of said bonds or obligations the Directors may issue notes or certificates of debt of the corporation, payable at periods more than twelve months from their date, to such an amount as the Directors may deem judicious, provided that the whole amount of indebtedness incurred under this vote shall not exceed $2,000,000.

Mr. Choate explained that it was not the intention of Directors to increase the debt of the company, but simply to change the character of the loan. In the next year the bonds of the corporation due in 1877 will mature to the amount of $1,450,000. These bonds bear interest at the rate of 7 per cent. The directors are of opinion that this loan can be funded at a rate of interest not exceeding 6 per cent, and that it will be for the interest of the company to make a new loan for this amount; and as it may be doubted, under the new law passed by the Legislature of Massachusetts, approved April 26, 1876, whether the entire amount would be covered by the vote of the stockholders of Nov. 25, 1873, they request the passage of a special vote to authorize the loan.

The vote was adopted.

Mr. Choate next offered the following vote, which was adopted:

Voted, to accept the acts passed by the Legislature of Massachusetts, being chapter 135 of the acts of the year 1876, and by the General Assembly of the State of Rhode Island and Providence Plantation, passed January 2, 1876, authorizing this corporation to purchase the property, railroad franchises of the Fall River, Warren and Providence Railroad Company, and that the Directors are hereby empowered to take all necessary steps to effect such purchase.

On motion of Judge Marston the thanks of the corporation were tendered to Minot Tirrell for his valuable services as a member of the Auditing Committee, from which he has retired.

The following gentlemen were unanimously elected Directors for the ensuing year, the whole number of votes cast being 7107: Onslow Stearns, of Boston; Uriel Crocker, of Boston; Benjamin Finch, of Newport; Oliver Ames, of Easton; Charles F. Choate, of Cambridge; Samuel L. Crocker, of Taunton; Jacob H. Loud, of Plymouth; Thomas J. Borden, of Fall River; Royal W. Turner, of Randolph; Francis B. Hayes, of Boston; Ephraim N. Winslow, of Hyannis; John S. Brayton, of Fall River; Prince S. Crowell, of Dennis.

The meeting was then dissolved.

Swamp Land Patents.

The recent decision of the United States Supreme Court in the case of French vs. Fynn and others, from the Circuit Court in Missouri, holds that swamp land patents cannot be impeached by actions at law, and overruled the old decision of the California Supreme Court. The land in dispute was vested in the plaintiff through a purchase from the Missouri Pacific Railroad Company, to whom it had been certified in 1854, as part of the land granted to aid in the construction of said road. To overcome this prima facie case, the defendant introduced the patent issued to Missouri under the Swamp Land Act of 1850, and it was admitted that the defendant has a regular chain of title under this patent. At this stage the plaintiff offered to prove in rebuttal, by parol evidence, that the land was not swamp or overflowed and unfit for cultivation, and that the greater part thereof had never been so since 1849. The Court below ruled that since the defendant introduced the United States patent to the State for the said land as swamp land, this concluded the question, and ruled out the parol evidence, and the plaintiff excepted. The Supreme Court sustains the Court below, under its previous decisions, that the Swamp Land Act was a grant in presenti, by which the title to those lands passed at once to the State in which they lay, except to States admitted into the Union after its passage. The Court holds in substance that parol testimony cannot be received to overturn the decision of the Secretary of the Interior, as declared in the patent, that officer having been made by law the tribunal, whose decision of such questions was controlling.

Finances of North Carolina.

From the exhibit of the debt of this State, given by the Governor in his message, it appears that the total on the 1st of October, 1876, including special tax bonds, was $41,846,930 45, of which over thirteen millions consists of unpaid interest. It is further said:

"Nothing has yet been done under the act passed by the last General Assembly to compromise the State debt. The amount of our State bonds held by the few creditors who signified their willingness to accept the proposed compromise was so small that it was not deemed advisable to incur the expense of having new bonds prepared, and of levying a special tax upon all the taxable property of the State for the purpose of paying the interest on such a small amount. It is very important that we should compromise, commute and settle the State debt, so that our financial condition may be the better known both at home and abroad and our public credit again established on a firm basis."

FISK & HATCH,

Bankers,

No. 5 NASSAU ST., NEW YORK.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

TO the HOLDERS of MOBILE AND OHIO RAILroad First and Second Mortgage Bonds.—Attention is called to the plan of reorganization of the above Company proposed by the undersigned and others in opposition to the plan recently submitted by Messrs. Wm. H. Hays, Wm. S. Pierson, and T. Haskins Dupuy. Copies can be obtained on application to MORAN BROTHERS, No. 68 William st. H. AMY & Co., Nos. 19 and 21 Nassau st.

Connecticut Valley Railroad.

The affairs of the Connecticut Valley Railroad, which in June last surrendered to the State Treasurer for the benefit of the second mortgage bondholders, have improved under the management of the agents appointed by the Treasurer for operating the road. These are President Babcock, of the road, and Judge E. R. Wiggin, formerly of New York city, and now President of the Charter Oak Life Insurance Company. The reports presented at the annual meeting in Hartford on the 28th ult, showed that for nine months under the old management up to June 30 last, the receipts were $15,000 less than the expenses, while for the first three months of the new management up to September 30, the income was $29,500 over the expenses. This change results from cutting of trains, reducing salaries and the number of employes, and the prospects are favorable to extinguish the large floating debt of $300,000 and eventually meeting the interest on the second mortgage bonds, none of which has ever been paid since the bonds were issued.

Wilmington and Reading Railroad.

The Wilmington and Reading Railroad, Rolling Stock, and appurtenances, were sold by auction in Philadelphia, on the 4th inst., under foreclosure of first mortgage, for the sum of $100,000. The whole amount of the mortgage is $1,250,000, which is followed by a second mortgage for $750,000. The whole amount of this second mortgage is cut off and is lost, as is also one quarter of a million of the first mortgage. The purchase is understood to be for account of a committee of the first mortgage holders. The price is considered low, though the work was never worth its cost. The line of the road is from the city of Wilmington, Delaware, to the city of Reading, Pennsylvania, passing to the west of Philadelphia, through a rural district most of the way.

Length of main line of road from New Bedford to Mansfield, miles.	32.500
Length of double track on main line, miles	2.008
Total length of branches, owned by company, miles	24.729

☞ The word "tramway," by which the English denote a horse-car track, is derived from the second syllable of the name Outram. The ancestor of Sir James Outram, a very distinguished General, who died a few years ago, took a leading part in extending horse railroads for drawing coal, etc., and his roads were called Outram ways, and gradually the first syllable was dropped.

Port Dover and Lake Huron Railway.

The Woodstock Sentinel says that at a general meeting of the Port Dover and Lake Huron Railway company the directors, in compliance with their own request, were authorized to withdraw the bonds already issued by the company and to make a new issue of £95,000 sterling in lieu thereof, bearing interest at 6 per cent. The object of this action is—by enabling the company to dispose of the new issue in England—to place the company in a position to pay off their floating liabilities and carry out such further improvements as will make it efficient for traffic. If this object be accomplished, the company will be in a singularly fortunate position, financially. With a lighter bonded debt than any other line, and freed from the embarrassments of a floating debt, it will be able—as it has done thus far, and as the traffic already acquired gives assurance of ample ability to do in the future—to pay the interest on its bonded debt and have a sufficient margin to cover running expenses.

Statement of the Public Debt of the United States, December 1, 1876.

DEBT BEARING COIN INTEREST.

	Amount Outstanding.	Accrued Interest.
5 per cent. bonds, 1858	$260,000 00	$5,416 67

NOTICE TO CONTRACTORS.

BIDS FOR THE CONSTRUCTION OF THE Columbus and Mineral Valley Railway will be received at the office of the undersigned, in the city of Columbus, Ohio, until noon, on the 10th day of January, 1877.

Bids may be made for the construction of one or more sections, or for the whole road, and may include all materials necessary to complete it for equipment.

The necessary maps, profiles and estimates for work can be found at the office of the undersigned, where all required information may be obtained.

The company reserve the right to reject any and all bids offered.

JOHN M. PUGH,
President C. & M. V. R'y Co.

Columbus, Dec. 1, 1876.

Knox & Shain,

MANUFACTURERS of Engineering and Telegraphic Instruments, 716 Chestnut St., Phila. (Two premiums awarded.)

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

SAMUEL RAYNOR & CO.,
117 William st., New York.

American Railroad Journal.

New York, Saturday, December 16, 1876.

Mobile and Ohio Railroad.

This is one of the great land grant railroads of the country, which has been overtaken by financial difficulties, the adjustment of which is now receiving the active attention of parties interested. Of course, many vexed points are involved, and conflicting views prevail. It is often not easy to harmonize the strict letter of contracts with equity to both debtor and creditor; and in such case the progress toward adjustment must necessarily be slow. Not only must mutual rights of debtor and creditor be protected, but the relative status of the different grades of debtors is not to be lost sight of. A circular issued in behalf of the holders of the first mortgage sterling bonds ($5,686,000 in amount, with interest payable at Mobile and London) draws attention to the latter phase of the subject. They very naturally object to being sacrificed to the interest and claims of inferior bondholders. The circular gives a history of proceedings that have been taken since the default in the interest on the bonds, showing how the claimants of the floating debt attempted to get possession of the property—being barely defeated by the vigorous opposition made by Mr. Morris Ketchum. The circular then touches upon Mr. Alexander Duncan's claims, and a strong protest is uttered against the attempt to make coupons that have been paid to the amount of $736,000, a part of the existing first mortgage, on the claim that they were assigned to Mr. Alexander Duncan by the late firm of Duncan, Sherman & Co. "Dead and paid coupons," the circular emphatically declares, "cannot be revived in this way, to eat up mortgaged property." Indeed, if they can be, of what value is a first mortgage?

The circular next alludes to and exposes the effort to give certain claims, which are called the Tennessee Substitution bonds, and amounting to $2,018,028, a priority of position over the first mortgage bonds. This amount, with the other claims which it is proposed to put in like position with them, aggregate $3,290,028. To give claims to so large an amount an unjust priority of the first mortgage bonds, must greatly diminish the value of the latter, as it must of all first mortgages; for of what value is a first mortgage, if a aggle of the management or of the law is to put other claims ahead of it?

Comity and fair dealing demand of the first mortgage bondholders that the minor obligations of the road should not be disregarded and lost sight of, but it is equally clear that they are entitled to the control of a road which has defaulted in its interest. A committee, consisting of Moran Brothers, H. Amy & Co., Arents & Young, and Louis J. Belloin, have issued a proposition for the reorganization of the Mobile and Ohio Railroad Company, as follows:

I. Obtain from the Court an order for the application to the payment of our overdue coupons, of the assets which it was lately attempted to apply to the payment of the Floating Debt Creditors.

II. Release the property from the hands of the Court, by the sale of the entire line, from Mobile, Alabama, to Columbus, Kentucky. At such sale the property to be purchased for the benefit of all the securities of the present company—and the purchasers to reorganize the company in accordance with this plan.

III. The reorganized company to create and issue new securities, as follows:

(a). Six per cent Bonds, payable, principal and interest, in gold, secured by a First Mortgage on the entire line from Columbus, Kentucky to Mobile, Alabama, and on all the property, rights, franchises and lands acquired by the purchase for account of the reorganized company; and bonds to be issued in exchange for the First Mortgage Sterling Bonds, and for the Interest Bonds, and for the unpaid coupons on those bonds, which matured on and after the first of May, 1875. We propose to admit the Interest Bonds on the same basis with the First Mortgage Bonds, because the old First Mortgage coupons are held in trust for the benefit of the holders of the present Interest Bonds.

(b). First preferred Income Bonds bearing seven per cent interest, non-cumulative, and payable only when earned, to be issued in exchange for the present Second Mortgage Bonds, and for unpaid coupons to March 1, 1878.

(c). Second preferred Income Bonds bearing seven per cent interest, non-cumulative, and payable only when earned, to be issued in exchange for the present convertible Bonds and unpaid conpons, to March 1, 1878.

(d). Third preferred Income Bonds, bearing seven per cent interest, non-cumulative, and payable only when earned, to be issued in exchange for the Tennessee Substitution Bonds and unpaid coupons, to January 1, 1878.

(e). Fourth preferred Income Bonds bearing seven per cent interest, non-cumulative, and payable only when earned, to be issued in exchange for the Consolidated Bonds.

(f). Surplus Income Bonds bearing seven per cent interest, non-cumulative, and payable only when earned, to be issued in settlement of Floating Debt.

When it is recalled, that in case of the sale of the road on foreclosure it would probably not bring the amount of the First Mortgage, and that it therefore rests entirely with the First Mortgage Bondholders to determine the conditions on which they will admit the junior securities to participate in the purchase, the foregoing proposition may be regarded as very little on the part of the gentlemen proposing it, as it certainly is according to justice and equity, and it is to be hoped that it will be accepted. It will be unfortunate to precipitate a prolonged contest in the courts. The interests of all parties would be injured, and the working of the road impaired.

Illinois Railroads.

The annual report of the Board of Railroad and Warehouse Commissioners shows that the total length of main line of all the railroads in the State, and those which pass through or come into the State, is 10,526 miles, of which 363 miles are double track. The total length of main lines in the State is 5,005 miles; length of branches of all these roads, 4,888 miles; length of branches in Illinois, 2,280 miles; total length of main lines and branches in the State, and those which come into the State, 15,414 miles; total length of main lines and branches in the State, 7,276 miles, which is an increase of 168 miles since the last annual report. There are fifty-two companies in the State, many of which are the result of numerous consolidations and combinations. Number of engines, 3,271: passenger cars, 1,350; express and baggage cars, 621; flat and coal cars, 18,929; freight and stock cars, 39,743; all other cars, 3,633; total, 64,253. The total number of stations in Illinois is 1,432, and of junctions, 321. The tariffs of the roads show a reduction generally as compared with previous years. The average passenger tariff per mile varies from 2.06 cents on the Baltimore, Pittsburg and Chicago, to 5 cents on the Louisville, New Albany and St. Louis. The average freight tariff per ton per mile varies from 0.85 cent on the Baltimore, Pittsburg and Cincinnati, to 3.1 cents on the Lafayette, Bloomington and Mississippi.

New York, Providence and Boston R. R.

The business of this company for the year ending August 31, 1875, and for the thirteen months ending September 30, 1876, has been as follows:

Receipts:	1875.	1876.
Passage	$462,171 09	$516,272 43
Freight	350,940 26	399,743 79
Mail service	9,456 25	10,014 06
Rents, etc	7,228 86	9,237 97
Dividend Stoningt n Steamboat Co	119,289 50	
Interest account	585 05	11,401 12
Dividends P. & S. S. S. Co		112,686 00
Receipts under contract Fall River Line	15,800 00	5,872 77

Interest on 6 per cent bonds	4,650 00	
Interest on Extension road bonds	15,000 00	
Interest on Improvement bonds	3,500 00	
Interest on 7 per cent bonds issue 1869	58,590 00	
		369,150 00
Surplus		$96,051 56

The total length of main road is 62½ miles; total length of double track, 50 miles; aggregate length of sidings, about 7¾ miles—making total length of track for entire road (single track) 120¼ miles. Length of track laid with steel rails, 32.48 miles. The equipment of the road consists of 26 locomotives, 31 passenger, 111 freight, 2 baggage, 16 gravel and 112 flat cars. 15 locomotives and 43 cars are equipped with the Westinghouse Air Brake, and 31 cars with the Miller Platform, Buffer and Coupler. Number of miles run by passenger trains, 870,119; by freight trains, 180,511; by other trains, 57,720—total miles run, 608,350. Number of passengers carried, 769,764; do. carried one mile, 19,570,190. Tons of merchandise carried, 271,907; do. carried one mile, 10,128,540. The report says:

In accordance with the vote of the Stockholders at the last Annual Meeting, changing the termination of the fiscal year from 31st August to 30th September, the figures herewith submitted comprise a period of thirteen months.

Deducting the receipts and expenses for the month of September, the gross earnings for the year ending 31st August, are $973,857, and gross expenses $548,807, leaving net earnings $425,050, or $16,500 in excess of the corresponding period last year. Pursuing the comparison still further, we find that, discarding all revenue from outside sources, we have gross earnings for 1876 $844,000, as against $830,000 for 1875; and on the same basis of calculation, the net earnings are $25,000 in excess of previous year. This gratifying result is due chiefly to receipts from freight business alone, as, deducting the passenger business of September from the passenger business of the thirteen months, there is shown a slight falling off in that department from the preceding year. It should be remembered, however, that the Centennial travel did not fairly commence until September 1st, the receipts from through passengers for that month being $10,000 in excess of September, 1875—the month of October showing a still larger increase.

As already stated, the gross expenses for twelve months are $548,807, being $11,000 less than last year, notwithstanding that during the same period the trains have run 88,000 more miles, and for the whole thirteen months the number of miles run by all trains is 604,670, being 83,484 miles more than the previous year.

Repairs to road for the thirteen months are $143,000, being $18,000 less than the previous twelve months, which may be attributed partly to the open winter with which we were favored, and largely to the use of steel rails; of which we have laid this year 1757 tons, making, in addition to those laid previously, 2773 tons, or 32¼ miles of single track, second to none in New England.

Nearly 2000 iron rails have been repaired at the Company's shop, and relaid; and 41,416 new ties have been put in, and 54 Tyler safety switches have been added; so that all switches on the main line are now of the most approved pattern.

The comparatively low price of Bessemer steel rails, at the present time, would, if there were no other reason, indicate their use as the truest economy; but when the increased safety and decreased cost of repairs are considered, there can be no question as to the propriety of substituting them for iron as fast as the latter are worn out; and this it is proposed to do, charging only the difference between steel and iron to construction account, as heretofore.

The bridge at Apponaug has been rebuilt, and all others, with depots and platforms, have received the necessary repairs.

At Providence, where we have been very much cramped for room, we have exchanged a piece of land lying along side the road in the neighborhood of Acorn-street, of no special value for railroad purposes, for a lot adjoining our premises at Cove street, where the Machine Shop now stands. On to this lot we have moved the rail shop, and have laid nearly 2000 feet additional track, besides gaining another entrance to the engine house, all of which, in the language of the Superintendent, is a great saving in time and cost of doing the business at this station.

The Ferry Boat "Thames River," having run more than five years without losing a trip, requires to be withdrawn for repairs at the earliest practicable moment. With this view, but chiefly to provide for crossing a larger number of cars at a single trip than could be done by the "Thames River," a new boat, of much larger size, has been purchased and fitted up at a cost of about $68,000, and named the "Groton." For her better accommodation at New London, and to improve our terminal facilities at that point, a new slip is now being constructed, and in conjunction with the N. Y. & N. H. Road it is proposed to make that station—long an eyesore and a reproach—a convenient and respectable depot for the large and constantly increasing business of both roads.

On the completion of the repairs to the "Thames River," we shall have two large and elegantly appointed boats, amply sufficient, for years to come, for all the wants of the service—leaving the old "Short Line" to be sold, should opportunity offer.

In the mean time, the question of a Bridge across the River in the vicinity of the present Ferry, is being agitated by the roads on the west side, and it is quite probable that before many years it will assume a shape requiring serious consideration on the part of this Company.

In accordance with the policy heretofore pursued, of aiding to a moderate extent in the construction of Branch Roads likely to increase the business of this company, $15,000 has been invested in the capital stock of the Narragansett Pier Railroad, at par. While it is possible that some years may elapse before dividends will be paid on this stock, it is believed that the interest on the investment will be more than met by the increased travel which this branch will bring over your road, from both directions. The Warwick Branch Road, in which, however, this road has no direct interest—has not been run since August 1st last, and we are unable to say when it will resume business. It is indebted to this company in the sum of $2,655 96, for use of rolling stock, which is secured by lien, and must ultimately be paid.

Since our last report, we have purchased one new engine, (the Henry Morgan,) of large size, and a very superior machine; three new passenger cars; one baggage car; and have paid our proportion of two first class passenger cars and one baggage car for Shore Line Express; and have built in the Company's shops one baggage and mail car, six eight-wheeled freight cars, and one four-wheel freight car for transporting ice.

The value of materials on hand of all kinds, including $50,000 in second quality and condemned rails, is $115,578, or $7,000 less than last year.

We very deeply regret that during the thirteen months comprised in this report eight persons have been killed on the line of this road, and one drowned by jumping from ferry boat "Thames River." With the exception, however, of the explosion of the boiler of one of our locomotives, Nov. 12th, 1875, by which three out of the eight were fatally injured, it was in each case the result of carelessness or ignorance on the part of the sufferers, and probably in more than one instance could be traced to over indulgence in liquor. The cause of the explosion has never been satisfactorily determined, though a long searching investigation was made at the time, and all the science and ingenuity of experts called into requisition. That the boiler was comparatively old is true, but it had been recently examined and repaired, and was considered thoroughly safe for all the duty required of it. The engineer was a good and reliable man, and there is no reason to conclude that the disaster was owing to his negligence or ignorance, or that fault can fairly be attributed to any one. It is, we believe, the first instance of the kind in the history of the road.

Consequent upon a suggestion made at the last Annual Meeting, supplementary tables, prepared by the Secretary, giving in detail the characteristics, &c., of the road, are for the first time added to the usual Annual Report. It is hoped they will be found of interest, and will give all the information sought for by the owners of this large and valuable property.

In conclusion, gentlemen, with this exhibit of the business and condition of the road, showing that during the third year of the severest and most prolonged financial panic through which the country has ever struggled, it has steadily advanced in prosperity fairly earning the dividends which have been paid; and bearing cheerful testimony to the energy and efficiency of Superintendent Mathews and his subordinates, to whose untiring efforts this result is so largely due; we feel justified in congratulating you, not only on the past, but also on the cheering prospect of a still more prosperous future.

The number of passengers carried over the road the past two years is as follows:

	1875.	1876.
Through passengers	157,907	188,875
Local passengers	430,010	460,961
Commuters	104,294	119,928
	692,211	769,764

The amount of freight carried over the road the past two years is as follows:

	1875. Tons.	1876. Tons.
Through freight	181,870	201,344
Local freight	64,533	70,563
	246,403	271,907

President.—Samuel D. Babcock.

Vice President.—D. S. Babcock.

Directors.—Samuel D. Babcock, Henry Morgan, William F. Cary, Jr., J. Boorman Johnston, D. S. Babcock, Geo. M. Miller, New York City; Henry Howard, Coventry, R. I.; Charles H. Salisbury, Providence, R. I.; Nathan F. Dixon, Westerly, R. I.; John A. Burnham, Boston, Mass.; A. S. Mathews, Stonington, Conn.

Superintendent.—A. S. Mathews.

Assistant Superintendent.—J. B. Gardiner.

Treasurer.—Henry Morgan.

Secretary.—F. B. Noyes.

Ohio Falls and White River Railroad.

Articles of association of the Ohio Falls and White River Railroad Company were filed with the Secretary of State of Indiana on the 27th of November, the object being the construction of a narrow gauge railroad commencing at the Ohio Falls, in Clark county, and extending through the counties of Clark, Floyd, Washington and Scott, to Medora, Jackson county, a distance of fifty miles. The capital stock is $1,000,000, divided into 20,000 shares of $50 each. The company reserves the right, however, of increasing the stock from time to time to a sum equal to the actual cost of the construction of the road, right of way and motive power, together with the other expenses necessary for the completion and running of it. The articles state that $54,000 of the stock has already been subscribed. The directors are: William Howard Irwin, William F. Reid, O. H. Stratton, W. H. Ongley, E. Kampfmiller, Alvin J. Slack, Fran'k E. Clarkson, Alexander Worrall, J. N. Robinette, E. Lockhart, H. C. Wilson, D. J. Long and Samuel Cleaver.

Chesapeake and Ohio Railroad.

The annual meeting of the Chesapeake and Ohio Railroad Company was held in Richmond, Va., on the 7th inst. The president's report shows the earnings of the road for the year ending September 30, 1876, to have been $1,599,512 55, and the operating expenses $1,248.035 95, leaving $356,476 60 as the net earnings. The following directors were elected for the ensuing year: C. P. Huntington, A. A. Low, Floyd Aspinwall, David Stewart, Jonas G. Clark, A. S. Hatch, Wm. Whitewright and M. Castra, of New York; Pliny Fisk, of New Jersey; John Echols and Williams C. Wickham, of Virginia.

Chicago and Northwestern Railway.

The following comparative statement of the business of the Chicago and Northwestern Railway Co. for the six months ended November 30, was submitted to the directors at a meeting held on the 8th inst.:

	1876.	1875.
Gross earnings	$7,649,896	$7,926,274
Payments from earnings:		
Operating expenses	$4,184,268	$4,591,394
Interest on bonds, including gold premium	1,728,829	1,754,231
Taxes	85,102	100,333
Rental of Iowa roads	620,349	631,862
Sinking fund	40,120	40,120
Miscellaneous, old taxes, etc	15,017	
Total payments	$6,673,680	$7,117,442
Net profit	$976,216	$808,832

On this showing the directors declared a dividend on the preferred stock of 2½ per cent, payable on the 22d inst. The transfers closed on the 14th and will reopen on the 26th inst. It will be seen that the gross earnings are $276,377 less than for the corresponding time of 1875, but the most noticeable feature is the reduction of 10 per cent in operating expenses, amounting to $407,131. The increase in net profit, after payment of above obligations, is $167,384. The report states that the floating debt of the company has been entirely paid off.

Chicago, Burlington and Quincy Railroad.

The earnings of the Chicago, Burlington and Quincy Railroad in September, 1876, were $1,242,122, the expenses $566,430, and the net earnings $675,692. In September, 1875, the earnings were $1,213,221, the expenses $532,886, and the net earnings $680,335—showing an increase in earnings of $28,901, an increase in expenses of $33,544, and a decrease in net earnings of $4,643. From January 1 to September 30, 1876, the earnings were $8,791,744, the expenses $4,640,125, and the net earnings $4,151,619. For the corresponding period of the previous year the earnings were $8,685,832, the expenses $4,451,067, and the net earnings $4,234,765—showing an increase in earnings of $105,912, an increase in expenses of $199,058, and a decrease in net earnings of $83,146.

Sioux City and Pacific Railroad.

Judge Miller, of the U. S. District Court a DesMoines, Iowa, has rendered his decision in the suit of the United States against the Sioux City and Pacific Railroad Company, for five per cent of the net earnings, under the law of 1862 creating the Pacific railroads. The decision is that in ascertaining the net earnings, operating and construction expenses and also interest on bonds shall be first deducted. As in this case there is no residue, the suit of the Government is dismissed. This is in accordance with previous decisions of the Supreme Court in the suits of the Rubber Co. agt. Goodyear, 9 Wallace, and St. John agt. Erie Railway, 22 Wallace.

☞ The Huntingdon (Penn.) Journal says it is reported that the Pennsylvania Canal Company propose to commence, early in the spring, to lay down a railroad track upon the bed of the canal from Williamsburg east to that place.

Pittsburg and Connellsville Railroad.

At the annual meeting of the stockholders of the Pittsburg and Connellsville Railroad Company, held in Pittsburg on the 4th inst., the following gentlemen were elected directors for the ensuing year: John King, Jr., Mendes Cohen, Hugh Sisson, Charles Webb and John Donnell Smith, Baltimore; W. S. Bissell, G. L. B. Fetterman, William Baldwin, Charles Donnelly and John D. Scully, Pittsburg, Pa.; W. H. Koontz Somerset, Pa.; W. H. Markle, Greensburg, Pa. At a subsequent meeting of the board, John King, Jr., was re-elected President, J. B. Washington Secretary, and Charles Donnelly Treasurer. The following report of the President and Directors was presented and adopted.

The board of directors respectfully submit to the stockholders the report of the operations of the company for the fiscal year ended September 30, 1876. At the close of the last report it was stated that arrangements were in progress for closer and more perfect working in connection with the Baltimore and Ohio road, and that better facilities, with more rapid transportation between Pittsburg, Washington and Baltimore, would be perfected.

The advantages which would thus be secured, the increased earnings which it is believed would be obtained from reasonable rates, and the decrease of expenses which was anticipated in view of the excellent condition of the road, would, it was hoped, contribute in securing for the company thereafter greatly improved results. Of the $5,000,000 second mortgage bonds issued by the Pittsburg and Connellsville Railroad Company the city of Baltimore in settlement of its debt received $2,337,000, the county of Allegheny in settlement of its debt received $279,000, and individuals received $6,000, making a total of $2,622,000, leaving deposited with the Baltimore and Ohio Railroad Company as collateral for the debt due the company $2,378,000.

In no year since the completion of the road to Cumberland had the company earned the interest upon the first mortgage bonds, and unless much more than this was done it was impossible to obtain a fair price for the second mortgage bonds remaining unsold. The only transactions made by the holders of these securities had been at about forty per cent, and it was not believed that even this low rate could be realized in the market for any considerable amount. The operations of the road under a system entirely independent of the Baltimore and Ohio Company, had proved unprofitable, and it was decided that it would be best for the interests of the Pittsburg and Connellsville Company that some arrangement could be perfected by which a satisfactory price could be obtained and the road be more economically and effectively operated.

Accordingly the Pittsburg and Connellsville road was leased on the 18th day of December, 1875, to take effect January 1, 1876, to the Baltimore and Ohio Railroad Company upon the terms and conditions of the lease, of which a copy is appended to the report, and a consolidated mortgage for £2,200,000 sterling, of which also a copy is appended herewith, was placed upon the road; the payment in London of the principal, interest and sinking fund of the bonds issued thereunder, being guaranteed by the Baltimore and Ohio Railroad Company, the principal maturing in fifty years from January 1, 1876, by the operation of which the entire issue of these bonds will be redeemed prior to their maturity. Of these £2,200,000 bonds, £1,300,000 were negotiated through the house of Messrs. J. S. Morgan & Co., of London, at the very satisfactory rate of 97 per cent gold; the residue, £900,000, not disposed of, being reserved to retire the remaining mortgage obligations, namely, the first mortgage bonds, $400,000, and the balance of Turtle creek bonds, $326,600.

The operations of the road under the lease proved satisfactory, and the net earnings for the nine months reached $433,549 20, a sum far greater than had been earned in any similar period by the company, and large enough to encourage the hope of earning the interest of the entire debt of the road upon the revival of business activity in the country. It will be seen that the gross earnings for the year were $1,658,074 85, exceeding those for the eleven months ended September 30, 1875, $218,566 25. The expenditures were $1,129,300 05, being less by $203,790 71, and the net earnings being more by the sum of $422,356 96 than the eleven months ended September 30, 1875. The ratio of working expenses was 68.03 per cent for the year, being a decrease of 24.44 per cent as compared with the eleven months ended September 30, 1875. A comparison with the twelve months ended October 31, 1874, shows an increase in earnings of $163,569 43, and a decrease in expenses of $178,405 30, and an increase in net earnings of $341,975 03.

There were transported during the year 853,779 tons of coal, yielding a revenue of $275,417 50; 754 680 tons of coke, yielding a revenue of $391,307 03. The revenue from the transportation of coal oil reached $182,145 45. The receipts from passengers during the year were $297,184 13, an increase of $1,590 07, compared with the eleven months ending September 30, 1875. The expenditures for construction and equipment amounted to $36,837 38. During the year 2,740 tons new rails and 106,792 cross-ties were placed in the tracks, and at the close of the year the condition of the road, machinery and equipment was better than at any previous time.

Pacific Railroads.

EXTRACT FROM THE REPORT OF THE SECRETARY OF THE INTERIOR.

The facts and figures herein set forth are compiled from the annual reports of the companies:

UNION PACIFIC RAILROAD.

Stock of the Union Pacific Railroad Company to the amount of $36,783,000 has been subscribed, of which $36,762,300 has been paid. The receipts for the year ending June 30, 1876, were, from transportation of passengers, $1,201,807; of freight, $6,923,614; and from miscellaneous sources, $988,567; total, $12,118,990. These figures include "the amounts earned from but withheld by, the United States, for transportation of its passengers, freight and mails." The expense of operating the road for the year was $5,447,819, leaving net earnings $6,666,171. The cost of the road has been $114,465,652. The Omaha Bridge cost $2,866,463. The total bonded indebtedness of the company is $79,072,312, of which $27,236,512 is due to the United States.

CENTRAL PACIFIC RAILROAD.

The amount of stock subscribed in the Central Pacific Railroad Company of California is $62,608,800, of which $54,275,500 has been paid. The receipts for the year ending June 30, 1876, from transportation of passengers, were $5,448,769, and of freight, $9,161,631; total, $14,610,400. The operating expenses of the road for the year were $6,889,945, leaving net earnings to the amount of $7,720,454. At the close of said year the indebtedness of the company amounted to $39,061,508, of which $27,855,680 is due to the United States. This company embraces, by consolidation (besides the original Central Pacific Company), the Western Pacific, the California and Oregon, the San Francisco, Oakland and Alameda and the San Joaquin Valley companies.

CENTRAL BRANCH UNION PACIFIC RAILROAD.

Stock of the Central Branch Union Pacific Railroad Company to the amount of $1,000,000 has been subscribed, of which $980,600 has been paid. The receipts for the year ending June 30 1876, were, from transportation of passengers, $34,946, and of freight, $79,467; total, $114,414. The amount expended in said year for running expenses and repairs was $131,500. The road and fixtures have cost $3,763 700. The company's indebtedness, in addition to the government loan, and first mortgage of $1,600,000 and interest unpaid, is $148,739.

KANSAS PACIFIC RAILROAD.

The amount of stock of the Kansas Pacific Railroad Company allowed by law is $10,000,000. Of this $9,992,600 has been subscribed and $9,689,950 paid. The receipts for the year ending June 30, 1876, were, from transportation of passengers, $1,085,199; of freight, $2,120,009; miscellaneous, $29,945; total, $3,235,154. Total expenses of the year, $1,827,980; leaving net earnings, $1,407,174. The funded debt of the company is $27,247,100, of which $6,303,000, is due to the United States. There are other liabilities to the amount of $3,554,525, making the entire debt of the company $30,801,625.

SIOUX CITY AND PACIFIC RAILROAD.

Stock of the Sioux City and Pacific Railroad Company to the amount of $4,478,500 has been subscribed, of which $1,791,400 has been paid. The receipts for the year ending June 30, 1876, from transportation of passengers, were $80,779; of freight, $200,987; from express, $2,657, and from miscellaneous sources, $8,064. Total, $292,489. The expenses of the road and fixtures during said year were $264,194, leaving net earnings $28,294. The bonded indebtedness of the company is $3,256,320, of which $1,628,320 is due to the United States. The floating debt is $70,395.

SOUTHERN PACIFIC RAILROAD.

Stock of the Southern Pacific Railroad Company of California to the amount of $28,585,300 has been subscribed, of which $27,227,200 has been paid. The amount received from transportation of passengers in the year ending June 30, 1876, was $949,945; of freight, $1,186,673. Total, $2,136,618. The expenses of the road and fixtures for said year were $1,140,329, leaving net earnings $996,289. The bonded indebtedness of the company is $19,984,000.

On the 16th June last you accepted the seventh section (of twenty miles each) of the main line of this road, and on the 21st July last, the third section (of fifty miles each) of its branch line, authorized by the twenty third section of the act of March 3, 1871.

NORTHERN PACIFIC RAILROAD.

The Northern Pacific Railroad has been reorganized and provision made for the conversion of the outstanding bonds of the company into "preferred stock," and of its stock into "common stock." Up to June 30, 1876, of preferred stock there had been issued to bondholders, who had surrendered their bonds for conversion, 833,459 shares of $100 each, and scrip for fractions of shares amounting to $198,234. No "common stock" has yet been issued.

The amount received from transportation of passengers for the year ending June 30, 1876, was $193,923; of freight, $424,061; from miscellaneous sources, $75,946; total, $693,932. The operating expenses for the year were $491,869; leaving net earnings, $202,062.

The company reports itself free from debt, both bond and floating.

ATLANTIC AND PACIFIC RAILROAD.

Stock of the Atlantic and Pacific Railroad Company to the amount of $19,760,300 has been subscribed and paid. The receipts from transportation of passengers for the year ending June 30, 1876, were $338,674; of freight, $1,006,506; total, $1,345,180.

The operating expenses of said year were $719,614, leaving net earnings, $625,565. The entire cost of the road and fixtures has been $37,368,789. The total indebtedness of the company is $17,348,400.

CALIFORNIA AND OREGON RAILROAD.

On the 9th of February last you accepted twenty miles of the road constructed by the California and Oregon Railroad Company (now by consolidation part of the Central Pacific Railroad Company of California), extending from near Vina to near Red Bluff, Cal.

OREGON CENTRAL RAILROAD.

On the 23d June last I accepted a section of the Oregon Central Railroad, extending from the twentieth mile post to the Yamhill River, a distance of twenty-seven and one half miles.

TEXAS AND PACIFIC RAILWAY.

Stock of the Texas and Pacific Railway Company to the amount of $50 000,000 is authorized by law, of which $6,073,000 has been issued. The receipts for the year ending June 30, 1876, were: From transportation of passengers, $402,518; of freight, $1,137,900; from express service, $12,592; mail, $30,794; telegraph, $8,491—total, $6,595,156. The expenses for said year were: For conducting transportation, $308,011; motive power, $231 015; maintenance of way, $219,085; maintenance of cars, $91,259; general expenses, $45,323—total, $894,694; leaving net earnings, $700,461. The entire indebtedness of the company is $18,127,427.

DENVER PACIFIC RAILROAD.

Denver Pacific Railroad stock to the amount of $4,000,000 has been subscribed and paid, being the total amount authorized by law. The receipts for the year ending June 30, 1876, were, from transportation of passengers, $167,812; of freight, $139,343; miscellaneous earnings, $6,392; total, $313,549. Expenses for said year were $129,848, leaving net earnings, $183,700. The cost of construction and equipment of the road has been $6,495,350. The indebtedness of the company is $2,524,091.

New York Central and Hudson River R. R.

From the report of this company for the fiscal year ending September 30, 1876, we learn that the total length of line owned by the company is 740.17 miles; length of first, second, third and fourth tracks, 921.18 miles; length of tunnels, 416.60 miles—making the total length of single track owned by the company, 2,077.95 miles. Of leased lines there are, including 260.03 miles of road, 57.66 miles of extra tracks, and 37.35 miles of tunnels, a total length of single track of 355.04 miles—making the total length of equivalent single track operated by the company, 2,432.99 miles.

The weight of the rails, per yard, on the main track, all steel, is 65 pounds.

The company have 61 engine houses and shops; 557 locomotives and 8 dummies; 416 first-class passenger cars, 83 second-class and emigrant cars, 215 baggage, mail, and express cars, and 15,310 freight cars.

The number of miles run by passenger trains during the year was 4,743,485; by freight trains, 9,278,266; by switch and work trains, 4,224,856—a total of 18,246,607 miles run.

The number of passengers carried was 9,281,490; do. carried one mile, 353,186,145. Number of tons of freight (of 2,000 pounds) carried, 6,803,680; do. carried one mile, 1,674,447,055.

The average rate of speed of ordinary passenger trains, when in motion, is 30 miles; express trains, do., 35 miles; freight trains, do., 15 miles. The average weight of passenger trains, exclusive of passengers and baggage, is 150 tons; do. freight trains, exclusive of freight, 400 tons. The rate of fare charged per mile for through passengers is 1½ cents; do. for way passengers, 2¼ cents; do. for through emigrants, 1¼ cents; do. for way emigrants, 1.27 cents.

The total number of tons of freight carried, as stated above, was 6,803,680, viz: of the products of the forests, 408,564; animals, 827,278; vegetable food, 2,100,389; other agricultural products, 817,710; manufactures, 767,190; merchandize, 546,047; coal, 1,043,107; other articles, 793,445.

The expense of maintaining the road and real estate during the year was as follows: repairs of roadbed, $1,311,689 43; other repairs $287,580 81; taxes on real estate, $1,017,424 95—total, $2,616,695 19; of which $921,658 66 is allotted to passenger transportation, and $1,695,036 53 to freight transportation. The expenses of repairs of machinery for the same period were $3,260,071 61, and the expenses of operating the road, $10,247,405 54—making a total of $16,124,172 34: of which $4,218,644 35 is allotted to passengers, and $11,905,527 99 to freight.

The receipts were: from passengers, $6,762,966 88; from freight, $17,593,264 78; from car service, $973,293 01; from rents, $828,615 16; from mail service, $446,537; from telegraph, $4,434 62; from interest, $387,801 33; for use of road $261,092 77; and for miscellaneous, $838,582 90—a total of $28,046,588 45.

The payments were: transportation expenses, as above, $16,124,172 34; for rent of other lines, $1,917,711 26; for interest, $2,791,629 18; and for dividends on stock at eight per cent, $7,189,528—a total of $27,973,040 73.

Leaving a balance of $73,547 72.

The following is a comparative statement of the gross earnings, working expenses and net earnings of the road for the years 1875 and 1876:

Gross earnings, 1875	$29,027,218 03	
Gross earnings, 1876	28,046,588 45	
Decrease		$980,629 58
Transportation expenses, 1875	$17 262,107 64	
Transportation expenses, 1876	16,124 172 34	
Decrease		$1,137,935 30
Gross earnings, 1876	$28,046 588 45	
Transportation expenses, 1876	16,124,172 35	
Net earnings		$11,922,316 11
Net earnings, 1875	$11,765,110 39	
Net earnings, 1876	11,922,416 11	
Increase		$157,305 72

Expenses for 1875 59.46 per cent of gross earnings. Expenses for 1876 57.48 per cent of gross earnings.

	1875.	1876.
Earnings per ton per mile on freight.	1.27	1.05
Expenses per ton per mile on freight.	90	91
Profit	0.37	0.34
Earnings per passenger per mile	2.14	1.91
Expenses per passenger per mile	1.36	1.09
Profit per passenger per mile	0,78	0.82

Freight tonnage in 1875	6,001,954
Freight tonnage in 1876	6,803,680
Increase	801,726
Total movement of freight 1875	1,404,008,029
Total movement of freight 1876	1,674,447,055
Increase	270,439,026
Number of passengers carried 1875.	9,422,629
Number of passengers carried 1876.	9,281,490
Decrease	141,139
Total movement of passengers 1875.	338,934,360
Total movement of passengers 1876.	353,186,145
Increase	14,201,785

The capital stock of the New York Central and Hudson River Railroad Company is given at $89,428,800; its present funded debt, $39,844,723 88, besides what are described as "bonds and mortgages given or assumed by the company upon the purchase of real estate" for $556,540 88—in all, $129,829,564 21 of capital stock and funded debt. Of the funded debt of $40,401,264 21 the average interest is 6½ per cent. The cost of the road and equipment is stated at $97,822,811 05, an increase of $1,467,036 55 over the cost of the road reported last year. Of this sum $262,500 is accounted for by superstructure, including iron and steel; $622,429 60 by stations, shops, &c.; $129,812 83 for lands and fences, and $392,700 for freight cars, while there is a reduction on locomotives and passenger rolling stock of $45,200.

Western Union Telegraph.

At the quarterly meeting of the directors of this company, held on the 13th inst., the following statement for the quarter ending December 31, 1876, was presented:

The net profits for the current quarter, ending December 31, inst., based upon official returns for October, nearly complete returns for November and estimating the business for December, will be about		$908,556 94
Add surplus October 1		101,045 15
Total		$1,009,602 09
From which appropriating—		
One quarter's interest on the bonded debt	$114,953 54	
One quarter's proportion of sinking fund	20,000 00	
Southern and Atlantic Telegraph Company's stock, purchased during the quarter	10,139 00	
American Telegraph Co's (of Michigan) stock, purchased during the quarter	36,785 50	
		181,878 04
Leaving a balance of		$827,824 04
A dividend of 1¼ per cent on the capital stock outstanding requires		507,129 00
Deducting which leaves a surplus of		$320,595 05

In view of the preceding statements the committee recommend the adoption by the Board of the following:

Resolved, That a dividend of one and one-half per cent from the net earnings of the three months ending December 31 be and is hereby declared payable on the 15th day of January next to stockholders of record at the close of business on the 20th day of December, inst.

Resolved, That for the purpose of such dividend the stock books of the company be closed at three o'clock on the afternoon of the 20th inst., and be reopened on the morning of the 16th January.

The official returns for the quarter ending September 30 shows the profits to have been $833,770 48, or $37,177 78 in excess of the estimate.

☞ The Amherst Sentinel says that tracklaying on the Parrsboro' Railway is progressing as rapidly as possible, the engine being able to run nearly to Southampton; teams are at work spreading sleepers through West Brook, and soon Mill Village will be reached.

☞ The first through Pullman sleeper from Louisville, Kentucky, passed through Montgomery, Alabama, on the 27th ult., going via the Montgomery and Eufaula Railroad, and a through line is now established.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

The asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in *Italics*. State-aid Railroads are distinguished by a "§."

American Railroad Journal.

Saturday, December 16, 1876.

Financial and Commercial Affairs.

There has been an irregular and feverish market for railroad shares and bonds, with but a very moderate volume of transactions. The dullness in speculation has caused a proposition to be made, looking to a reduction of brokerage and commissions, in the hope that such a step will induce what is known as the "outside public" to operate more freely. The annual report of the New York Central and Hudson River R. R. Co. proved more favorable than was expected, and caused an advance of 3 per cent in its shares. The dividend on Chicago and Northwestern preferred is followed by a decline of two per cent. Illinois Central was the object of a sharp attack by the bears, growing out of its reduced earnings but has recovered 3 per cent from the lowest point. The "coal stocks" have ruled firm, but without much activity or buoyancy, although the severely cold weather has undoubtedly caused a greatly increased consumption of coal. There is some further advance in St. Louis and Iron Mountain shares. The low stage of water in the southwestern tributaries of the Mississippi is swelling the earnings of railroads in that section. The Adams Express Company has suffered a considerable loss by fire, and its shares have slightly declined. On Wednesday the market was quiet without important fluctuations. The Western Union Telegraph Co. announced a quarterly dividend of 1½ per cent. The House of Representatives passed by a large majority the bill to make silver a legal tender.

The last bank statement showed the further large decrease of 3½ millions in legal tender

notes, and an increase of 2½ millions in specie, by which the effective reserve was reduced below twenty per cent. Of the legal reserve now held by the banks, 38.66 per cent is gold and 61.34 notes, whereas one year ago it was composed of 27.63 per cent gold and 72.37 per cent notes. Money has steadily brought 4@5 per cent on call and often more. The rates on Wednesday were 4½@5 per cent. Discounts are dull at 5@7 per cent for the best paper.

Gold continued to arrive in large amounts from Europe, and declined to 107. There was subsequently some recovery, and the close on Wednesday was at 107¼, after touching 107⅛. Exchange ruled rather firmer at $4 81¼@$4 82¼ for prime sixty-day bills, but the demand was limited. Exports are still large, though shippers have been embarrassed by a scarcity of freights. The aggregate from the port of New York for the week ending December 13th was $6,662,540, against $6,540,980 for the corresponding week in 1875. The total exports of produce since Jan. 1, this year, were $261,253,684, against $245,481,262 for the corresponding period in 1875.

Government bonds have generally declined; not, however, without exhibiting some irregularities, closing steadier on Wednesday, as follows:

United States currency sixes, 121@121¼; do. 6s, 1881, registered, 112⅜@112⅝; do. coupon, 116¼@116½; do. 1865, registered, 108⅝@108¾; do. coupon, 108⅝@108¾; do. new, registered, 108¾@109; do. coupon, 112@112½; do. 1867 registered, 111⅞@112; do. coupon, 114⅞@115½; do. 1868, registered, 112@@113¼; do. coupon, 116¾@117¼; do. ten-forties, registered, 112⅛@112⅜; do. coupon, 112⅛@112⅜; do. fives, 1881, registered, 110½@110¾; do. coupon, 110⅜@110⅝; do. four and one-halfs, 108@108¼.

Political complications are still unsettled, at home as well as abroad, but apparently have less effect in financial and commercial circles. The approach of the holidays and the end of the calendar year naturally restrict business, and yet trade is fair. Cotton has advanced, and the long expected falling off in the receipts at the ports has apparently begun. Breadstuffs and provisions have receded somewhat under the quieter accounts from Europe. An active speculation in petroleum has been an incident of the week. Iron has been dull, but lead active and higher.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Chesapeake and Ohio 1st mort., coupon on, 27; Toledo and Wabash Equipment bonds, 20½; Cedar Falls and Minnesota 1st mort., 88; Canada Southern 1st mort., with int. certif., 55; Chicago, Rock Island and Pacific 6s, S. ☞ Regular trains are now running on the Raleigh and Augusta Railroad to Manly, 69 miles from Raleigh. The track has been laid 17 miles further, leaving only 12 miles to lay to complete the road to the Carolina Central Railroad at Hamlet. A new route will then be opened from Raleigh to Charlotte, 197 miles in length.

☞ The Union Pacific Railroad Company has declared a quarterly dividend of two per cent, payable in January.

New York and New England Railroad.

At the annual meeting of the stockholders of the New York and New England Railroad Company, held in Boston on the 5th inst., the following named gentlemen were elected directors for the ensuing year: George W. Baldwin, of Boston; LeGrand B. Cannon, of New York; Charles Dana, of New York; Thomas Dickson, of New York; R. Suydam Grant, of New York; William T. Hart, of Boston; Lewis Hecht, of Boston; Frederick J. Kingsbury, of Connecticut; Edward W. Kinsley, of Boston: Jesse Metcalf, of Providence; Gorham P. Pomroy, of Providence; George M. Rice, of Worcester; James Roosevelt, of New York; John F. Slater, of Connecticut; James Sturgis, of Boston.

The Report of the Directors to the stockholders, which was presented in print, contains substantially the same facts as those furnished to the Railroad Commissioners, of which an abstract was given in our last issue. It commences with a statement of the property held by the company. This consists of 269.28 miles of finished road and 76.25 miles of unfinished but nearly graded road. The debt amounts to $3,833,000, as an offset to which there is an equipment worth $1,225,000. The amount actually expended in cash upon the unfinished portion of the road between Waterbury and Fishkill has been $3,224,000.

The corporation has now executed a mortgage upon its property for $10,000,000, and is desirous of negotiating its mortgage bonds to that amount. The proceeds of these bonds will discharge all existing liens and incumbrances, put the corporation in possession of the Hartford, Providence and Fishkill Division, complete the road to the Hudson River, make large extensions of the double track, and leave ample provision for terminal grounds and buildings, and for such additional rolling stock as its increased business will require.

The aggregate earnings of the several roads, of which this corporation will become the absolute owner upon the discharge of these liens and incumbrances, show a gratifying increase over the earnings for 1875, and already amount to about $2,000,000, of which more than one-half is earned by the road now operated by this company.

Being unfinished these roads have at present no satisfactory Western outlet, and are operated as local roads, depending for business almost entirely upon the towns along their route. But the completion of 76 miles of unfinished road, lying between Waterbury, Conn., and Fishkill on the Hudson River, upon which $3,224,000 has already been expended, will bring them into immediate connection with the great trunk lines of the Erie Railway and of the Pennsylvania Railway system. Neither of these roads has a satisfactory entrance into New England, and both are waiting with friendly interest the completion of the New York and New England Railroad, which will give them easy access to all of the principal commercial and manufacturing cities of Connecticut, Rhode Island and Massachusetts, and avoid the present necessity of ferriage and truckage to and across the city of New York. The importance of these connections to the New York and New England Railroad Company cannot be overestimated.

Another important connection has been opened within a few months by the completion by another corporation of a railway extending from the New York and New England Railroad at Willimantic to the city of New Haven via Middletown. This establishes a new all-rail route between the great cities of Boston and New York, which is substantially an air-line, and shorter by twenty-three miles than the route by way of Springfield. Both the Norwich and Worcester and the Hartford, Providence and Fishkill divisions maintain an independent organization, and their earnings do not enter into the accounts of the New York and New England Railroad Company.

The gross annual earnings of the Hartford, Providence and Fishkill road during the last four years have averaged about $1,000,000. The net earnings, which are much beyond what is required to pay the interest on its mortgage debt, are applied by the managing trustees to the improvement of the road. The Directors deem it of very great importance that possession of this road should be obtained as soon as possible. The report closes as follows, after speaking of the failure of bondholders to exchange their bonds for stock:

It is believed by your Directors that nothing but this lack of interest shown by the owners of the property and the unexampled depression of business and credit during the last three years has prevented the negotiation of the proposed loan for $10,000,000. Few investments have ever been offered to the public which afford more ample security.

The actual cost of the three hundred and forty five miles of finished and unfinished road, upon which the mortgage will be a first lien, cannot well be estimated, but it is safe to say that it could not be reproduced to-day for less than $20,000,000. Can there be a doubt that, if brought under one management and completed to the Hudson River, the present earnings of $2,000,000 would be sufficiently increased to insure the punctual payment of the $700,000 required to pay interest on the proposed loan?

The average earnings of railroads in Massachusetts for the year 1875 are estimated by the Board of Railroad Commissioners, in their seventh annual report to the Legislature, as $13,250 84 on each mile of main line and branch road operated. At this rate the earnings of the three hundred and forty-five miles of road owned by the New York and New England Railroad Company would amount to more than $4,500,000 per annum. That the earnings will exceed the average there can be no doubt, as the Boston and Albany Railroad, with no better connections for New York and Southwestern business, earns, according to the same authority, at the rate of $25,039 90 per mile.

The report was accepted, and subsequently the President and other Directors took up special points and explained them in detail, answering questions put by stockholders. Stress was laid on the importance of completing the road.

Illinois Central Railroad.

During the month of November, 1876, 808.44 acres of Land were sold for $1,850 64. The Cash collected on Land Contracts during the same time was $16,887 52. The Traffic on the Main Line in Illinois was $440,367 86, against $547,119 27 in November, 1875. The Traffic of the Iowa Lines, (leased at 35 per cent of gross receipts) was $139,738 27, against $198,972 87 in November, 1875.

☞ The bridge over the Kentucky river on the line of the Cincinnati Southern Railroad is rapidly approaching completion, and is said to be a notable triumph of mechanical and engineering skill. The bridge is 1,125 feet in length, divided into three spans of 375 feet each and 286 feet above water.

FISK & HATCH,

Bankers,

No. 5 Nassau St., New York.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

TO the HOLDERS of MOBILE AND OHIO RAILroad First and Second Mortgage Bonds.—Attention is called to the plan of reorganization of the above Company proposed by the undersigned and others in opposition to the plan recently submitted by Messrs. Wm. H. Hays, Wm. S. Pierson, and T. Haskins Dupuy. Copies can be obtained on application to
MORAN BROTHERS, No. 68 William st.
H. AMY & Co., Nos. 19 and 21 Nassau st.

Costa Rica Railroad.

The section of the Costa Rica Railroad actually under construction extends from Port Limon to Alajuela. Starting from Port Limon the road runs along the beach for about eight miles, and then turns toward the interior and runs to Matina. Thence it traverses the country to the Madre de Dios river, where the finished track ends, the whole length of the line from Port Limon being thirty-two miles. From the Madre de Dios the work is being pushed forward by Messrs. Keith & Douglas, the contractors; but progress is very slow, as the government cannot spare enough money just now for its more rapid prosecution. From Madre de Dios the line runs to Siquiris and thence into the Reventazan Valley, following the right bank of the river for about fifteen miles to Piedras de Fuego, where it crosses the stream and turns into the valley of Turialba to Angustura. From this point it winds through the mountains and valleys to Cartago. Here again the railroad is met in running order, and a train can be taken to San Jose or Alajuela. The road is in good order, but the grades are extremely steep, sometimes equal to five feet in 100, and the curves sharp. The distance from Cartago to the capital by rail is fifteen miles.

☞ A decree of foreclosure of the first mortgage bonds of the Chicago, Danville and Vincennes Railroad, Illinois division, has been formally entered in the Circuit Court of the United States for the Northern district of Illinois. The company are allowed twenty days in which to pay the principal and interest of the bonds, amounting to $3,600,000, at the expiration of which time, if payment is not made, the road will be advertised for 30 days, bringing the sale to 25th of January. A decree has also been entered for the Indiana division, on which the indebtedness is $2,000,000. The sale will take place about 27th January.

Railway Accommodation.

Mr. Collier, one of the Judges of the Liverpool County Court, gave judgment on Wednesday in a case interesting to the public and important to railway companies. On a former day, Mr. K. Cooper, merchant, sued the Cheshire Lines Committee for the sum of 4s., which he had paid in hire of a cab engaged by him to take himself and wife to Merseyroad station, on the defendants' system of railways. He had taken out first-class tickets, but on going to the train he found that there was no accommodation of the class except in a smoking carriage, and that he refused to accept. Mr. Collier ruled that when a railway company issued a ticket without any conditions, as in this case, the bargain was that, in consideration of the money paid, the first-class accommodation should be provided within the usual acceptation of the term, which meant a seat in a carriage free from tobacco smoke if the traveler desired.—*Herapath, Nov.* 18.

☞ At the annual meeting of the stockholders of the Providence and Springfield Railroad Company, held in Providence R. I., on the 4th inst., the old board of directors was re-elected, viz: Wm. Tinkham, Edward Pearce, Albert L. Sayles, Moses B. I. Goddard, Amos N. Beckwith, James O. Inman, Sidney Dillon, Horace A. Kimball and John L. Ross. Mr. Tinkham was elected President.

Eastern (Mass.) Railroad.

REVENUE FOR THE YEAR.

Receipts from local passengers on roads operated by this company	$1,214,948 80
Receipts from passengers from and to other roads over roads operated by this company	185,713 93
Receipts from other roads as tolls, or for use of passenger cars	94 44
Receipts for express and extra baggage	54,465 82
Receipts for mails	38,016 00
Other receipts belonging to passenger department	5,169 07
Total receipts from passenger department	1,498,408 06
Receipts from local freight on roads operated by this company	675,919 47
Receipts from freight from and to other roads on joint tariff	232,406 98
Other receipts belonging to freight department	605 56
Total receipts from freight department	908,932 01
Receipts as rents for use of road and equipment, when leased	4,800 00
Total transportation earnings	2,412,140 07
Earnings per mile of road operated, computed as single track, not including sidings	7,623 00
Per train mile	1,186 00
Income from rent of property other than road and equipment and lands	43,788 18
Income from all other sources	15,042 87
Total net income	683,594 06

EXPENSES FOR OPERATING THE ROAD FOR YEAR.

General traffic expenses:	
Taxes, State and local	$66,982 18
General salaries, office expenses and miscellaneous, not embraced in classes 3 and 4	79,625 68
Insurance premiums and losses by fire, and damages for fire set by engines	5,290 05
Telegraph expenses	25,514 56
Total	$177,412 47
Proportion belonging to passenger department	110,350 56
Proportion belonging to freight department	67,061 9
Maintenance of way and buildings (charged to operating) and movement expenses:	
Repairs of road exclusive of bridges, new rails and new ties	$152,268 15
Iron rails laid	48,456 26
Steel rails laid, deducting old rails taken up (number of miles 10,452, weight per yard 63 lbs., 5280) 56,253	28,455 22
New ties (number 64,141) cost	19,929 12
Repair of bridges	42,541 47
Repairs of buildings and fixtures (stations and turn tables)	35,562 60
Repairs of and additions to machine shops and machinery	8,242 41
Repairs of fences, road crossings and signs	5,423 92
Removing ice and snow	1,511 16
Repairs of locomotives	128,819 65
Repairs of snow plows	181 79
Fuel for engines and cars: 17 392 cords of wood, cost $84,815 27; 31,826 tons of coal, cost $201,273 87	286,089 14
Water	13,665 20
Fuel for stations and shops	14,014 61
Oil and waste	28,524 74
Switchmen, watchmen, flag and signal men and gatemen	94,325 52
Total	$908,998 96
Proportion of same to passenger department	592,667 32
Proportion of same to freight department	316,331 64
Passenger traffic expenses:	
Repairs of passenger, mail and baggage cars	$80,464 81
Damages and gratuities, passenger	2,437 41
Salaries, wages and incidentals of passenger trains	213,630 73
Salaries, wages and incidentals of passenger stations	130,856 26
Total	$427,389 21
Freight traffic expenses:	
Repairs of freight cars	$47,403 87
Damages and gratuities, freight	12,109 75
Salaries, wages and incidentals of freight trains	117,154 72
Salaries, wages and incidentals of freight stations	95,083 14
Amount paid other roads for balance of mileage of freight cars	1,824 84
Total	$273,576 32
Total expense of operating the road	1,787,376 96
Per train mile	87,896 00
Percentage of expenses to income	72.33

NET INCOME, DIVIDENDS, ETC.

Total net income above operating expenses	$863,594 06
Amount paid other companies as rent for use of road	198,176 00
Net income above operating expenses and amount paid for rent of road	485,418 06
Percentage of same to capital stock and debt 2 48-100 per cent.	
Percentage to total property assets of the company, 1 75-100 per cent.	
Interest accrued during the year—On funded debt, $736,724 40; on other debts, $302,453 84—total	939,178 24
Date of last dividend declared July, 1873.	
Deficit for the year, or surplus	453,760 18
Surplus at commencement of the year	272,590 02
Add entries to profit and loss account made during the year, not included in the foregoing statement	9,812,989 31
Surplus at commencement of the year as changed by aforesaid entries	9,585,579 33
Total deficit September 30, 1876	10,039,389 51

RECEIPTS, EXPENSES, NET EARNINGS, ETC.

Total receipts from passenger department, as per "revenue for the year"	$1,498,408 06

Passengers from Boston, including season	2,137,090
Season ticket passengers to and from Boston, one round trip daily	432,614
Accidents—14 persons killed and 34 injured.	

The Coal Trade.

The total tonnage for the week ending on the 2d instant, as reported by all the companies, amounted to 318,875 tons, against 261,994 tons in corresponding week last year, an increase of 56,881 tons. The total amount of anthracite mined for the year is 17,719,910 tons, against 19,268,979 for same period last year, a decrease of 1,549,067 tons. The quantity of bituminous coal sent to market for the week was 71,715 tons, against 81,469 tons for corresponding week last year, a decrease of 9754 tons. The whole bituminous tonnage from the beginning of the coal year is 3,424,869 tons, against 3,702,713 tons in corresponding time last year, a decrease of 277,844 tons. The total tonnage of all kinds of coal for the week is 390,590 tons, against 348,463 to corresponding date last year, a decrease of 47,127 tons, and the total tonnage for the coal year is 21,144,779 tons, against 22,971,690 tons to same date last year, a decrease of 1,826,611 tons. Shipments from Port Richmond are nearly or quite at an end. There is little inducement in freight charges to warrant the risk of being shut out from home by ice. Vessels are going into winter quarters. The stock of coal on hand is full and prices are firmly maintained. The receipts at Perth Amboy for the week ending on the 30th ultimo were 15,543 tons, and shipped 10 855 tons, leaving a stock on hand of 78,810 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 115,308 tons, of which 100,159 tons were coal and 15,149 tons coke. The total carried this year is 4,201,998 tons, of which 3,405,814 were coal and 687,120 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Dec.* 11.

☞ The report of the receivers of the Atlantic, Mississippi and Ohio Railroad shows receipts during October amounting to $197,787 74, and disbursements during same period $119,848 10. The balance on hand 1st November was $204,4 2.

☞ Gen. Adna Anderson, Receiver of the Chicago, Danville and Vincennes Railroad, has filed his report for the months of September and October. The receipts for the two months (including $19,037 on hand September 1,) were $198,840, and the disbursements $176,209, leaving a balance on hand October 31, 1876, of $12,631.

Steel Iron.

A German firm—Asbeck, Osthaus and Co.,—is manufacturing a substance they term steel iron, in five different varieties, so that they can furnish steel upon iron, iron between two layers of steel, steel between two layers of iron, steel core and iron skin, or iron core and steel skin. It is made in an iron shell, divided into two compartments by an iron plate. Before melting, both the steel and malleable iron are cleansed from any substance which would impede their welding. In the casting, they are run at the same moment into the shell, in such a manner that the separating diaphragm serves to weld the two metals together, which form an inseparable mass when cooled. The process is recommended for rails, anvils, armour plates, &c. The process is said to have been known some time since in France.

☞ A certificate of incorporation of the Nassau Ferry Company was filed in the office of the County Clerk, Brooklyn, on the 2d inst. The incorporators are: David Dunham, Withers Robert Center, Lawrence Waterbury, Norman Andrews, Anthony W. Winans and Anthony V. Winans The capital stock is $150 000, in shares of $100 each, with privilege to increase it to $900,000. The proposed route of the new ferry company's boats is between Houston street, New York, and Long Island City.

☞ The Cumberland (Md.) News says that preliminary surveys have been made for the projected railroad to connect the Chesapeake and Ohio canal with the coal fields on George's creek and thereabouts. The proposed road is in the interest of those who would use the canal for their shipments. A competent engineer employed in the matter says that the routes to the debatable land have been surveyed.

NOTICE TO CONTRACTORS.

BIDS FOR THE CONSTRUCTION OF THE Columbus and Mineral Valley Railway will be received at the office of the undersigned, in the city of Columbus, Ohio, until noon, on the 10th day of January, 1877.

Bids may be made for the construction of one or more sections, or for the whole road, and may include all materials necessary to complete it for equipment.

The necessary maps, profiles and estimates for work can be found at the office of the undersigned, where all required information may be obtained.

The company reserve the right to reject any and all bids offered.

JOHN M. PUGH,
President C. & M. V. R'y Co.
Columbus, Dec 1, 1876.

Knox & Shain,

ENVELOPES.
The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

New York, Saturday, December 23, 1876.

Finances of Virginia.

The revenues from taxation for the last fiscal year, as stated by the Governor in his Message, amounted to $2 679,839 66, and the expenditures to $2,662,021 56—leaving a balance unexpended of $17,818 10. The expenditures were: for ordinary expenses of government, $975,382 85; for extraordinary expenses, $138,432 83; for public free schools, $448,000; and for interest on debt, $1,105,805 88. The revenues for the past year exceeded the average annual receipts for the previous six years by $201,276 28, and they exceeded the receipts for the fiscal year 1874-'75 by $161,549 61.

The Governor says that there is much misapprehension, as well as misrepresentation prevalent as to the amount of the State debt. It has been improperly magnified by stating as part of it the sum of $15,289,870 74, which by the funding act is known as "West Virginia's third." That sum belongs to the debt proper of West Virginia, and which Virginia will neither acknowledge nor assume any liability for. Another error is committed in treating the sinking fund as part of the debt proper. That fund now amounts to $4,986,771 90, and consists of bonds heretofore redeemed, but upon which the State undertakes to pay stated interest to its own officers, to be used by them in further reducing the debt by purchase of other bonds of the State. The "literary fund," too, is classed as a State debt, whereas it is analogous to the sinking fund, consisting entirely of assets which belong absolutely to the State, and have been set apart for support of public schools, the amount of income from which is $83 907 64, and can never be larger. The entire debt proper of the State is:

As fixed and determined by the funding act the whole amount was	$30,478,746 49
Of which there has been retired by operation of the sinking fund	989,420 11
Leaving as interest bearing debt	$29,489,326 38
To which add interest in arrears	3,510,834 35
Total debt	$33,000,160 73

If from this sum be deducted certain available assets, amply secured, the grand total of debt is $29,922,942 50, and this total is Virginia's full portion of what was contracted by the original State, not only before its dismemberment, but before the late war began. Not a dollar of it has been contracted since the beginning of the war, nor has it undergone any increase whatever except accumulation of interest arrears.

Erie Railway.

The report of H. J. Jewett, Esq., Receiver of the Erie Railway Company, for the year ending September 30, 1876, which has just been rendered, gives the amount of capital stock as by charter, all of which has been subscribed and paid in, at $86,936,910; the funded debt as by last report, and now, at $54,271,814; and the floating debt (loans and bills payable) at $1,159,060 46, against $1,421,641 83 as by last report—making the total amount now of funded and floating debt, $55,430,874 46. The average rate of interest on funded debt is 7 per cent currency.

The total cost of road and equipment by present report is $117,140,287 47, as against $115,995,946 63 by last report, an increase of $1,144,340 84. Among the items of cost is $7,617,588 87 for freight and other cars.

The expense of maintaining the road or real estate of the corporation was: for repairs of roadbed and railway, excepting cost of iron, $1,458,689 02; cost of iron used in repairs, $434,400 72; repairs of buildings and bridges, $341,376 56; taxes on real estate, $268 390 02—making a total of $2,630,486 45, of which $667,735 31 is alloted to passenger transportation, and $1,962,751 14 to freight transportation. The expense of repairs of machinery was $2,664,456 87; and of operating the road, $6,936,258 46—making the total transportation expenses, $12,231,201 78.

The earnings and cash receipts were as follows: from passengers, $3,427,626 45; from freight, $11,429,929 70; from other sources on Erie Railway proper, $994,904 99; from other sources, Pavonia ferry, Grand Opera House, Weehawken Docks, express, baggage, etc., $687,304 19—making a total of $16,539,765 33.

The total payments, other than for construction, including transportation expenses, as above, interest on funded debt, rental of leased lines, interest on bonds and mortgages, premium on gold, taxes, etc., amounted to $17,769,395 52.

Deducting the earnings, there remains a deficit of $1,229,630 19.

Number of miles run by passenger trains, 3,201,005; do. by freight trains, 7,507,842. Number of passengers, all classes, carried in the cars, 5,042,831; number of miles traveled by passengers, or number of passengers carried one mile, 163,074,795. Number of tons (of 2,000 pounds) of freight carried in cars, 5,972,818.

The number of persons killed were: 8 passengers, 37 employes, and 61 others, or a total of 101. The number injured was 169, of whom 16 were passengers.

Merrimack Valley Horse Railroad.

At the ninth annual meeting of the stockholders of the Merrimack Valley Horse Railroad Company, held at Lawrence, Mass., on the 12th inst., William A. Russell, A. W. Stearns, Hezekiah Plummer of Lawrence, James Walton of Methuen, and Moses T. Stevens of North Andover were elected directors. William A. Russell was elected President, and James H. Eaton, Treasurer. The receipts of the year were $32,251 90, of which $30,822 50 was from passengers. The number of passen-

gers carried was 439,068, and the number of miles run 129,200. The company own six miles of track, connecting Lawrence, South Lawrence, Methuen and North Andover, and earned the past year $4,169 on a capital stock of $50,000. The earnings were applied to the South Lawrence Extension.

Advance in the Price of Leather Belting.

At a large and important meeting of the leading houses engaged in the business of manufacturing Leather Belting, recently held in this city, the following firms, among others, were represented: S. Ballard & Co., C. A. Schieren, Anton Heim, Reidy & Harvey, and J. B. Hoyt & Co., New York; Alexander Brothers, and Wise & Bailey, Philadelphia; Croul Brothers, Detroit, Mich.; Munson & Co., Chicago; Barr & Curtiss, Buffalo; H. H. Dickey & Son, Lewiston, Me., P. Jewell & Sons, Hartford, Conn.; H. C. Hunt & Co., Boston; J. B. Williams & Sons, Dover, N. H.; Page Belting Company, Concord, N. H.; and Union Belt Company, Fall River, Mass.

The meeting was called to order by Mr. Stephen Ballard. Ex Gov. Jewell was elected Chairman, and Mr. D. B. Fayerweather Secretary. A committee was appointed to revise the price lists and discounts, and reported a scale of prices ranging from 14 to 15 per cent. in advance of the present schedule. The advance was adopted, and a number of regulations passed to govern the manufacturers in their transactions in the future, after which the meeting adjourned.

A New Invention by Krupp.

Herr Krupp has tested, with what he considers satisfactory results, a new appliance for artillery. The principle is to fix guns of any calibre into armor plates by means of a ball and socket joint at the muzzle. The advantage obtained is the avoidance of the recoil and the retention of the barrel in precisely the same position, to the veriest nicety, so as to render a fresh aim absolutely needless. Moreover, the armor, of course, protects the men serving the piece from hostile fire. They are protected not only from ball shot, but also from grenades, and practically from shrapnel. Messrs. Krupp affirm only cast steel to be applicable to the new invention.

Sonoma Valley Prismoidal Railway.

Over in Sonoma county they have a prismoidal railway in practical operation. There are three miles of it in running order, and the experiment is said to be a perfect success. Wednesday last John C. Coleman, President of the Nevada County Narrow Gauge Railroad, and John F. Kidder, General Superintendent of the same, left Grass Valley for the purpose of examining the working of the single rail institution in Sonoma. There is more in their visit than the mere desire to gratify curiosity, and it may result in the construction of one or more such roads in Nevada county. The Prismoidal railway, it is affirmed, can be built for less than is required to construct a first class macadamized wagon road.—*Grass Valley Union.*

Heating Cities by Steam.

A novel and at the same time interesting experiment, according to the Lockport papers, is soon to be attempted in that city by Mr. Holly, the successful water-works pump inventor. This experiment is to heat the whole city with steam after the same manner as it is lighted with gas. It is not thought feasible to have one boiler do the job, but the city is to be divided into districts, and each district is to have its separate boiler. Mains from each boiler are to run to the different houses, and all the occupant has to do is to turn a faucet and obtain all the heat he wants.—*Rochester Times.*

New York, New Haven and Hartford R. R.

The directors of the New York, New Haven and Hartford Railroad Company respectfully submit the following report of the business and condition of the company for the fiscal year, terminating September 30th, 1876:

Income:

From transportation of passengers		$2,756,305 01
From transportation of freight		1,317,645 97
From transportation of mails and express		229,389 48
From interest		11,341 67
		$4,314,682 13

Expenses:

Repairs of road	$186,821 15	
Steel rails (less old rails sold)	30,569 22	
Repairs of bridges	37,629 33	
Repairs of buildings	35,722 41	
Hartford depot improvements	31,084 55	
Alteration of old depot at New Haven	12,094 40	
Mt. Vernon depot (balance of cost)	9,433 87	
Repairs of fences	1,384 13	
Repairs of engines	183,798 80	
Repairs of passenger & baggage cars	146,824 74	
New passenger and baggage cars	71,125 68	
Repairs of freight cars	64,492 12	
Repairs of tools and machinery	12,231 12	
Coal and wood for engines	264,222 75	
Fuel for stations & cars	13,001 78	
Oil	32,138 20	
Waste	7,487 67	
Wages and incidentals chargeable to passenger department	542,174 51	
Wages and incidentals chargeable to freight department	436,643 49	
Switchmen, signalmen & watchmen	106,200 17	
Damages and gratuities	15,928 48	
Insurance and telegraph expenses	9,068 75	
General salaries and office expenses, law expenses, and all other expenses (except interest) not included in any of the above items	98,200 85	
		2,343,277 76
Balance		$1,971,404 37
Deducting taxes	$280,783 13	
Deducting coupon interest, H., R. & P. C. R. R.	130,000 00	
		360,783 13
Net earnings		$1,610,621 24

Treasurer's general balance sheet of total receipts and payments for the year ending October 1st, 1876:

Balance of cash assets, Oct. 1, 1875	$1,240,418 40
Materials on hand, October 1, 1875	549,488 19
Materials on hand S. L. Division, October 1, 1875	66,373 04
Decrease in Shore Line Dr. balance	18,927 49
Proceeds of 686 shares of Company stock sold	99,417 63
Amount charged insurance and credited contingent account	3,600 00
Transportation earnings	4,314,682 13
Total	$6,292,901 88

Transportation expenses	$2,343,277 76
Interest on H. R. & P. C. R. R. bonds	130,000 00
Taxes	280,783 13
Dividends (2 of 5 per ct.)	1,550,000 00
B. & A. R. R. settlement of land and car house account at Springfield	38,947 43
Materials on hand, Oct. 1, 1876	381,165 47
Materials on hand S. L. Division, Oct. 1, 1876	43,374 17
Decrease in accounts payable	50,499 03
Balance of cash assets, Oct. 1, 1876	1,524,854 89
Total, as above	$6,292,901 88

DETAILED STATEMENT OF ITEMS OF CASH ASSETS.

Due from agents	$111,452 00
Due from connecting roads	85,593 57
Due from Hartford, Providence and Fishkill R. R. tunnel account	26,503 45
Advances to Harlem River and Portchester R. R.	521,643 21
Loans and bills receivable	370,874 03
Cash	408,788 63
Total	$1,524,854 89

The following is an exhibit in condensed form of the business for the past year:

Receipts from transportation, &c.		$4,314,682 13
Transp. expenses	$2,343,277 76	
Taxes	280,783 13	
Interest H. R. & P. C. bonds	130,000 00	
Net earnings	1,610,621 24	
		$4,314,682 13

No additions have been made to capital expenditure accounts during the past year.

The contingent account has been decreased $4,529 80 during the past year, as follows:

Balance contingent account, October 1, 1875	$170,191 10
Add premium on 686 Shares Co.'s stock sold	30,817 63
Add insurance premium, credited as fire reserve	3,600 00
	$204,608 73
Deduct amount paid B. & A. R. R. settlement of land and car house account at Springfield	38,947 43
Leaving balance to credit contingent account, Oct. 1, 1876	$165,661 30

New York, New Haven and Hartford Railroad statistics for the year ending September 30th, 1876:

Miles run by passenger trains	1,386,998
Miles run by freight trains	646,244
Miles run by gravel trains	39,012
Total mileage	2,072,254
Total number of passengers	3,912,966
Number of passengers moved one mile	123,866,661
Number of tons of freight moved	836,019
Number of tons of freight moved one m.	37,224,658
Number of engines	92
Number of passenger cars	196
Number of mail and baggage cars	62
Number of freight cars	1,150
Number of gravel and other cars	185

SHORE LINE DIVISION.

The receipts on this division for the year ending September 30th, 1876, have been:

From transportation of passengers	$278,983 82
From transportation of freight	74,482 62
From transportation of mails	8,817 00
From transportation of express, &c.	17,287 61
Total income	$379,571 05

The expenses have been:

For operating expenses	$260,643 56	
For rent	100,000 00	
		360,643 56
Gain for the year		$18,927 49

From the forgoing accounts it will be seen that the gross income of the road from all sources, for the year ending September 30th, 1876 is less than for the year preceding by the sum of $284,841 32. While we anticipated a possible reduction in freight receipts owing to the great falling off in the rates of freight between the east and the west, as well as to the continued depression of the general business of the country, still we had confidence that any falling off from this source would be more than made up by an increase in the passenger traffic created by the Centennial Exposition at Philadelphia.

In this we have been much disappointed. From the time of the opening of the Exposition up to the first of September there was a material reduction in passenger receipts in every month, and it is only since the first of September that we have experienced any increase in passenger earnings.

Notwithstanding this decrease in receipts, it gives us much pleasure to be able to inform you that the net income of the company, over and above all expenses and outlays of every name and nature, has been sufficient to pay to the stockholders the regular ten per cent. dividend and leave a surplus to the credit of profit and loss. No addition has been made during the year to either capital or construction account.

While the continued depression in business has reduced the gross revenue of the company, yet, owing to the perfect condition of the road and its equipment and a reduction in the cost of labor and materials, we have been enabled to accomplish results which we trust will be satisfactory to the stockholders. With a revival in business throughout the country it is to be hoped that like satisfactory results can be obtained and a reduction made in the rates for transportation of passengers and freight.

Your directors still adhere to the opinion expressed in their last annual report, that it is the true policy of this company to limit the dividends to ten per cent., and to apply any surplus earnings beyond that to increasing the facilities and accommodations of the road.

CONDENSED BALANCE SHEET, October 1, 1876.

Cost of railroad	$12,889,584 40
Equipment, engines, cars & barges.	2,114,501 42
Real estate	560 274 67
Docks and wharves	128,688 31
Materials and supplies on hand	381,165 47

President.—WM. D. BISHOP.

Vice Pres't & Gen'l Sup't.— E. M. REED.

Directors.—Wm. D. Bishop, E. M. Reed, Wilson G. Hunt, C. Vanderbilt, Geo. N. Miller, Chester W. Chapin, A. R. Van Nest, Henry C Robinson, E. H. Trowbridge, Nathaniel Wheeler, C. M. Pond, Augustus Schell, Geo. H. Watrous.

Treasurer.—WM. A. BURROUGHS.

Secretary.—EDWARD I. SANFORD.

☞ The Ohio State Journal says that the stockholders of the Cincinnati and Eastern narrow gauge railroad have unanimously authorized the building of the branch line from Newtown to New Richmond, and also a branch line via Georgetown to Ripley and Aberdeen, on the Ohio river. So soon as the necessary subscriptions asked from the people shall have been raised, the work of constructing will commence.

Detroit, Lansing and Northern Railroad.

The Detroit, Lansing and Lake Michigan Rail road was sold on the 14th inst., at Detroit, Michigan, under a decree of foreclosure, and purchased for the nominal sum of $60,000 by J. O. Shattuck and J. L. Stackpole, of Boston. The purchasers assume the mortgage of $770,000. Messrs. Shattuck and Stackpole represent the holders of first and second mortgage bonds, and will at once proceed to organized a new company to be known as the "Detroit, Lansing and Northern Railroad Company." The principal bondholders are Messrs. Burnham, Seymour, Hunnewell, Denison, Thayer, and C. F. Adams, Jr., of Boston, and James F. Joy, of Detroit, and these gentlemen will probably be directors of the new company. The amount of the bonded debt of the old company was, including unpaid interest, nearly $6,000,000, and experience demonstrated that the earnings of the road could not be made to pay the interest on that sum. The basis upon which the new company will be organized will be to reduce the indebtedness sufficiently to pay the interest thereon. The bondholders will receive new bonds issued by the Detroit, Lansing and Northern Railroad Company at a discount of fifty per cent. from the old bonds, receiving, in addition, a pro rata allotment of stock. The stock will be divided into preferred and common, and distributed to the first and second mortgage bondholders. This arrangement, it is hoped, will enable the holders of bonds to receive a reasonable interest, with possibly a small dividend, on the stock. No immediate change in the officers of the line is expected.

Ohio and Mississippi Railroad.

The following circular addressed to the bond and stockholders of the Ohio and Mississippi Railroad Company, by Mr. Daniel Torrance, its late President, explains in part the causes of the embarrassments which recently overtook that company. Mr. Torrance says:

It is, I think, proper for me, as late president of your company, to state what in my judgment were the causes of the recent collapse of the company. They date long back. Two great errors were made some years since, from which the company has never recovered, and which, attended and supplemented by constantly decreasing and unprofitable rates of competitive traffic have finally brought the company down. These two errors were the construction of the Louisville branch and the change of gauge. This branch has come far short of expectation, if indeed it ever earned interest on the charges and expenses; and the change of gauge, while a seeming necessity, did not increase the earnings of the road. Meantime the funded debt of the company was nearly doubled. It has been shown in the annual reports of the company, and lately in that of the fiscal year ended June 30 last, that the company was carrying a large and increased floating debt. Nevertheless, up to that time and the first of July following, the interest and sinking fund obligations of the company were regularly paid at maturity. Henceforward ensued a large falling off in the net earnings, although the tonnage hauled had largely increased, and in the four following months, ending October 31, the average monthly net earnings decreased nearly 50 per cent. compared with the average of the preceding months. This frightfully sudden decline, the injured credit of the company, and the pressure of heavy call loans, forced the management, after due and serious consideration, to co-operate with certain of the mortgage bondholders whose coupons lay over unpaid, and other creditors of the company, and obtain through the courts the appointment of receivers of the properties of the company for the safety of all the interests involved. The properties are now under the protection of the courts, and it is believed that the breathing spell afforded by that protection will enable the company to recover itself and satisfy all just claims at no distant date.

The Miller and other Improvements.

According to the Report of the Illinois Board of Railroad Commissioners, twenty-seven Railroad Companies in that State have adopted the Miller Platform, Coupler and Buffer for passenger cars, two use the Blackstone coupler and platform, one uses a patent of its own, and the remainder use the common link and pin coupling, though in some cases this is slightly modified or improved.

Twenty-two use the Westinghouse air or automatic brakes on passenger trains, five use other varieties of air steam brakes, and the remainder use common or improved hand brakes.

Fifteen use the Pullman sleeping coaches, and several others use Woodruff's, Wagner's or their own make.

☞ The Salt Lake Tribune says that the grading of the Portland, Dalles and Salt Lake Railroad is progressing, four miles being completed, and the survey finished as far north as Malad City. The company are negotiating with the Union Pacific and Central Pacific Railroads, and a Chicago iron company, for supplying the new road with iron and rolling stock.

☞ The first two contracts on the proposed Puyallup Valley Railroad have been let for work just out of Tacoma. Messrs. Meeker and Mann have taken the work, and will use in it chiefly the Indian labor of the reservation, through which the road will run four miles.

☞ Seven miles of the Salmon Creek Railroad, Mendocino county, Cal., is now graded, and five miles already completed. The road from the mill to the landing will, in all probability, be in full running operation on or before the New Year.

☞ The completion of the Arkansas Central Railroad, of which there is now some prospect, will complete the connection between Little Rock and Helena, on the Mississippi River.

☞ The first rail on the Springfield, Jackson and Pomeroy Narrow Gauge Railway was laid at Jackson, Ohio, on the 9th inst., President James Emmitt driving a silver spike.

☞ The contract has been let for the grading of the Sandy Run branch of the Huntingdon and Broad Top Mountain Railroad in Huntingdon county, Penn.

☞ The rails of the narrow gauge railway in the Centennial grounds have been sold to the Philadelphia and Atlantic City Narrow Gauge Railroad.

☞ The new railroad from Providence, R. I., to Franklin, Mass., is nearly completed to the Rhode Island State Line.

☞ The survey of a route for a proposed railroad from Cumberland to westernport, in Allegany Co., Md., has been completed.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

Cost occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An *asterick* (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, December 23, 1876.

Financial and Commercial Affairs.

The chief event of the past week has been the action of agents and representatives of the great trunk railroads by means of which communication is maintained between the Seaboard and the Western States, in arriving at an agreement for an advance in rates of freight. The leading features of this agreement are published in another column. It is generally construed as a complete surrender of the New York Central and Hudson River Railroad to the position and demands of the Baltimore and Ohio Road; but as now explained, it is only partially so, and in the matter of local traffic. The lowest rate is to Baltimore; rates to other cities on the seaboard are to be higher in proportion to their distance from principal shipping points; but there will be deducted from these higher rates, a drawback sufficient to bring down freights destined to competitive markets (i. e., exported,) to the Baltimore basis. This is quite different from the general understanding of the matter; and the confusion led to doubts of the perpetuity of the agreement, which exerted an unfavorable effect upon values. It was announced late on Wednesday, that all details of the new freight arrangement had been amicably arranged; nothing had been done regarding passenger fares, but it was reported that these are to be advanced in January. The stock market opened buoyant, but closed irregular and unsettled.

The bank statement for last week showed an increase of four million dollars in specie—and the amount carried aggregated at the close nearly twenty-seven millions. There was, however, no further falling off in the amount of legal tenders;

but, on the contrary, a slight increase. There was, also, a falling off in loans of more than 2½ millions—so that in actual and legal strength the position is improved. Still of the legal reserve, only 57½ per cent is currency, against 72½ per cent one year ago. Rates for money have been hardening—and on Wednesday 6 per cent was the leading rate for call loans; but later, money was cheaper.

Gold has been firm, notwithstanding the continued large arrivals from Europe. The disturbed state of domestic politics caused some buying, and carried it up to 108, but this soon subsided, and notwithstanding the belligerent aspect of European affairs, the premium declined, and the close on Wednesday was at 107⅛. Exchange has done rather better at $4 82@$4 82½, but the demand continues quite limited. Exports begin to show the effect of the maintenance of speculation, in the face of the recent decline in gold and Exchange, and of high rates of ocean freights. The aggregate from the port of New York for the week ending December 20th was $5,724,257, against $6 286,600 for the corresponding week in 1875. The total value of exports of produce since January 1, this year, was $266,977,891, against $251,767,862 for the corresponding period in 1875.

Government bonds have been more active, and the gold bearing issues are ⅛@1 per cent higher, closing firm on Wednesday, as follows:

United States currency sixes, 121@121⅛; do. 6s, 1881, registered, 113⅛@113⅜; do. coupon, 116⅞@117; do. 1865, registered, 109¼@109½; do. coupon, 109¾@109⅞; do. new, registered, 109¾@109⅞; do. coupon, 112¾@113; do. 1867, registered, 112⅜@112½; do. coupon, 115⅝@115¾; do. 1868, registered, 113⅜@113⅝; do. coupon, 117⅛@117¼; do. ten-forties, registered, 112¾@112⅞; do. coupon, 112¾@113; do. fives, 1881, registered, 111⅜@111⅝; do. coupon, 111⅜@111½; do. four and one-halfs, 108⅛@108⅜.

General trade, except when relieved by speculation, is excessively dull; but indications of a revival after the holidays are to be seen, and confidence is returning.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Tennessee 6s, old, 41⅛; do. new, 40¾; do. new series, 41¼; Missouri 6s, long bonds, 107¾; Louisiana 7s, consol., 54¾; New York City 6s, 20-50s, 108¼; New Jersey Southern 1st mort., 24; Cedar Falls and Minnesota 1st mort., 89; Chesapeake and Ohio 1st mort., coupon on, 26¾; South Pacific R. Washington and Ohio Railroad.

Hon. Lewis McKenzie, President of the Washington and Ohio Railroad Company, in his report to the stockholders, says the receipts for the last fiscal year were $101,639 66, and the expenses $63,167 21, leaving a net gain of $38,472 45, an increase of $11,452 01 over the net gain for the preceding year. The outstanding debt of the company has been reduced during the year $23,814 46. The report states that during the year past $6,472 have been paid on construction west of Hamilton, and that the board is still endeavoring to make an arrangement to complete the road

to Winchester and the coal and iron fields of West Virginia.

Advance in Railroad Freights.

The long-looked-for, and long-delayed, advance in the rates of freight over the great trunk railroads is at length announced; and on Wednesday the arrangement of details was completed, and the new schedule may very soon go into operation. The text of the agreement has not yet been made public, and some misunderstanding exists as to its effect upon certain roads, and the relative advantages offered to rival sea-ports; but, according to the best information attainable, it is provided that "all property from the West, for export, is to have absolutely the same rates (such rates to be fixed from time to time) from point of shipment to or through the seaboard cities—Baltimore, Philadelphia, New York, Boston and Portland; and any property shipped to those places on any local or non-competitive rates, and subsequently exported, shall be thereupon adjusted to this rate; so that no differences founded upon distance are allowed to other cities, except on property for absolute consumption in them. East-bound freights were advanced about one-half, on the basis of 30 cents from Chicago for grain and flour, and 35 cents for fourth-class and provisions. West bound freights were also advanced from 50 to 100 per cent; the new rates ranging from 50 cents for first class down to 25 for special."

This action will commend itself to the whole community. Abnormal rates, whether too high or too low, are not of any permanent advantage to anybody. The higher rates now established are such as the business of the country can well afford to pay. The prices of Western farm products are such as leave a remunerative return to the farmer; and they will add little to the cost of what he has to buy; while, in the aggregate, the increase they will make in the earnings of great railroads will be such as to restore confidence in railroad property, promote a return of commercial activity, and revive the general business of the country.

☞ The Cleveland, Ohio, Herald says that a reliable company proposes to construct a narrow gauge railroad from Cleveland to the coal fields of Medina, Holmes, Coshocton and further south, running most of the way through valley of the Styx—said to be a natural railroad route. If the right of way and $300,000 is secured, it will build and fully equip the line from Cleveland to Coshocton the coming season.

☞ The Ohio State Journal says that parties from New York, Boston and Philadelphia have been in Columbus negotiating with the Columbus and Toledo Railroad Company to furnish locomotives, and that the contract was awarded to the Hinkley Locomotive Works, of Boston, to furnish six engines for immediate delivery.

☞ The Atchison, Topeka and Santa Fe Railroad will extend its line ninety miles next spring, from Pueblo to the west side of the snowy ranges, in order to gain complete control of the San Juan country.

☞ The amount of net revenues of the Richmond and Danville Railroad Company over and above all charges for the year ending September 30, 1876, is $63,281 77.

New York and Oswego Midland Railway.

John G. Stevens, Esq., General Manager of the New York and Oswego Midland Railway, has prepared a report from the books and records of the Receiver, Hon. Abram S. Hewett, for the fiscal year ending September 30, 1876, of which the following is an abstract:

STOCK AND DEBTS.

Capital stock as by charter	$10,000,000 00
Amount subscribed	7,707,500 00
Amount paid in	6,800,522 29
Funded debt	16,073,500 00
Floating debt as at last report	6,411,960 75
Present floating debt	6,498,501 98

Average rate of interest on funded debt, 7 per cent.

The cost of road and equipment is stated at $26,228,408 98, against $26,172,640 01 by previous report, a total expenditure during the year of $55,768 92, of which $48,716 was for grading and masonry. The number of passengers carried was 234,870 and the number of tons of freight 228,103. The total expenses of maintaining the road was $151,610 43; the expenses of repairs of machinery was $74,885 30; and of operating the road, $260,203 70—the total of transportation expenses amounting to $486,699 43. The following is the table of cash receipts and earnings:

From passengers	$114,708 32
From freight	354,207 20
Other sources	66,929 76
Total	$535,845 28

Payments other than for construction:

Transportation, as above	$486,699 43
Interest	3,565 66
Rental of leased lines	78,500 98
Total	$568,766 02
Deficiency	$32,920 74

There were two persons killed and 18 injured during the year.

☞ The regular monthly meeting of the Chesapeake and Ohio Canal Board was held at Annapolis, Md., on the 12th of December, President Gorman in the chair, Treasurer Fawcett acting secretary, and all the directors being present. The board appropriated $50,985 to pay the coupons of July, 1864, payable on and after the 21st inst. at the banking house of Alex. Brown & Sons, Baltimore. After transacting routine business the board adjourned to meet at Annapolis on the 11th of January.

☞ The Fraser River Railroad Company of British Columbia have dissolved, its organization being considered unnecessary, in view of the absolute certainty that the Canadian Pacific Railroad will pass over the same route that the Fraser river road was intended to traverse.

☞ The earnings of the Philadelphia and Erie Railroad in October, 1876, were $337,228 02, the expenses $183,855 83, and the net earnings $154,367 19. In October, 1875, the net earnings were $120,264 91, an increase of $34,102 28.

☞ The earnings of the Annapolis and Elkridge Railroad for the fiscal year ending September 30, 1876, were $45,687, which, less the expenses, leaves a clear profit of $10,486.

☞ Arthur Brown has been elected Superintendent of the Bangor and Piscataquis (Me.) Railroad.

FISK & HATCH,

Bankers,

No. 5 NASSAU ST., NEW YORK.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, on COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

ILLINOIS CENTRAL RAILROAD COMPANY,
NEW YORK, Dec. 20, 1876.

A DIVIDEND OF TWO (2) PER CENT HAS been declared by this Company, payable on the first day of February next to the holders of the capital stock of this Company as registered at the close of the 13th day of January next, after which and until the 5th day of February the transfer books will be closed.

L. V. F. RANDOLPH, Treasurer.

Baltimore and Ohio Railroad.

The regular monthly meeting of the board of directors of the Baltimore and Ohio Railroad Co. was held in Baltimore on the 13th inst., J. J Turner in the chair. The directors, who were unanimously re-elected at the annual meeting last month, qualified and took their seats. An election for President was held. W. W. Taylor nominated John W. Garrett as president for the ensuing year. On motion of J. Carroll Walsh, Galloway Cheston cast the unanimous vote of the board for Mr. Garrett. J. Carroll Walsh, Decatur H. Miller and Wm. W. Taylor were appointed a committee by the chair, and waited upon Mr. Garrett to inform him of the result of the election. After a short absence the committee returned, accompanied by the president elect, who took the chair and briefly thanked the board for the compliment paid in his re-election by a unanimous vote. This is the nineteenth consecutive year in which Mr. Garrett has been called on to conduct the management of the Baltimore and Ohio Railroad.

☞ We give on another page the Fifth Annual report of the Board of Directors to the Stockholders of the New York, New Haven and Hartford Railroad Company, to be submitted at their Annual Meeting in the City of New Haven, on Wednesday, Jan. 10th, 1877.

☞ The Supreme Court of New York has authorized the Receiver of the Erie Railway Company to pay two years' interest on the fifth mortgage bonds of that company.

☞ The total shipments of coal from Cumberland, Md., from January 1, to December 2, 1876, have amounted to 1,707,186 tons 1 cwt.

☞ The Welland (Canada) Canal was closed on the 12th inst.

Boston and Maine Railroad.

At the annual meeting of the stockholders of the Boston and Maine Railroad Company held at Lawrence, Mass., on the 13th inst., the annual report was presented and accepted, and the following gentlemen re-elected directors for the ensuing year: Nathaniel G. White, Lawrence; George C. Lord, Boston; Amos Paul, South Newmarket, N. H.; Nathaniel J. Bradlee, Boston; Wm. S. Stevens, Dover, N. H.; James R. Nichols, Haverhill; John F. Osgood, Boston; Samuel E. Spring, Portland, Me.; Nathaniel W. Farwell, Lewiston, Me.

Dr. George Cogswell of Bradford made a brief speech congratulating the stockholders on the evidence of harmony in their meeting, and that there had been no increase of debt. He urged that the construction account of the road be now considered closed, so that the stockholders might know in future precisely where they stand. The example of other roads is worthy of consideration, and the lesson from them is that debt cannot be increased beyond a certain amount and leave it possible to pay a dividend.

The speaker preferred four per cent or a small dividend rather than have larger dividends declared than are earned, or have the construction account reopened.

Frederick Bancroft of Reading called for a statement of the relations of the corporation with the Portland, Saco and Portsmouth. President White said that two years ago a suit was begun by the Boston and Maine Company against the Portland, Saco and Portsmouth Company for betterments. The full bench of the Massachusetts Supreme Court decided that the Boston and Maine Railroad was right, and a hearing has been had before an auditor. The road is now waiting the auditor's report to the Court. It is said that the Portland, Saco and Portsmouth have a claim on the Eastern for those betterments, but that does not concern the Boston and Maine.

☞ The Carson City, Nevada, Appeal of November 23d says that the Virginia and Truckee Railway Company have projected an extension of their line up into Carson valley; that it is a mere question of time as to when the road will reach out to and through Douglas into Esmeralda, and so on, south and west, wherever the timber-belt stretches and mines are developing; that Chief Engineer Anderson has commenced a survey of a line to Genoa; and that if the present clear weather continues, he will find no trouble in completing his survey this season.

☞ In the United States Senate, on the 15th inst., on motion of Mr. Thurman, the bill to aid in the construction of a railroad from the Missouri River to the Pacific Ocean was made a special order for the third Tuesday in January next. This is the bill which provides for the establishment of a sinking fund to liquidate the indebtedness due from the Pacific Railroad Company to the Government.

☞ The stockholders of the Maryland and Delaware Railroad have re-elected the board of directors except J. C. W. Powell and Thos. J. Clark, to fill vacancies. J. L. Caldwell was re-elected superintendent, and J. W. Scott secretary and treasurer.

Philadelphia and Reading Railroad.

The Philadelphia Ledger of 18th inst. says that an important arrangement has been consummated between the Philadelphia and Reading Railroad company and the Pennsylvania Railroad company, by which the former will hold free and open communication with Perth Amboy and the waters of New York during the season of frost, when navigation on the Delaware is closed by ice, and then adds:

The Pennsylvania Railroad Company is to hitch on to the loaded coal cars of the Reading at Richmond Junction, above Philadelphia, and haul them to Amboy, where there is all the year an open harbor for shipments. By this arrangement the Reading Railroad Company furnishes steadily, all the year, a full supply of Schuylkill coal to the New York market. It is estimated that this outlet will afford a market for a thousand or more tons daily during the time that the Delaware may be obstructed by ice, and is just so much sale of coal gained by that company, while the toll charges for the same is just so much gained by the Pennsylvania Railroad Company. There are already extensive facilities at Amboy for coal shipments. The arrangement goes into operation to-day, and through it the stock of some 125,000 tons of coal now on hand at Port Richmond, it is expected, will be steadily reduced, and the Reading hereafter may be safely relied on by its customers for a steady supply of coal at all seasons.

Silver a Legal Tender.

The following the text of the bill passed on the 12th inst. by the U. S. House of Representatives—yeas, 167; nays, 53—entitled "A bill authorizing the coining of a standard Silver dollar and restoring its legal tender character:"

Be it enacted, etc., that there shall be, from time to time, coined at the mints of the United States silver dollars of the weight of 4.12½ grains standard silver to the dollar, as provided for in the act of January 18, 1837, and that said dollar shall be a legal tender for all debts, public and private, except where the payment of gold coin is required by law.

Toledo, Wabash and Western Railroad.

The governors of the Stock Exchange have made the following order relative to dealings in Toledo, Wabash and Western Railroad stock:

Contracts in Toledo, Wabash and Western Railroad stock maturing after Dec. 23 (not previously settled), or transactions made after that date in certificates of the Purchasing Committee of the Wabash Railroad Company, cannot be settled by delivery until the opening, and must carry interest as provided in Article 15 of the by-laws. The opening shall be understood to be when the engraved certificates of the Purchasing Committee are placed upon the list and are ready to be issued.

☞ W. W. Evans of New York, as Agent for the Australian colony of Victoria, has ordered from the Rogers Locomotive Works, Patterson, N. J., two locomotives to be shipped to Melbourne. The colony of Victoria has about 600 miles of railroad, all owned by the Government, and equipped with English rolling stock. The engines are to be of the eight-wheeled American pattern, with 17x22 inch cylinders, driving-wheels 61 inch diameter, cast iron truck wheels and driving wheel centers, and are to weigh 63,000 pounds empty. The gauge is 5 feet 3 inches.

☞ A certificate of incorporation has been filed with the Secretary of State of Ohio of the Phœnix Iron Works Company, of Ashtabula, capital stock $100,000, in shares of $100 each, by C. O. Tinker and others.

Boston, Hoosac Tunnel and Western Railway.

General William L. Burt, accompanied by Dr. Estes Howe, appeared before the Corn Exchange to-day as representatives of the Boston, Hoosac Tunnel and Western Railway, and stated their plans, and, with a large map, pointed out the proposed line of the road.

The route commences at Boston, passing over the Fitchburg, Vermont and Massachusetts, and using the road of the State from Greenfield to the New York State line; thence constructing a new road down the Hoosac river, due west, to Schenectady, which is the terminus of the first section of the proposed line. This point is in round numbers two hundred miles from Boston, making a saving of 20 miles over the Boston and Albany and New York Central to the same point, and a still greater saving in grades.

From Schenectady westward the proposed line runs on the south or canal side of the Mohawk, through Utica, Rome, to Oswego, where it connects with Lake Ontario and a road already completed and in operation, called the Lake Ontario Shore Railroad, to the Niagara river at Lewiston. This, with the Great Western of Canada and the Michigan Central, opens an independent through line from Boston to Chicago shorter than the New York Central. Only 180 miles of new road are required to complete all these connections.

At Schenectady the line connects with the Delaware and Hudson Railroad to Binghamton, the Erie Railway, and to the anthracite and bituminous coal fields on the shortest possible line. By building 20 miles of new road, Boston will have a through independent line to Chicago and Cincinnati for freight and passengers, and this it was stated could be constructed in three months.

This through line from Boston to the east end of Lake Ontario is the shortest rail line from tide water to the great lakes, and with the enlargement of the Welland canal, Boston can dictate the rates of transportation for foreign shipments over all existing lines.—*Boston Journal, Dec.* 15.

Mobile and Texas Railroad.

The New Orleans Times of 2d inst. says that Governor Morgan, Messrs. Seligman & Co., Morton, Bliss & Co., and Mr. Ames, the sole proprietors of the Mobile and Texas road, have pledged themselves to, at as early a date as possible and at their own expense, complete the line from Bayou, Goula, its present terminus, to Vermilionville, and thence to the Trinity River, where it will connect with the road already completed to Houston. The New Orleans Pacific road agrees to run its line from Vermilionville through Alexandria to Marshall. This will give two routes to Texas, one of which will control the trade of the southern portion of the State and the other its northern cotton and grain belt.

☞ The length of line operated by the Paris, Lyons and Mediterranean Railway Company at the close of 1875 comprised 8,195 miles, and the company is constructing, or has obtained concessions for, 1,228¾ miles more, which, when completed, will make the system embrace 4,413¾ miles. and still the directors are considering other schemes of extension.

☞ The traffic receipts of the Midland Railway of Canada for the week ending November 30, 1876, were $6,569 14; same week last year, $4,345 23—increase, $2,223 91. Total traffic to date, $259,399 70; do. year previous, $271,212 52—decrease, $11,812 82.

The Coal Trade.

The total tonnage for the week ending on the 9th instant, as reported by all the companies, amounted to 206,461 tons, against 195,659 tons in corresponding week last year, an increase of 10,802 tons. The total amount of anthracite mined for the year is 17,926,372 tons, against 19,464,639 for same period last year, a decrease of 1,538,267 tons. The quantity of bituminous coal sent to market for the week was 75,436 tons, against 72,138 tons for corresponding week last year, an increase of 3298 tons. The whole bituminous tonnage from the beginning of the coal year is 3,500,304 tons, against 3,773,388 tons in corresponding time last year, a decrease of 273,004 tons. The total tonnage of all kinds of coal for the week is 281,897 tons, against 267,797 to corresponding date last year, an increase of 14,100 tons, and the total tonnage for the coal year is 21,426,676 tons, against 23,239,027 tons to same date last year, a decrease of 1,811,351 tons. The receipts at Perth Amboy for the week ending on the 9th instant were 30,675 tons, and shipped 25,968 tons, leaving a stock on hand of 68,974 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last eight days in November was 141,940 tons, of which 68,974 tons were coal and 22,606 tons coke. The total carried this year is 4,343,933 tons, of which 3,524,648 were coal and 709,726 coke. This total embraces all the coal carried over the road, east and west.—*Phila. Ledger, Dec.* 18.

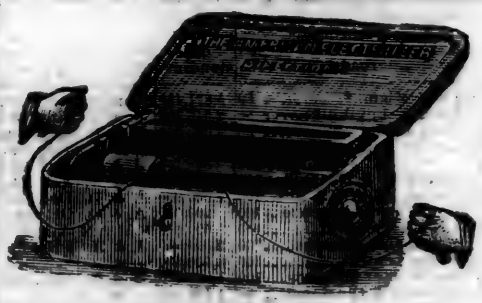
The Reading Railroad Bridge at Falls of Schuylkill.

From a letter written by Edwin M. Snyder, Civil Engineer, we make the following extracts. It should be understood that as Mr. E. M. Snyder, the writer, is a son of Antes Snyder, referred to in the extracts, he has abundant opportunity to be well informed on the subject of his letter.

POTTSTOWN, MONTGOMERY CO., PA., December 11, 1876.

MR. EDITOR: In the description of the exhibit of the American Society of Civil Engineers, it is stated: "The Reading Railroad Bridge at the Falls, built after J. Dutton Steele's design is, perhaps, the best specimen, and stands to-day as the model bridge in the country." This is an error, as Antes Snyder, Civil Engineer and graduate of West Point, was the designer and builder of the bridge at the Falls of Schuylkill. He was the first Engineer sent to England to buy rails and locomotives for the Old Columbia Railroad. He was a relative of, and intimate with Benj. H. Latrobe, Esq., of Baltimore, who, I am sure, is cognisant of the facts stated by me. Antes Snyder was Engineer of the Roadway Department of the Philadelphia and Reading Railroad at the time the structure in question was built; G. A. Nicolls, Esq., being then the Chief Engineer of the road. It is well known, and can be proved, that from the first sketch of a design to the laying of the last stone of this bridge Antes Snyder was the designer and builder.

EDWARD M. SNYDER, C. E.



☞ Regular trains are now running on the Wisconsin Central Railroad to Butternut, a branch of the Chippewa River, and near the south line of Ashland county. A gap of 10½ miles will remain uncompleted until spring, but passengers and freight will be conveyed over it by a stage line which will run regularly through the winter.

☞ At Clayton, the northern terminus of the North Wisconsin Railway, the company has lately completed a fine engine house and also a commodious station house, and has put in a large amount of side tracks for the accommodation of the mills and other business.

THE AMERICAN ELECTRIZER.

A COMPACT, CHEAP AND POWERFUL

ELECTRIC BATTERY.

Price Only $6.

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is, in our judgment, the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that any one can operate it, and so cheap that almost any one can afford to buy it; therefore, it meets a popular want. It will be found of great value by Physicians generally, and ought to be in every family.

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

American Railroad Journal.

New York, Saturday, December 30, 1876.

American Railroads in 1876.

The history of American Railroads for the year 1876 is already made up in the columns of the JOURNAL; and a retrospect of their progress is, on the whole, of a character to afford many reasons for congratulation; not so much, it is true, for what has been accomplished as for the solid foundations that have been laid upon which to build a prosperous future.

The cost of building railroads has been kept at minimum figures. Not in many years could materials be bought, money borrowed, labor hired, and rolling stock purchased, cheaper than in 1876; and there is no reason to doubt that with returning confidence in commercial circles railroad building, extension and equipment will receive, from the reduced cost thereof, a great impetus. Indeed, in spite of many drawbacks, many more miles of railroad were building in 1876 than in either of the two preceding years.

The work of reorganizing bankrupt and defaulting railroad corporations has been pushed as rapidly as the law's delays and the conflict of interests would permit; and although much remains to be done, the excellent spirit which seems to prevail affords promise that the coming year will make a satisfactory exhibit of this most irksome part of railroad management. It has not in every case been possible for railroads which had previously defaulted or reorganized to carry out their undertakings for the past year; but wherever a failure of this sort has occurred, the attendant circumstances deprived it of any unfavorable significance.

It is doubtful if the Centennial Exhibition was of any decided advantage to American Railroads. It caused an increase in the number of passengers traveling long distances at low rates of fare, but it injured local travel at high rates, and diminished general trade—or, if not, it prevented a legitimate increase. Rates of freight between the Seaboard and the West were abnormally low until the last month of the year; yet there was not any important falling off in earnings; and the higher rates which have recently been agreed upon are an earnest of a prosperous future. The partial failure of the wheat crop in the Northwest would be a discouraging circumstance but for the fact that, so far as railroads are concerned, the deficiency in wheat is made up by increased growth of other farm products.

The dark part of the year's history of American Railroads is that which relates to the "coal roads." What benefitted, more or less, other railroads through cheap coal and iron was a serious injury to these. Perhaps the state of depression which has overtaken their affairs is greater than it would have been had they bent earlier to the storm; or, more accurately speaking, their refusal to bend at all caused their affairs to break from their control. However it is evident that even here the worst is passed; and the lesson has not been without its value. A serious check has been given to unwise and indiscriminate guaranteeing of bonds and shares, in order to promote an extension of connections, and to obtain other indirect advantages. The burden of high rates of interest has also been brought home to railroad management, and the desirability as well as practicability of funding debts at lower rates of interest received attention.

In short, the evil effects of the extravagance which preceded the panic of 1873 are being slowly removed, and the lessons of that time are being acted upon. Railroads no longer precede but follow population; the needs of the older communities receive attention; economy in management and operating expenses has been more rigidly enforced; and the true relations between railroads and the community they serve are better understood. And we shall continue to recover our prosperity just so long as the lessons of the past are not forgotten. It is only when the warnings of experience are obscured by the glamour of high prosperity that disaster is invited.

The Southern Route to the Pacific.

It is announced from Washington, and confirmed by parties in this city likely to be well informed, that the differences between the Texas Pacific Railroad Company, represented by Col. Scott, and the Southern Pacific Railroad Company, represented by Mr. C. P. Huntington, have been harmonized. By the agreement the latter corporation is to build the line into San Diego, and also to extend its main line eastward into New Mexico until it is met and joined with the Texas road building west, the lands and other grants to belong to the builders. The whole line is to be completed in six years, and is to be subject to government supervision, so as to prevent discrimination, combination or exorbitant charges in through business. Branch lines from the main trunk in Texas are provided to Saint Louis, Memphis, and to New Orleans via Shreveport.

Southern Pacific Railroad in California.

LOS ANGELES, December 18th.—Seventeen car loads of Chinamen, horses and carts were dispatched to the terminus of the Southern Pacific Railroad at Indian Wells to-day. It is expected that work will be commenced immediately.

☞ At the annual meeting of the stockholders of the Parkersburg Branch, Baltimore and Ohio Railroad, Wm. Keyser, second vice-president Baltimore and Ohio Railroad, was re-elected president, and the following directors for the en-

suing year: John W. Garrett, Galloway Cheston, Wm. McKim, William W. Taylor, T. H. Garrett, Baltimore; Wm. F. Burns, George R. Dennis, Frederick City; J. N. Camden, W. N. Chancellor, Parkersburg.

East Tennessee, Virginia and Georgia R. R.

The gross earnings of this road for the years ending June 30, 1875 and 1876, were as follows:

	1875.	1876.
Passengers, through.	$134 352 57	$156,368 57
Passengers, local....	116,775 60	113,689 35
Conductors' collections.....	56,889 54	58,014 27
Commutation tickets.	6,230 00	6,553 00
Freight, through....	287 957 77	276,744 19
Freight, local..... ...	382,397 63	359,229 89
Express.....	13,268 34	20,758 69
U. S. Mail....	56,371 93	62,068 80
Miscellaneous	5,742 27	5,528 06
	$1,059,985 65	$1,058,954 82
Expenses, viz:		
Motive power	$129,357 01	$125,780 10
Maintenance of cars.	65,260 88	58,173 40
Fuel for locomotives	63,359 74	66,311 95
Transportation..... ..	135,605 59	117,159 58
Repairs of sleeping cars	5,018 94	4,632 43
Repairs of roadway..	244,510 73	267,161 11
General expenses,...	74,409 94	76,176 41
	$717,522 83	$715,394 98
Net earnings...	$342,462 82	$343,559 84
Add interest on $229,000 seven per cent Western North Carolina bonds owned by the company..		16,030 00
Total net income.....		$359,589 84
Applied as follows:		
Total interest and exchange on bonded and floating debt...		$280,512 09
Dividend of 3 per cent on capital stock paid April 1, 1876....		58,901 25
Surplus.....		20,176 50
Total, as above.....		$359,589 84

Compared with the preceding year the gross revenue shows a decrease of $1,030 83, with a decrease in expenses of $2,127 85, making an increase in the net receipts of $1,097 02. The percentage of expenses to earnings in 1876 was 67.55, against 67.70 in 1875. The President in his report says:

During the year the following amounts were expended for renewals, betterments and taxes, and charged in the expenses as above, viz:

For re-rolling iron rails, and for iron rails, fish plates, bolts, &c., purchased	$107,885 32
For 78,435 new cross ties, laid in track	27,390 10
For 6¼ miles broken stone ballast....	9,218 00
For new cars and renewals of cars...	22,130 00
For four new locomotive boilers and flues used in renewing four engines	10,884 01
Total expenses for renewals and betterments	$177,457 43
Taxes for the year	14,816 85
Total charge to expenses.....	$192,274 28

There has been expended for additions to the property of the company and charged to the respective ventures the following amounts, viz:

For one third interest in Car Lifter at Lynchburg, Va., with the A. M. & O. and W. C., Va., M. & G. S. R. R. Co's	$2,597 00
For two Sleeping Cars, Leighton's patent	19,391 61
For Real Estate (cost of road)	2,675 08
Total for additions to the property	$24,663 68

Bills receivable have been reduced by a credit of that account with $229,000 Western North Carolina bonds and a charge to Western North Carolina bonds for the estimated value of the latter, say $213,984 27, being equal to the amount of notes previously received in settlement of the account vs. Western North Carolina Railroad Company; and bills payable account has been reduced $7,791 12.

The funded debt has been reduced by the redemption of $3,500 income bonds, due March 1st, 1876, and also by the payment of $3,000 of the State indorsed company bonds, on account of the sinking fund to the State of Tennessee. The 7 per cent. First Mortgage bonds of the company has been increased by the sale of $10,000, being $3,500 in excess of the amount of bonds retired.

The floating debt on the 30th of June, practically amounted to nothing, the cash and other available assets on hand (not including the Western North Carolina bonds) being more than equal to the small balances which it owes. For a statement in detail of the financial condition of the company, reference is made to the general balance sheet of the Secretary and Treasurer, submitted herewith. It may be briefly stated, as follows:

Capital stock		$1,968,274 00
Total bonded debt....	$4,208,400 00	
Less assets owned by the company, viz:		
229,000 in W. N. C. R. R. bonds.	$204,801.96	
Morristown branch..	217,675 53	
	422,477 49	
		3,785,922 51
Balance of liability for capital stock and bonded indebtedness....		$5,754,196 51

Representing 270 miles of main line of railroad and equipments, equal to $14,021 94 of bonded indebtedness, and $7,289 90 of capital stock per mile, or a total on bonds and stock of $21,311 84 per mile.

On the 1st of July last $135,400 of the 6 per cent. bonds of the East Tennessee and Georgia Railroad Company, which were assumed under the consolidation of that road as part of your property matured. These bonds have been redeemed and will appear in the next annual report. Under the circumstances your board regards the results of the year's operations, as satisfactory, notwithstanding the fact of its inability to divide more than one dividend after applying the amounts to renewals, betterments, etc., as previously stated. It is scarcely necessary to revert to the causes which have operated to keep down the income, as these are in the main familiar to you. It may be proper however to mention, that in addition to the commercial depression which has resulted so generally and disastrously to the railroad traffic, the effects of the undue competition existing between what are known as the trunk lines, has operated to greatly reduce our earnings, and hence the year's income does not show such an increase, when compared with the former year, as would otherwise have been the case.

The physical condition of the property has been considerably improved by the expenditures made and charged in the operating expenses. This appreciation in the value of the property has been accomplished without increasing the indebtedness.

The board believes that a wise policy indicates the propriety of continuing to make such expenditures for rails and ballasting, from year to year, and as rapidly as the means of the company will permit, as may be required to bring the property up to the standard of a first-class railroad. Contracts have been made for the purchase and re-rolling of about thirty-seven miles of steel and iron rails, which will come into the expenses of the ensuing fiscal year. It is estimated that a continuance of the present rate of expenditures for renewals, for about three years more, will fully suffice to restore the deteriorations of the rails which accrued mainly before the consolidation of the roads, and was not, up to that date, annually replaced; and that thereafter it will not be necessary to make such heavy expenditures in order to maintain the physical condition of the property, up to the standard of a first-class railway.

Work is progressing rather slowly on the Western North Carolina road, but perhaps as rapidly as the means at its disposal will admit of. The State of North Carolina being the owner of three fourths of the capital stock of that company, and its early completion to Paint Rock (where it will connect with the Morristown branch,) being a matter of vital interest to her citizens, both political parties stand pledged in their platforms to extend such further aid from the State as will insure its early completion; and it is hoped that favorable action will be had by the Legislature, which meets next month, under which the road will be pushed forward rapidly. We take pleasure in alluding to the rapid progress which is being made in the construction of the Spartanburg and Asheville Line.

We are advised that the grading of the entire road is under contract, and that it will probably be completed to Asheville by the time, or before, the line to Paint Rock is finished. This will give a direct connection with the South Carolina system of roads, scarcely less important than the much desired connection with the roads of the North Carolina system; and when these outlets are opened to the business of this section, the Morristown branch will then constitute a valuable portion of your line, and the business of the company will, as your board believe, be materially increased, and especially its net income.

The length of road, including Dalton and Cleveland Branch, is 270 miles.

The equipment consists of 40 locomotives, 14 first-class, 10 second-class, and half-seated passenger cars, 3 U. S. Postal, 2 mail and baggage, 1 pay, 1 wrecking, 324 box, 22 stock, 187 flat and coal, 16 crank and lever, and 81 dump cars.

The number of miles run by locomotives was as follows: on freight trains, 450,884; on passenger trains, 386,712; on material trains, 41,178; switching, 17,150—total, 895,924.

Earnings per mile of road, $3,922 05; expenses, $2,649 61—net earnings, $1,272 44.

Earnings of passenger trains per mile run, $1 07.95, against $1 25 5 for the preceding year. Earnings of freight trains per mile run, $1 41.05, against $1 73 25 for the preceding year. Earnings of revenue trains per mile run, $1 25.76; total expenses per mile run by revenue trains, 85.40 cents; net earnings, do., 40.36 cents.

Cost of motive power per mile run by locomotives, 21.44 cents.

During the year 18 miles 281 yards fish bar iron rails, 2 miles 795 yards steel rails, and 42,462 new cross ties were put in the track on the Eastern division; and 13 miles new fish-bar iron and 35,991 new cross-ties on the Western division; 650 feet of side track were put down between Morristown and Talbots, and 1520 feet at Chattanooga. The Vice President, in his report, from which the above is obtained, says:

A comparison of the operation of the road for the year just closed with that of the preceding year, shows the following results: decrease in receipts from freight $34,381 32, and from miscellaneous sources $214 21. Increase in receipts from passengers $20,377 48, from express $7,490 35, from U. S. mail $5,696 87. Showing a decrease in total gross receipts of $1,030 83. The decrease in expenses is $2,127 85, and the increase in net receipts $1,097 02. The increase in mileage of passenger trains is 81,380, and of freight trains 60,668. Total increase in distance run by

revenue earning trains 142,048 miles. Total tonnage moved by freight trains, 396,827,140 pounds, being an increase of 23,176,372 pounds over the preceding year.

Notwithstanding the increase in mileage of trains and tonnage of freight, expenses have been reduced in the following departments: motive power, $844 75; maintenance of cars, $7,473 99; transportation, $18,446 01. But there has been an increase in the expenses for repairs of roadway of $22,650 38, which may be explained by calling attention to the fact that for the year just closed we expended for iron rails and fastenings $45,637 14 more than for the preceding year. Thus it will be seen that while there has been a considerable increase in mileage of trains, and tonnage of freight, there has been a decrease in the gross receipts of the road, indicating a material decrease in the rate of compensation received for work done. And it will also be seen that notwithstanding the increase in amount of service performed the operating expenses have been considerably reduced, except in the maintenance and improvement of roadway.

For the past few years your roadway has been kept in a constantly improving condition, but at a heavy cost.

A great deal of work has been done on Eastern division in widening cuts and embankments, rendered necessary by imperfections in the original construction, and a large amount of this kind of work remains to be done. The cost of maintaining the roadway has also been greatly increased in consequence of the poor quality of the iron rails that experience shows we have been using.

During the year, the repairs of roadway have cost $989 50 per mile of track, of which amount $399 40 per mile of track was paid out for rails and fastenings.

The officers of the road believed that the true interest of the company required the expensive improvements to the roadway which have been made, and I would suggest the propriety of making further improvements in this department.

A continuance of the general depression of business throughout the country in connection with other causes, has adversely affected the railroad interests of this section. Prominent roads have passed into the hands of Receivers, which virtually means that the stockholders no longer control their property, and that their investments, amounting to millions of dollars, are probably lost forever. Yet the obligations of your company have all been promptly met; but the dividend paid to your stockholders has been small on account of the reduced rates at which work has been done, and of heavy expenditures in the improvement of roadway.

CONDENSED BALANCE SHEET, June 30, 1876.

Secretary & Treasurer.—JAMES G. MITCHELL.

Auditor.—O. H. P. ROGAN.

Baldwin Locomotive Works.

These celebrated works are situated in the space comprised between Broad, Willow, Fifteenth and Spring Garden streets, and in size and capacity have no rivals on the continent. Mr. M. W. Baldwin, the founder of the establishment, was a native of New Jersey, but came to Philadelphia in early life, and served an apprenticeship as a manufacturing jeweller, but after becoming of age he prosecuted various branches of manufacturing business until 1830, when he built the first locomotive for exhibition in Peale's Museum. In 1831 he received an order for a locomotive from the Philadelphia and Germantown Railroad, and the engine was placed on the road in January, 1833, being the first successful locomotive built in America. He built five engines in 1834, fourteen in 1835, forty in 1836, and between forty-five and fifty in 1837. In 1860 the capacity of the works had increased to eight locomotives per month; in 1866 to sixteen per month; in 1868 to twenty five per month. In 1854 Matthew Baird became a partner, contributing capital, skill, energy and practical knowledge of the business. In 1866 Mr. Baldwin died, and Mr. Baird purchased the Baldwin interest, and associated with him as partners George P. Burnham and Charles T. Parry, under the firm name of M. Baird & Co. Subsequently Mr. Baird's interest was purchased by the present firm, which includes Messrs. Burnham, Parry, Williams, Henszey, Longstreth and Converse. The capacity of this establishment has kept pace with the growth of the American railway system, and the firm has ventured boldly in all lines of enterprise. The first narrow gauge locomotive engine built in America was made in these works for the Denver and Rio Grande Railway. The firm has filled large orders for locomotives for railways in Russia and Brazil. Mr. Baldwin was the inventor of many of the peculiar features of the American locomotive, and the practical engineering talent of his associates and successors have always been equal to the task of producing a locomotive of any required kind for any particular service. Hence the establishment has contributed in more ways than one to the success of the American railway system. Our locomotives were not produced as mere imitations of foreign engines. Mr. Baldwin invented many of their peculiarities, and was in fact one of the most distinguished inventors the Republic has produced. The machinery used in the establishment is something wonderful in its way, the ground floor of the main building having no less than sixty-five machines in operation, including lathes, planers, slotting and milling machines and borers. The first planer made in America is still to be seen at work in this shop. The second floor of the same building has eighty-seven tools and machines, and the third floor sixty-two machines. The Willow-street shops have thirty two machines on the first floor, twenty-four machines on the second floor, and thirteen machines on the third floor. The building between Buttonwood and Spring Garden streets is devoted to putting together the separate parts of the locomotives. These works employ some seventeen hundred men, who, with their families, constitute a population of seven thousand persons dependent on the establishment for their support. The ability of the concern to compete with the European works in the export trade in locomotives has been fully demonstrated.—*Philadelphia North American.*

NEW BOOKS.

Knight's American Mechanical Dictionary: being a description of tools, instruments, machines, processes, and engineering; history of inventions; general technological vocabulary; and digest of mechanical appliances in Science and the Arts; by EDWARD H. KNIGHT. HURD & HOUGHTON, Riverside Pier, Cambridge, Mass. 1876.

The work is finished, and challenges criticism in its intelligent choice of subjects, its convenient system, and the labor and truthfulness of its immensely extended details. Dr. Ure's great work was more particularly chemical, with small attention to the grosser working of matter in machines, and artificial structures and fabrics. This work is, as its somewhat lengthy title indicates, almost exclusively mechanical. It is not easy to do it full justice.

This is the age of material progress. Material wealth increases by wise accumulations of the results of labor in useful roads, bridges, ships, docks and wires. Most wisely of all does it accumulate in increased facilities for performing labor, and increased facilities for teaching the next generation how to perform theirs.

This is the age of compliments to workmen. Mr. Knight's book is a compliment to inventors and their associates, ranking alongside of the statue of the inventor Morse in the Central Park.

In Fine Arts our generation bows deferentially to its predecessors. In religion our Sunday Schools "hold the fort" with much visible improvement on the gloom of the ancient catechism. But in working, in conquering the difficulties which encumber existence in the temperate zone on this planet, man has made well nigh as great removes from the savage root digger, since the birth of some now living, as during the whole of the ages preceding.

The morning stars sang together at some early period, so we learn, but we hear nothing of their working. It has remained for the present age to work and to love it—to take a delight in organizing means for making labor more and more effective. Mr. Knight's book is a magnificent reminder of the progress of the age, and an exhaustless

fund of nervously bristling facts on the immensely diversified ramifications of mechanical labor.

History, except as it throws light on the present or instructs in regard to what may occur again, is intellectual dissipation. History of the useful arts has a remote bearing on the present and can be tolerated. But give us, by a preference as strong as sunlight differs from moonshine, the living breathing present, down to the latest day and hour. In all the useful arts the U. S. Patent Office is the place to know and bathe in these present facts, and Mr. Knight has been in its center. Aided by a corps of assistants, male and female, he has by his regular duties been required to take cognizance of and classify and digest the whirl of inventions seething through the Patent Office at the rate of three hundred a week for the last decade.

No man but E. H. Knight could make such a book. Works which combine the labors of many bring mature thought, but they lack unity. Too often our mechanical books are still lower, built of scraps from authors preceding them. Knight's Dictionary has drawn directly from the material in the original specifications besides investigating largely in every direction independently.

The work has a fault. It would be difficult to produce a work that has not some. This fault is peculiar to the nineteenth century. The ancients mystified their writings with supernatural beings and influences. The fashion of the times prevented their stating a fact in plain language. They must mould it in poetry or blind it in a riddle. Knight's Dictionary has not that fault, but it has the weakness of attempting to mingle humor with philosophy. Many of our best books have it. Mark Twain's Innocents Abroad has it bad. Streaked in like Thomaston marble we find the most sensible criticisms, valuable facts, and absurd reflections. A mind trained to labor, and to delight in truth for its own sake, is pained at the difficulty in distinguishing where the facts leave off and the nonsense begins. It is not a peculiarity of our country alone. Mr. Burgh's late elaborate work (English) on steam boilers is full of it. Mr. Knight's humor is not a vice to the same extent as Mr. Burgh's. Some may value it as making the book more readable. The fault can be endured by the present age; but when that New Zealander of the future sits on the broken towers of the Brooklyn Suspension Bridge, and photographs the ruins, he will curse the bushy head and vigorous will of Edward Knight for not printing his jokes in different type from the rest, so that he can distinguish which is which.

The work is bound in three volumes large octavo, with a total of 2824 pages. There are what are numbered up to 7400 engravings, but some of these have many different figures. "Scarf" in carpentry, figure 4660, represents variations from *a* to *t*. Figure 2698, "angle and girder irons," contains 99 forms, and the next cut presents 137 more. Roofs and trusses each present many modifications, deck-bridge-trusses 4, through-bridge trusses 7, and bridge-trusses without any prefix 11.

The book refers from general to subordinate heads by profuse sub-indexes, features which if they did not originate with this author have been largely promoted by him and introduced in the Official Index to U. S. Patents. For example, under "Railway" are 199 heads from "Adhesive car," "Aerial car" and "Aerial railway" down to "Water elevator," "Wire-way" and "Wrecking car."

The sub-index under the word "Lamp" contains 35 sub-heads, from "Annealing-lamp" to "Vapor-lamp," and the closely kindred title, "Light and Photic Appliances" has 135 sub-heads from "Aphlogistic Lamp" and "Argand burner" down through "Electrophorus," "Holophotal light," "Hydrostatic lamp" and "Parachute-light" to "Wick trimmer" and "Zirconia-light."

The execution of the text and cuts is of the finest class. The work should be in every gentleman's library who is interested in the mechanical arts. It is a dictionary, a school and a luxury.

Felton and San Lorenzo Railroad.

Articles of incorporation of the Felton and San Lorenzo Railroad company have been filed in the County Clerk's office of Santa Cruz Co, California. The company propose to construct and operate a narrow gauge road from the town of Felton up and along the San Lorenzo river, a distance of 15 miles, and also along Bear creek, 7 miles, and Boulder creek, 10 miles—the entire road to be 32 miles. The corporation is to last 50 years, and the principal place of business to be at Santa Cruz. The capital stock is $500,000 divided into shares of $100 each. The trustees are: C. G. Harrison, John S. Carter, and W. T. Tisdale, of Felton; C. H. Gorrill, of Santa Cruz, and James P. Pierce, of Santa Clara.

Union Freight Railway.

The following figures are taken from the report made to the Massachusetts Railroad Commissioners by the Old Colony Railroad company as lessees of the Union Freight Railway:

Capital stock authorized by charter	$500,000 00
Capital stock paid in as by books	300,000 00
Total cost of construction	253,778 27
Total amount of income	14,401 39
Total expenses of operating	8,407 83
Total net income above operating expenses	6,003 56
Balance for the year or surplus	5,944 06
Deficit at commencement of year	22,908 61
Charge to profit and loss in 1875	6,592 17
Total deficit	$29,500 78
Less net income	5,944 06
	$23,556 72

TONS CARRIED DURING YEAR TO SEVERAL RAILROADS FROM WHARVES AND WAREHOUSES.

Old Colony	2,500
Boston and Albany	1,661

	40,577

Tariff rate of freight per car $5.

MISCELLANEOUS.

Length of Railway owned by Company exclusive of siding	2.451 miles
Receipts from freight hauled for the year ending Sept. 30, 1876	$37,338 20
Expenses of working road	26,865 66
There have been expended for improvement, new tracks and extensions during the year	1,107 44

☞ The Denver and Rio Grande Railroad Company has determined to build a branch to the rich San Juan mining country. The programme is to have the road go to the Rio Grande via Conejos, with a branch to Del Norte. From Del Norte the proposed line is run up the Rio Grande to the South fork, a short distance above town, following up the stream to its head, where an excellent pass has been found, and thence along the west side of the range to Animas Park, right in the heart of the San Juan mining region.

American Railroad Journal.

Saturday, December 30, 1876.

Financial and Commercial Affairs.

The week's business on the Stock Exchange has been of a holiday character—limited in volume, with prices barely supported, at best, while in some cases a lower range has been made. The peculiarities contained in the report of the New York Central and Hudson River Railroad Company, as presented in the JOURNAL, have weakened that stock, as they came to be generally understood. Illinois Central declined sharply under a reduction of the semi annual dividend from 4 to 2 per cent, with some doubt thrown upon the probability of even this being maintained. The rivers of the Ohio valley and of the middle portion of the Mississippi valley, have been suddenly closed by ice, with little probability of the resumption of navigation till spring. This circumstance promises to have a favorable effect upon the earnings of railroads connecting Louisville and St. Louis with the South. The exception to the downward course of prices has been in the coal stocks, although it is announced that the Delaware, Lackawanna and Western will probably not make any dividend for the current quarter. But the sales of coal recently were at better prices, and the severe weather favors a large consumption, probably fifty per cent more than last winter—notwithstanding the depressed state of business. The New Jersey Central has, it is said, succeeded in providing for its financial needs, and the Delaware and Hudson Canal Company has inaugurated a rigid policy of economy. On Wednesday, there was much irregularity pervading the market without, so far as was apparent, any special

causes operating. The increased dearness of money may, however, have produced some effect.

Gold has rapidly declined. Domestic politics are calmer, and the importation of coin from Europe continues. There is now such an accumulation of gold at this point that to carry it is burdensome. The close on Wednesday was at 107. Exchange, however, has further advanced, and prime sixty-bills go at $4 83@$4 83½. The value of exports is fairly maintained, and the aggregate from the port of New York for the week ending December 27th was $5,190,896, against $3,739,420 for the corresponding week in 1875. The total value of exports of produce since January 1, this year, was $273,168,287, against $254,507,282 for the corresponding period in 1875.

The bank statement was a somewhat peculiar one. There was a gain of $712,600 in specie, and a loss of nearly a million in legal tenders. Loans were reduced 1½ millions. By these changes the legal reserve is reduced below 20 per cent again; and of this reserve, legal tenders form 56¼ per cent, and gold 43¾ per cent, against 70⅞ and 29⅛ one year ago. The money market consequently has been without relaxation. Call loans have been made at 4@6 per cent, and discounts of first-class paper at 5@7 per cent. On Wednesday, the current rate for call loans during active hours was 7 per cent, but the close was at some abatement.

Government bonds have further improved, except for the new four and-a-halfs, which are cheaper, but closing on Wednesday, as follows:

United States currency sixes, 121⅝@122¼; do. 6s, 1881, registered, 113⅞@114⅛; do. coupon, 117⅛@117⅜; do. 1865, registered, 109⅜@109⅝; do. coupon, 109⅜@109⅝; do. new, registered, 110⅜@110⅝; do. coupon, 113⅛@113⅜; do. 1867, registered, 113⅜@113½; do. coupon, 116⅜@116¼; do. 1868, registered, 113⅞@114¼; do. coupon, 118@119; do. ten-forties, registered, 113⅜@113⅞; do. coupon, 113⅝@113⅞; do. fives, 1881, registered, 112@112⅛; do. coupon, 111⅞@112⅛; do. four and one-halfs, 108⅛@108¼.

The speculation in cotton and breadstuffs has continued for advancing prices, based mainly on short crop theories. Provisions have also taken a stronger turn owing to the large export movement. General trade, however, is quiet as usual at the holiday season.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

H.) 6s, 1893, 103½; Cleveland 6s, 1895, 103¼; St. Louis City 6s, 1906, 103¾; Cambridge 5s, 1893, 102½; Duncan Silver Mining Co., 4⅞.

☞ The following gentlemen have been chosen directors of the New Bedford and Fall River Railroad Co.: J. A. Beauvais, Charles R. Tucker, George A. Bourne, L. M. Kellock, William R. Wing, George R. Phillips, George Wilson and John H. Dennison of New Bedford; L. S. Judd, Fairhaven; John H. Perry, Boston; R. T. Davis and John D. Flint, Fall River.

☞ Solomon H. Howe has resigned the Presidency of the Boston, Clinton, Fitchburg and New Bedford Railroad Co., and Nathaniel Thayer, Jr., has been elected in his place.

☞ Hon. C. D. Hubbard has been elected President, and James Campbell Secretary of the Wheeling, Pittsburg and Kentucky Railroad Company.

☞ Myron W. Bailey, of St. Albans, Vt., has been elected Railroad Commissioner of that State for the ensuing two years.

Railroads in Illinois.

The Secretary of State of Illinois announces that 34 new railroad organizations have been effected in that State since his last report, viz: the Watertown Railroad; Grape Creek Railroad; Chicago, Rockford and Northern; Chicago and Evanston Narrow Gauge; Chicago Transfer Railway; Calumet River Railway; Peoria and Eastern Railway; St. Louis and Eastern; Springfield, Decatur, and Indianapolis; Morrison, Mt. Carroll and Southeastern; Chicago and Batavia; South Chicago Transfer; Chicago Belt; Burlington, Monmouth and Illinois River; South Chicago and Calumet; Chicago Transfer; Havana and San Jose Narrow Gauge; Lewiston and Havana Narrow Gauge; St. Louis, Marine and Edwardsville; Keokuk, Galesburg and Chicago; Peoria and Burlington; Chicago River Railway; Rock Island and Edwards River; Rock Island and Mercer County; St. Louis, Rock Island and Chicago; St. Louis, Chester and Western; LeRoy Narrow Gauge; Rock River Valley; Chicago, Braidwood and Southern; Freeport, Pecatonica Valley and State Line; Pekin, Lincoln and Decatur; Chicago and St. Louis Air Line; Chicago and North Shore; Lafayette, Bloomington and Mississippi.

Illinois Central Railroad.

The officers of the Illinois Central Railroad Company have made their semi-annual report of gross earnings to the State authorities as required by the charter of the company. The report embraces the period from May 1 to Oct. 31, 1876, and shows the following figures:

Freights	$1 706,923 26
Passengers	608,362 66
Mails	47,963 47
Express	51,986 35
Miscellaneous	151,115 33
Total	$2,566,851 07

Seven per cent. of this is $179,644 57, and this amount is soon to be paid into the Illinois State Treasury, in lieu of all State and local taxes.

☞ The Lehigh Valley Railroad Company, which recently became the purchaser of the Ithaca and Athens Railroad, and liable for the payment of its mortgage bonds and the coupons thereon, having already paid the past matured coupons, will pay the coupon maturing on the first of January next at their office in Philadelphia after that date.

☞ The City Council of Portsmouth, N. H. have voted to give additional aid to the Portsmouth and Dover Railroad, not to exceed $44,000, the vote standing 10 to 4 in the Council and 7 to 2 in the Board of Aldermen.

☞ The President of the Rhode Island and Massachusetts Railroad states that work is now so far advanced on both sections of the road that its completion in the early spring is assured beyond doubt.

☞ The capital stock of the Columbus and Mineral Valley Railroad Company has been increased from $300,000 to $1,000,000. The road is to run from Columbus to Bush's station, where it intersects with the Ohio Central road.

☞ Messrs. Fisk & Hatch, 5 Nassau St., N. Y., will pay the coupons due January 1, 1877, of the Central Pacific, Western Pacific, and California and Oregon Railroads.

New Orleans, St. Louis and Chicago R. R.

At New Orleans, on the 20th inst., a decision was rendered in the United States Circuit Court in the case John Newell and James B. Alexander, trustees for the Illinois Central Railroad Company, versus the New Orleans, St. Louis and Chicago Railroad, ordering that the trustees remain in possession of the property and cancel the bonds, and if the debt of over $3,000,000 due by the defendant is not paid by the first Monday in January next the trustees are authorized to advertise and sell the property of the defendants in bulk. It was ordered that the bondholders of the New Orleans, St. Louis and Chicago Railroad have power to appoint a person to purchase said property for the benefit of such bondholders.

Philadelphia and Erie Railroad.

The following is an exhibit of the business of the Philadelphia and Erie Railroad Company for the month of November, 1876:

Gross earnings	$307,899 76
Gross expenses	174,236 95
Net earnings	$133,662 81
Net earnings 11 months of 1876	$1,016,804 42
" " 1875	968,172 95
Increase	$18,681 47
Receipts from other sources	18,360 39
Total increase	$36,991 86

☞ The Westminster (Md.) Advocate says that the extension of the Bachman Valley Railroad is a fixed fact, and that it will be built to Westminster from its present terminus at Chestnut Hill ore banks, or from the State line, at Black Rock Station, to Manchester, and down by the old tannery, Caltrider's, Hampstead, and on the ridge, almost parallel with the pike, to Reisterstown Station. Liberal subscription has also been offered for an extension of the road from Black Rock Station down the falls to Maple swamp, George's run and Worthington valley, connecting with the Western Maryland Railroad at Timber Grove Station.

☞ The West Wisconsin and Chicago and Northwestern Railroads have been put under one management, and the line will be known as the Chicago, St. Paul and Minneapolis route. W. H. H. Stennett, of Chicago, is general passenger agent, and W. C. Swan, of New York, general eastern agent.

☞ The interest maturing January 1, on the bonds of the Hannibal and St. Joseph Railroad Company, and on the Missouri State 6 per cent bonds, known as the "Hannibal and St. Joseph" issue, will be paid on and after January 2, at the Bank of North America.

☞ The anti-Consolidation Coal Company of Allegany county, Md., has resolved to build a narrow gauge railroad from Cumberland to the coal region. Engineers have already commenced experimental surveys for that purpose.

☞ The Burlington and Lamoille Valley (Vt.) Railroad Company has settled and paid all land damages on the line from Johnson to Cambridge Centre within a few weeks.

☞ The City Passenger Railway Company of Baltimore has declared a semi-annual dividend of $1 per share (equal to 4 per cent.) payable 8th January, 1877.

FISK & HATCH,

Bankers,

No. 5 NASSAU ST., NEW YORK.

We give particular attention to DIRECT DEALINGS IN GOVERNMENT BONDS AT CURRENT MARKET RATES, and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell GOLD and GOLD COUPONS, COLLECT DIVIDENDS and TOWN, COUNTY and STATE COUPONS, &c., and buy and sell, ON COMMISSION, all MARKETABLE STOCKS and BONDS.

In our BANKING DEPARTMENT we receive deposits and remittances subject to draft, and allow interest, to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent. per annum, and on balances averaging over $5,000, at the rate of four per cent.

FISK & HATCH.

OFFICE OF CENTRAL PACIFIC RAILROAD COMPANY,
No. 9 NASSAU ST., NEW YORK, Dec. 27, 1876.

THE COUPONS OF THE FIRST MORTGAGE bonds of the CENTRAL PACIFIC RAILROAD COMPANY, the WESTERN PACIFIC RAILROAD COMPANY, and the CALIFORNIA AND OREGON RAILROAD COMPANY, due Jan. 1, 1877, will be paid in gold at the office of FISK & HATCH, No. 5 Nassau st. Holders presenting ten or more coupons will leave them for examination, in which case a receipt will be given and payment made on the following day. C. P. HUNTINGTON, Vice President.

OFFICE OF HANNIBAL AND ST. JOSEPH R. R. CO.,
78 BROADWAY, NEW YORK, Dec. 22, 1876.

THE INTEREST MATURING JAN. 1, 1877, ON the BONDS of this COMPANY, also on $3,000,000 MISSOURI STATE SIX PER CENT BONDS, known as the "Hannibal and Saint Joseph Issue," will be paid on and after the 2d day of January, 1877, on presentation of the proper coupons at the Bank of North America. JOHN P. ACKER, Treasurer.

ILLINOIS CENTRAL RAILROAD COMPANY,
NEW YORK, Dec. 20, 1876.

A DIVIDEND OF TWO (2) PER CENT HAS been declared by this Company, payable on the first day of February next to the holders of the capital stock of this Company as registered at the close of the 13th day of January next, after which and until the 5th day of February the transfer books will be closed. L. V. F. RANDOLPH, Treasurer.

Pittsburg and Castle Shannon Railroad.

At a meeting of the stockholders of this company held at Pittsburg on the 21st inst., it was decided to issue bonds to the amount of $150,000, to run five and ten years at seven per cent., the bonds to be in amounts of $100, $500 and $1,000. The property, real and personal, of the company, is said to be valued at over one million dollars, while the indebtedness upon it is less than $250,000. Of this latter $80,000 is yet due on the coal lands from which a large revenue is derived. President Hays stated that the profits of the year 1876 over and above all expenses would be $28,000.

☞ The officers of the Cincinnati and Portsmouth Railroad company, are: President, B. Kline, Mount Washington; Vice President and Superintendent, H. H. Wellman; Treasurer, H. Brachman, Mount Washington; Secretary, D. K. Este, Mount Carmel; Consulting Engineer, Paul Mohr, jr; Chief Engineer, G. Hume Simpson, Cincinnati.

The American Electrizer.

This ingenious little instrument supplies a want long felt in the medicinal world, viz: an Electric Battery, cheap, powerful, convenient, easily managed and durable. The benefit of electricity, when employed as a curative agent in a certain group of diseases is now generally acknowledged by the medical faculty; but a serious obstacle has hitherto prevented its general use—an obstacle that has now been overcome by the invention of THE AMERICAN ELECTRIZER. This instrument is manufactured by MESSRS. VETTER & OEHMEN, 369 BOWERY, N. Y., and is decidedly the most complete thing of the kind we have seen. The difficulty hitherto experienced in Electo-medical practice has been that the application of electricity to the body could not be regular, as in most cases it was impossible to apply the remedy at home on account of the great expense attending the purchase of a battery. This is now removed, the price of the American Electrizer bringing it within the reach of almost every one, being only $6, so that the application of electricty can now be made regular and continuous, a most essential requirement for its successful use.

As this little instrument is really a marvel of cheapness, power, compactness and efficiency, we will attempt a brief description of its construction. The box containing the whole apparatus is five inches by 2½×1½ in dimension, and can be easily carried in the coat pocket. The induction coil occupies the centre of the box lengthwise, and is covered with a moveable tube which can be drawn forward, or pushed back at pleasure, and by this action the force of the electric current can be regulated. In all the other machines we have seen, this regulation is obtained by moving forward or backward the wires comprising the coil—a system that has many disadvantages, now entirely overcome by the simple plan of covering the coil with a moveable cylinder or tube. The handles are connected with the conducting cords by means of springs, and can be instantly attached or detached. These are tin tubes, and when not in use, are slipped over the tube covering the coil,—all the three and the coil thus taking up but the space of one, and not as in other instruments requiring a separate compartment for their disposal. This allows of great economy in space and is one reason why the box or case can be made so small. The battery is composed of a flat hard rubber tank or bath, 4 inches by 1½+½, and fitting along the inner side of the case.

This Tank is provided with two Copper Rivets projecting at each of its ends with platinum strips on the inside against which are wedged a zinc and a Carbon Plate, the Electric current is generated by the Chemical action of the fluid on the zinc and carbon plates, the current passing through the rivets, (that is when the Battery is in its place) into the induction coil and out through the handles of electrodes, through which the shocks are given. A small lever is also provided, by means of which the instrument is set in motion or stopped. The fluid, used to charge the battery is composed as follows: three pints of cold water, four fluid ounces of sulphuric acid and six ounces (or as much as will dissolve) of finely powdered bi-chromate of potassa. This preparation can be obtained from any druggist and costs very little. The tank, when filled, will run the instrument for about half an hour, but should be emptied, after using the machine.

The chief diseases, for curing which electricity is now used are Rheumatism, Diseases of the Throat and Nerves, Neuralgia, Paralysis, Debility, Colds, Headache, Earache, Toothache &c. &c. and in all such it is of undoubted service. Messrs. Vetter & Oehmen also make an Improved Sponge Electrode which is very desirable, in connection with the Electrizer, and the price of this is only $1, while a liberal discount on both instruments is allowed to the trade.

In conclusion we would simply refer the reader to the following testimonial which requires no comment.

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is in our judgment the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that anyone can operate it, and so cheap that almost any one can afford to buy it, therefore it meets a popular want. It will be found of great value by physicians generally, and ought to be in every family.

HENRY C. HOUGHTON, M. D.
HENRY D. PAINE, M. D.

Commerce of New York.

The foreign imports at New York for the month of November, 1876, are officially stated as follows:

	1875.	1876.
Entered for consumpt'n.	$9,291,475	$8,289,412
Do. for warehousing....	4,089,354	3,617,664
Free goods....	7,687,532	5,403,182
Specie and bullion.....	1,031,950	5,886,110
Total entered at port...	$22.100,311	$23,196,368
Withdrawn fr. wareh'use	6,812,727	5,229,733

The foreign imports at New York for eleven months from January 1, were:

	1875.	1876.
Entered for consumpt'n	$138,275,125	$117,526,456
Do. for warehousing...	85,342,054	72,611,084
Free goods....	82,975,469	68,330,083
Specie and bullion.....	12,802,601	14,965,152
Total entered at port..	$319,395,249	$273,432,775
Withdrawn fr. wareh'se	91,874,886	74,862,331

The duties received at New York for eleven months ending with November, were:

	1875.	1876.
January.....	$8,072,846 12	$8,160,728 44
February.....	11,811,046 95	9,474,003 56
March...	10,323,619 78	10,237,275 36
April....	9,603,087 82	7,764,457 04
May.	7,474,171 61	7,575,997 28
June.....	6,656,462 06	6,619,735 25
July	9,273,546 61	7,497,199 39
August	11 417,505 51	10,125,386 42
September	10,163,829 28	8,634,411 36
October..	8,208,316 27	8,031,580 14
November	7,034,576 39	5,720,296 82
Total..	$100,039,008 40	$89,840,071 06

The exports from New York to foreign ports in the month of November, were:

	1875.	1876.
Domestic produce..... ..	$22,284,560	$23,783,896
Foreign free goods.....	157,207	165,170
Do. dutiable.....	808,538	697,383
Specie and bullion.....	2,237,635	950,959
Total exports.....	$25,487,940	$25,597,408
Do. exclusive of specie.	23,250,305	24,646,449

The exports from New York to foreign ports for eleven months from January 1, were:

	1875.	1876.
Domestic produce.....	$224,461,482	$238,584,391
Foreign free goods.....	1 821,116	2,626,915
Do. dutiable	5,965,768	5,683,826
Specie and bullion.....	65,793,440	41,693,339
Total exports	$298,031,806	$288,588,471
Do. exclusive of specie.	232,238,366	246,895,132

☞ The Mahanoy (Pa.) Gazette learns that the Reading Coal and Iron Company will close their office at that place January 1, 1877. The water has been drawn out of the Schuylkill Canal for the winter. One hundred and fifty-five boats loaded with coal, belonging to the Reading Coal and Iron Company, are frozen up in the canal, where they will remain until spring.

Vermont Railroads.

Hon. Myron W. Bailey, Railroad Commissioner of Vermont, has just issued his biennial report, covering the operations of the Railroads of the State, so far as the same could be determined, for the two years ending July 31, 1876. The Commissioner says that after diligent personal inquiries and examinations "into the management of the railroads in the State, there has been found no neglect or infringement of the laws for the regulation of railroads in the State by officers, employes or agents, excepting upon one or two occasions, which were of a nature which was speedily adjusted to the satisfaction of all parties concerned."

"The conditions of the railroads of Vermont, has improved during the past two years, and the materials and equipments are in as good condition as two years ago. This is especially the case with the Grand Trunk and Central Vermont Railroads The Grand Trunk have substituted steel rails for iron and iron bridges for wooden over more than one-half the length of their road, and they intend during the present summer to extend it over the whole length. All the railroads in the State are in a safe condition."

Within the "past two years the following new roads have been opened for transportation of freight and passengers: the Montpelier and White River, from Montpelier to Barre; the Woodstock Railroad, from White River Junction to Woodstock. The Lamoille Valley Railroad has also completed their road from St. Johnsbury to Lunenburgh on the east, and from Hyde Park to Johnson on the west, in all 26 miles."

Referring to litigations, the Commissioner says: "The Montpelier and Wells River and the Central Vermont railroads have been engaged in litigations as to the management of their respective roads, and the former road has been placed in the hands of receivers."

The Coal Trade.

The total tonnage for the week ending on the 16th instant, as reported by all the companies, amounted to 165,369 tons, against 235,025 tons in corresponding week last year, a decrease of 69,656 tons. The total amount of anthracite mined for the year is 18,091,741 tons, against 19,659,759 for same period last year, a decrease of 1,568,009 tons. The quantity of bituminous coal sent to market for the week was 71,554 tons, against 59,032 tons for corresponding week last year, an increase of 12,522 tons. The whole bituminous tonnage from the beginning of the coal year is 3,571,922 tons, against 3,834,384 tons in corresponding time last year, a decrease of 262,462 tons. The total tonnage of all kinds of coal for the week is 236,913 tons, against 294,057 to corresponding date last year, a decrease of 57,144 tons, and the total tonnage for the coal year is 21,663,663 tons, against 23,494,134 tons to same date last year, a decrease of 1,830,471 tons. The receipts at Perth Amboy for the week ending on the 16th instant were 30,906 tons, and shipped 19,837 tons, leaving a stock on hand of 80,448 tons. The quantity of coal and coke carried over the Pennsylvania Railroad for the last week was 105,328 tons, of which 88,911 tons were coal and 16,417 tons coke. The total carried this year is 4,449,261 tons, of which 3,613,559 were coal and 726,143 coke. This total embraces all the coal carried over the road, east and west. —*Phila. Ledger, Dec.* 25.

☞ The Illinois Central Railroad Company has declared a dividend of 2 per cent, payable February 1, 1877.

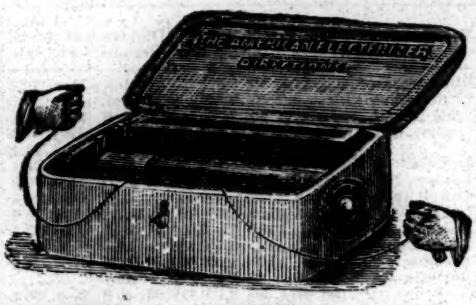
Lake Marine Statistics.

From the report of J. W. Hall, of Detroit, Mich., just prepared, we learn that the number of disasters on the lakes during the year 1876 amounted to 639. The value of property lost is $1,173,260. The losses of timber rafts on the lakes involve a loss of about $101,000. The greatest loss during any month was September, when the losses amounted to $276,133. The number of disasters this year was 417 less than in 1875. The total number of deaths, either on board ship or on shore, among seamen was 155, of which 36 were Vessel Masters. Fourteen were lost by foundered vessels, 97 were drowned, 28 died on shore, 13 were accidently killed, 2 were murdered, 2 committed suicide, and 1 was found dead. The new tonnage amounts to 7 461 tons, a falling off from 1875 of 11,517 tons. The lost tonnage amounts to 9,990 tons, an excess over the new tonnage of 1,539 tons. Financially, the season of 1876 has been the worst on record.

The Suez Canal Traffic.

A table of the traffic through the Suez Canal, drawn up by the company, shows that the route is now taken by 24 regular lines of steam vessels, employing 234 vessels, of a total gross tonnage of 509,447 tons. Classed according to their nationality, the share of England is 152 vessels, of 350,273 tons; next follows France, 18 vessels, of 42,624 tons; Holland, 15, of 36 585 tons; Austria, 18,of 29,227 tons; Italy, 10, of 16,218 tons; Russia, 8, of 13,433 tons; Germany, 8, of 11,386 tons, and Spain, 5, of 10,751 tons. The English vessels and tonnage do not, however, represent the share of England in the traffic, which amounts to nearly four-fifths, English vessels making more frequent passages. The company which employs the greatest number of vessels on this route is the Peninsular and Oriental, with 46; the Messageries Nationales and Austrain Lloyd's have each 18; France, Austria, Germany, Spain, Italy, and Russia have each only a single line of steamers using the canal; Holland has 3, and England 15. With regard to the itineraries of the different steamers, 17 run to the Red Sea and the Persian Gulf, 62 to Bombay, 60 to Colombo, Madras and Calcutta; 5 to the Mauritius and Reunion, 62 to Cochin China, China and Japan; 5 to Rangoon and Birmah, 5 to the Philippines, and 18 to the Dutch Indies.

☞ Hon. Samuel Sloan has been elected President of the Rome, Watertown and Ogdensburgh Railroad Company, in place of Marcellus Massey, Esq., who had resigned in consequence of impaired health. Mr. Massey is the Vice President, and will render such service as he may be able in that capacity.



☞ The Milwaukee Wisconsin says that the contract for building the Menominee Iron Range Railroad has been let by the Chicago and Northwestern Railway Company to Messrs. D. L. Wells & Co., Milwaukee, and that some of the work upon it will be done this winter.

☞ The Jamestown Journal says that the Buffalo and Jamestown Railroad will shortly pass into the hands of the Dunkirk, Allegheny Valley and Pittsburgh Railroad Company.

☞ Get a WAKEFIELD EARTH CLOSET at 25 New Church St, New York. Send for circular.

THE AMERICAN ELECTRIZER.

A COMPACT, CHEAP AND POWERFUL

ELECTRIC BATTERY.

Price Only $6.

We, the undersigned, have examined the American Electrizer, recently introduced in the City of New York. It is, in our judgment, the most compact, convenient, and the cheapest Medical Battery ever offered, and quite as powerful as many of the more expensive Batteries. It is so simple and practical that any one can operate it, and so cheap that almost any one can afford to buy it; therefore, it meets a popular want. It will be found of great value by Physicians generally, and ought to be in every family.

ENVELOPES.

The subscribers beg leave to inform Railroad Companies, Manufacturers, Banks, Bankers, Insurance Companies, and all others who use Envelopes that they are largely in the Envelope Manufacturing business, having Machinery for producing 1,000,000 Envelopes per day. Their Folding Machines are the best in use, gumming the seal flap and folding the Envelope at the same time, giving a fine even gumming. Their assortment embraces every style, from the cheapest to the best, including Manilla Envelopes for Railroads—at very low prices. The small Envelopes for City Railroads—printed with different denominations—such as 10, 25, 50 and 100 cents—supplied by the large quantity very cheap. Samples sent when requested.

NOTICE TO CONTRACTORS.

BIDS FOR THE CONSTRUCTION OF THE Columbus and Mineral Valley Railway will be received at the office of the undersigned, in the city of Columbus, Ohio, until noon, on the 10th day of January, 1877.

Bids may be made for the construction of one or more sections, or for the whole road, and may include all materials necessary to complete it for equipment.

The necessary maps, profiles and estimates for work can be found at the office of the undersigned, where all required information may be obtained.

The company reserve the right to reject any and all bids offered.

JOHN M. PUGH,
President C. & M. V. R'y Co.
